Introduction

Welcome to this 25th edition of the *Standard Catalog of World Paper Money, Modern Issues*. Many new issues, date varieties and signature combinations, as well as expanded text descriptions and price updates have been added. The How to Use This Catalog section has been updated.

Thailand and Venezuela each issued a new family of notes. South Africa added a series of Nelson Mandela Centenary commemorative notes. The 25th edition saw updates to many countries including West African States.

The catalog includes new and updated signature charts. Moving forward, we will continue to work on updating and creating additional signature charts for the catalog.

There has been a great deal of collaboration with expert contributors for this edition. Both new and continuing participants have provided pricing, images and data to the catalog. The type of information shared includes images and data for new issues, replacement images for older photos that have quality concerns, updating descriptive data, notification of typos and pricing review. It has been a great pleasure to work with all of them.

There have been a great number of editors and staff who have created and maintained the Standard Catalogs over the years. Their influence over the catalog remains today in terms of both the organization and presentation of data.

The efforts of the catalog contributors over the past 25 editions have been equally strong. It takes many voices to cover the world and we are still looking for more many years later.

A review of modern paper money collecting

Paper money collecting is probably as old as paper money itself. However, this segment of the numismatic hobby did not begin to reach a popularity approaching that of coin collecting until the latter half of the 1970s. While coins and paper money are alike in that both served as legal obligations to facilitate commerce, long-time paper money enthusiasts know the similarity ends there.

Coins were historically guaranteed by the intrinsic value of their metallic content - at least until recent years when virtually all circulating coins have become little more than legal tender tokens, containing little or no precious metal - while paper money possesses a value only when it is accepted for debts or converted into bullion or precious metals. With many note issues, this conversion privilege was limited and ultimately negated by the imposition of redemption cutoff dates.

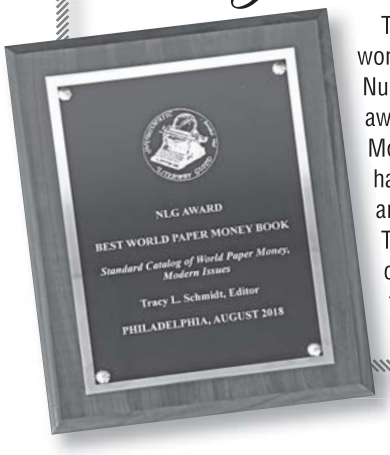
The development of widespread collector interest in paper money of most nations was inhibited by a near total absence of adequate documentation. No more than four decades ago collectors refered to only a few catalogs and dealer price lists of limited scope. The early catalogs authored by Albert Pick were assembled as stepping-stones to the ultimate objective, which became reality with publication of the first *Standard Catalog of World Paper Money* in 1975. That work provided collectors with fairly complete listings and up-to-date valuations of all recorded government note issues of the 20th century, incorporating Pick's previously unpublished manuscripts on Africa, Asia and Oceania, plus many earlier issues.

The completely revised and updated 25th edition of Volume III, *Modern Issues*, along with the companion 16th edition Volume II, *General Issues*, presents a substantial extension of the cataloging effort initiated in 1975 and revised in succeeding editions. As the most comprehensive world paper money references ever assembled, they fully document the many and varied legal tender paper currencies issued and circulated by over 380 past and current government issuing authorities of the world from 1368 to present.

Falling within the scope of the *Specialized Issues* volume are all state, local, municipal and company releases which circulated under auspices of recognized regional governments and their banking agents. These are notes which enjoyed legitimate circulation in their respective countries, sometimes for a broad region or area, sometimes for the entire nation. In compiling this catalog we have excluded those issues which had a seriously limited range of circulation, such as the vast number of private Notgeld issued by many German and Austrian states and cities particularly in the period during and between the World Wars, as well as similar Chinese local issues and those very limited circulation issues of other nations and time periods.

Tracy L. Schmidt
Editor

Congratulations!



The 23rd and 24th editions won the 2017 and 2018 Numismatic Literary Guild award for Best World Paper Money book. This recognition happened because of all who are involved with the catalog. Thank you to all of the contributors who help make the catalog bigger and better with every edition.

Acknowledgments

Over time, contributor enhancements to this catalog have been many and varied, and to recognize them all would be a volume in itself. Accordingly, we wish to acknowledge the following individuals who have exhibited a special enthusiasm for this edition.

How To Use This Catalog

Catalog listings consist of all regular and provisional notes attaining wide circulation in their respective countries for the period covered. Notes have been listed under the historical country name. Thus, Dahomey is not under Benin as had been the case in some past catalogs. The listings continue to be grouped by issue range rather than by denomination, and the listing format should make the bank name, issue dates as well as catalog numbers and denominations easier to locate.

The editors and publisher make no claim to absolute completeness, just as they acknowledge that some errors and pricing inequities may appear. Correspondence is invited with interested persons who have notes previously unlisted or who have information to enhance the presentation of existing listings in succeeding editions of this catalog.

Catalog Format

Catalog number

The Standard Catalog "Pick" numbers strive to bring order to the collection of world paper money. They are a proprietary numbering system having a structure that we follow in assigning numbers. We try to avoid changes once a number is assigned, but if it is necessary for long-term logic it is done.

Renumbering — Countries do not always release denominations in the easiest order for us to catalog. As a result, we try to number leaving gaps for anticipated releases. Sometimes lower denominations are released into a series than anticipated and then renumbering may be required so that the structure is correct moving forward.

Sometimes we have information that needs to be reevaluated that a contributor or a collector brings it to our attention. The removal or addition of such material may lead to a renumbering.

Prefix Letters — A prefix letter, capital "A", "B", "C", etc., is a letter which may be used when the printer of a note changes, or where there is a detail element or color change that is too significant to be a variety but not large enough to be a new note. It is most frequently used to indicate newly discovered denominations in a series that need to be fit into existing listings.

Suffix Letters — Notes that receive a suffix are used for fitting notes into a series of lower or higher denomination. Or it may be used like a prefix letter to indicate inewly discovered denominations in a series which needed to be fit into existing listings. It is used most frequently when the printer of a note changes, where there is a detail element or color change that is too significant to be a variety but not large enough to be a new note.

Listings of notes for regional circulation are distinguished from regular national issues by the prefix letter 'R'; military issues use a 'M' prefix; foreign exchange certificates are assigned a 'FX' prefix.

Varieties — Varieties are designated by "a", "b", "c", etc. under the listing for a specific note. Varieties are smaller changes and signature changes to a note. For a variety to be listed in the catalog, it must be of measureable significance and be something that may have a value impact over time. Not for example, a 1-2mm difference in spacing of a note element. The letters are assigned chronologically, which sometimes may result in renumbering, depending on how and when the data is received.

There are special designations of varieties that are used in the catalog.

- "ct" stands for color trial
- "p" stands for "proof"
- "r" stands for "replacement note" and "remainder note"
- "s" stands for "specimen"
- "x" stands for "error note"

Style Deviations — The Pick numbering system has been around for a long time. Because there have been many editorial voices focusing on different portions of the catalog over the years there are country areas that have a slightly different style. We try to continue to catalog them the way that they exist rather than redoing large sections.

Denomination — the value as shown on the note, in western numerals. When denominations are only spelled out, consult the numerics chart.

Date — the actual issue date as printed on the note in day-month-year order. Where more than one date appears on a note, only the latest is used. Where the note has no date, the designation ND is used, followed by a year date in parentheses when it is known. If a note is dated by the law or decree of authorization, the date appears with an L or D.

Descriptions of the note are broken up into one or more items as follows:

Color —The main color(s) of the face and underprint.

Design — The identification and location of the main design elements if known. Back design elements identified if known.

Printer — often a local printer has the name shown in full. Abbreviations are used for the most prolific printers. Refer to the list of printer abbreviations elsewhere in this introduction.

Valuations — are generally given under the grade headings of Good, Fine and Extremely Fine for early notes; and Very Good, Very Fine and Uncirculated for the later issues. Listings that do not follow these two patterns are clearly indicated. UNC followed by a value is used usually for specimens and proofs when lower grade headings are used for a particular series of issued notes. FV (for Face Value) is used as a value designation on new issues as well as older but still redeemable legal tender notes in lower conditions. FV may appear in one or both condition columns before Uncirculated, depending on the relative age and availability of the note in question. Some non-current notes which are still exchangeable carry FV designations.

Valuations used in this book are based on the IBNS grading standards and are stated in U.S. dollars. The pricing in the paper money catalogs is done by both contributors and staff. There are many different points of view represented by those reviewing pricing. Some contributors are dealers and some are collectors--all are passionate about the material they update and review.

The pricing in the catalog is impacted by the fact that it is not live data. There is a cutoff point when it is pulled for print. We do not speculate on what the market will be when the book will release while we are in production. We try to provide a stable pricing base, rather than responding to temporary spikes either high or low. When auction prices are available for rarer items we use them and cite the auction reference.

We try to include pricing for the grades that people are most likely to collect. There may be higher or lower grade notes available that are not printed in the catalog.

The prices are intended to be used only as a guide. There are many factors that influence a bank note's value including regional demand, overall rarity and condition. It is good for users to do some research in the specific market they are entering when buying and selling.

Denomination Guide

A comprehensive chart keying Western numerals to their non-Western counterparts is included elsewhere in this introduction aid in the identification of note types. This compilation features not only the basic numeral systems such as Arabic, Japanese and Indian, but also the more restricted systems such as Burmese, Ethiopian, Siamese, Tibetan, Hebrew, Mongolian and Korean. Additionally, the list includes other localized variations that have been applied to some paper money issues.

In consulting the numeral systems chart to determine the denomination of a note, one should remember that the actual numerals styles employed in any given area, or at a particular time, may vary significantly from these basic representations. Such variations can be deceptive to the untrained eye.

Dates & Date Listing Policy

In previous editions of this work it was the goal to provide a sampling of the many date varieties that were believed to exist. In recent times, as particular dates (and usually signature combinations) were known to be scarcer, that particular series was expanded to include listings of individual dates. At times this idea has been fully incorporated, but with some series it is not practicable, especially when just about every day in a given month could have been an issue date for the notes.

Accordingly, where it seems justifiable that date spans can be realistically filled with individual dates, this has been done. In order to accommodate the many new dates, the idea of providing variety letters to break them up into narrower spans of years has been used. If it appears that there are too many dates for a series, with no major differences in value, then a general inclusive date span is used (beginning and ending) and individual dates within this span are not shown.

Because a specific date is not listed does not necessarily mean it is rare. It may be just that it has not been reported. Those date varieties known to be scarcer are cataloged separately. Newly reported dates in a wide variety of listings are constantly being reported. This indicates that research into the whole area is very active, and a steady flow of new dates is fully expected upon publication of this edition.

Collection care

The proper preservation of a collection should be of paramount importance to all in the hobby - dealers, collectors and scholars.

Arrangement and sorting of a collection is most certainly a basic requirement. Storing the notes in safe paper envelopes and filing boxes should, perhaps, be considered only when building a new section of a collection, for accommodating varieties or for reasons of saving space when the collection has grown quickly.

Many paper money collections are probably housed in some form of plastic-pocketed album, which are today manufactured in many different sizes and styles to accommodate many types of world paper money. The number of bank note collectors has continued to grow. In response, some specialty manufacturers have developed paper money albums.

A word of concern: certain types of plastic and all vinyl used for housing notes may cause notes to become brittle over time, or cause an irreversible and harmful transfer of oils from the vinyl onto the bank notes.

With paper money, it is nearly impossible to acquire uncirculated specimens from a number of countries because of export laws or internal bank procedures. Bends from excessive counting, or even staple holes, are commonplace. Once acquiring a circulated note, the collector must endeavor to maintain its state of preservation.

The fact that there is a classification and value difference between notes with greater use or even damage is a matter of course. It is part of the opinion and personal taste of the individual collector to decide what is considered worthy of collecting and what to pay for such items.

For the purpose of strengthening and mending torn paper money, under no circumstances should one use plain cellophane tape or a similar material. These tapes warp easily, with sealing marks forming at the edges, and the tape frequently discolors. Only with the greatest of difficulty (and often not at all) can these tapes be removed, and damage to the note or the printing is almost unavoidable. The best material for mending tears is an archival tape used for the treatment and repair of documents. There are professionals who repair badly damaged notes,

The IBNS (www.theibns.org) has a wonderful new guide available as a free download on their website. *The IBNS Introduction to Banknotes and Banknote Collecting* is available as a download and a read online pdf. I highly recommend this wonderful 36-page pulbication for everyone who wants to understand more about collecting banknotes.

Photo Submissions:

If you would like to submit photos we can accept them for existing listings electronically as JPEGs in an email attachment. To be useful, they must be named with the country and the catalog number and be sized at 100% at 300 dpi. For suggested new listing images please name with the country and denomination provide the correct accompanying listing text in the email. My email address is Tracy.Schmidt@fwmedia.com.

Data Submissions:

Making the most accurate information available to users of our catalogs is important. If you have suggested corrections to existing listings please feel free to contact me at Tracy.Schmidt@fwmedia.com.

IBNS Grading Standards For World Paper Money

The following introduction and Grading Guide is the result of work prepared under the guidance of the Grading Committee of the International Bank Note Society (IBNS). It has been adopted as the official grading standards of that society.

Introduction

Grading is the most controversial component of paper money collecting today. Small differences in grade can mean significant Vdifferences in value. The process of grading is so subjective and dependent on external influences such as lighting, that even a very experienced individual may well grade the same note differently on separate occasions.

To facilitate communication between sellers and buyers, it is essential that grading terms and their meanings be as standardized and as widely used as possible. This standardization should reflect common usage as much as practicable. One difficulty with grading is that even the actual grades themselves are not used everywhere by everyone. For example, in Europe the grade 'About Uncirculated' (AU) is not in general use, yet in North America it is widespread. The European term 'Good VF' may roughly correspond to what individuals in North America call 'Extremely Fine' (EF).

The grades and definitions as set forth below cannot reconcile all the various systems and grading terminology variants. Rather, the attempt is made here to try and diminish the controversy with some common-sense grades and definitions that aim to give more precise meaning to the grading language of paper money.

How to look at a banknote

In order to ascertain the grade of a note, it is essential to examine it out of a holder and under a good light. Move the note around so that light bounces off of it at different angles. Try holding the note obliquely, so the note is even with your eye as you look up at the light. Hard-to-see folds or slight creases will show up under such examination. Some individuals also lightly feel along the surface of the note to detect creasing.

Cleaning, Washing, Pressing of Banknotes

a) Cleaning, washing or pressing paper money is generally harmful and reduces both the grade and the value of a note. At the very least, a washed or pressed note may lose its original sheen and its surface may become lifeless and dull. The defects a note had, such as folds and creases, may not necessarily be completely eliminated and their telltale marks can be detected under a good light. Carelessly washed notes may also have white streaks where the folds or creases were (or still are).

b) Processing of a note which started out as Extremely Fine will automatically reduce it at least one full grade.

Unnatural Defects

Glue, tape or pencil marks may sometimes be successfuly removed. While such removal will leave a cleaned surface, it will improve the overall appearance of the note without concealing any of its defects. Under such circumstances, the grade of that note may also be improved.

The words "pinholes", "staple holes", "trimmed", "graffiti", "writing on face", "tape marks" etc. should always be added to the description of a note. It is realized that certain countries routinely staple their notes together in groups before issue. In such cases, the description can include a comment such as "usual staple holes" or something similar. After all, not everyone knows that certain notes cannot be found otherwise.

The major point of this section is that one cannot lower the overall grade of a note with defects simply because of the defects. The value will reflect the lowered worth of a defective note, but the description must always include the specific defects.

Grading

Definitions of Terms

UNCIRCULATED: A perfectly preserved note, never mishandled by the issuing authority, a bank teller, the public or a collector.

Paper is clean and firm, without discoloration. Corners are sharp and square without any evidence of rounding. (Rounded corners are often a tell-tale sign of a cleaned or "doctored" note.)

Note: Some note issues are most often available with slight evidence of very light counting folds which do not "break" the paper. Also, French-printed notes usually have a slight ripple in the paper. Many collectors and dealers refer to such notes as AU-UNC.

ABOUT UNCIRCULATED: A virtually perfect note, with some minor handling. May show very slight evidence of bank counting folds at a corner or one light fold through the center, but not both. An AU note canot be creased, a crease being a hard fold which has usually "broken" the surface of the note.

Paper is clean and bright with original sheen. Corners are not rounded.

Note: Europeans will refer to an About Uncirculated or AU note as "EF-Unc" or as just "EF". The Extremely Fine note described below will often be referred to as "GVF" or "Good Very Fine".

EXTREMELY FINE: A very attractive note, with light handling. May have a maximum of three light folds or one strong crease.

Paper is clean and firm, without discoloration. Corners are sharp and square without any evidence of rounding. (Rounded corners are often a tell-tale sign of a cleaned or "doctored" note.)

VERY FINE: An attractive note, but with more evidence of handling and wear. May have several folds both vertically and horizontally.

Paper may have minimal dirt, or possible color smudging. Paper itself is still relatively crisp and not floppy.

There are no tears into the border area, although the edges do show slight wear. Corners also show wear but not full rounding.

FINE: A note that shows consideralble circulation, with many folds, creases and wrinkling.

Paper is not excessively dirty but may have some softness.

Edges may show much handling, with minor tears in the border area. Tears may not extend into the design. There will be no center hole because of excessive folding.

Colors are clear but not very bright. A staple hole or two would would not be considered unusual wear in a Fine note. Overall appearance is still on the desirable side.

VERY GOOD: A well used note, abused but still intact.

Corners may have much wear and rounding, tiny nicks, tears may extend into the design, some discoloration may be present, staining may have occurred, and a small hole may sometimes be seen at center from excessive folding.

Staple and pinholes are usually present, and the note itself is quite limp but NO pieces of the note can be missing. A note in VG condition may still have an overall not unattractive appearance.

GOOD: A well worn and heavily used note. Normal damage from prolonged circulation will include strong multiple folds and creases, stains, pinholes and/or staple holes, dirt, discoloration, edge tears, center hole, rounded corners and an overall unattractive appearance. No large pieces of the note may be missing. Graffiti is commonly seen on notes in G condition.

FAIR: A totally limp, dirty and very well used note. Larger pieces may be half torn off or missing besides the defects mentioned under the Good category. Tears will be larger, obscured portions of the note will be bigger.

POOR: A "rag" with severe damage because of wear, staining, pieces missing, graffiti, larger holes. May have tape holding pieces of the note together. Trimming may have taken place to remove rough edges. A Poor note is desirable only as a "filler" or when such a note is the only one known of that particular issue.

A word on crimps to otherwise uncirculated notes.

Due to inclusion of wide security foils, crimps appear at the top and bottom edge during production or counting. Thus notes which are uncirculated have a crimp. Examples without these crimps are beginning to command a premium.

Bank Note Printers

Printers' names, abbreviations or monograms will usually appear as part of the frame design or below it on face and/or back. In some instances the engraver's name may also appear in a similar location on a note. The following abbreviations identify printers for many of the notes listed in this volume:

ABNC ..... American Bank Note Company (USA)
BABN(C) ..... British American Bank Note Co., Ltd. (Canada)
B&S ..... Bouligny & Schmidt (Mexico)

Dating

Determining the date of issue of a note is a basic consideration of attribution. As the reading of dates is subject not only to the vagaries of numeric styling, but to variations in dating roots caused by the observation of differing religious eras or regal periods from country to country, making this determination can sometimes be quite difficult. Most countries outside the North African and Oriental spheres rely on Western date numerals and the Christian (AD) reckoning, although in a few instances note dating has been tied to the year of a reign or government.

Countries of the Arabic sphere generally date their issues to the Muslim calendar that commenced on July 16, 622 AD when the prophet Mohammed fled from Mecca to Medina. As this calendar is reckoned by the lunar year of 354, its is about three percent (precisely 3.3 percent) shorter than the Christian year. A conversion formula requires you to subtract that percent from the AH date, and then add 621 to gain the AD date.

A degree of confusion arises here because the Muslim calendar is not always based on the lunar year (AH). Afghanistan and Iran (Persia) used a calendar based on a solar year (SH) introduced around 1920. These dates can be converted to AD by simply adding 621. In 1976, Iran implemented a solar calendar based on the founding of the Iranian monarchy in 559 BC. The first year observed on this new system was 2535(MS) which commenced on March 20, 1976.

Several different eras of reckoning, including the Christian (AD) and Muslim (AH), have been used to date paper money of the Indian subcontinent. The two basic systems are the Vikrama Samvat (VS) era that dates from October 18, 58 BC, and the Saka (SE) era, the origin of which is reckoned from March 3, 78 AD.

Dating according to both eras appears on notes of several native states and countries of the area.

Thailand (Siam) has observed three different eras for dating. The most predominant is the Buddhist (BE) era originating in 543 BC. Next is the Bangkok or Ratanakosind-sok (RS) era dating from 1781 AD (and consisting of only 3 numerals), followed by the Chula-Sakarat (CS) era dating from 638 AD, with the latter also observed in Burma.

Other calendars include that of the Ethiopian (EE) era that commenced 7 years, 8 months after AD dating, and that of the Hebrew nation beginning on October 7, 3761 BC. Korea claims a dating from 2333 BC which is acknowledged on some note issues.

The following table indicates the years dating from the various eras that correspond to 2012 by Christian (AD) calendar reckoning. It must be remembered that there are overlaps between the eras in some instances:

Christian Era (AD)	—	2012
Mohammedan era (AH)	—	AH1433
Solar year (SH)	—	SH1391
Monarchic Solar era (MS)	—	MS2571
Vikrama Samvat era (VS)	—	SE2068
Saka era (SE)	—	Saka 1933
Buddhist era (BE)	—	BE2555
Bangkok era (RS)	—	RS301
Chula-Sakarat era (CS)	—	CS1374
Ethiopian era (EE)	—	EE2004
Jewish era	—	5772
Korean era	—	4345

Paper money of Oriental origin - principally Japan, Korea, China, Turkestan and Tibet - generally date to the year of the government, dynastic, regnal or cyclical eras, with the dates indicated in Oriental characters usually reading from right to left. In recent years some dating has been according to the Christian calendar and in Western numerals reading from left to right.

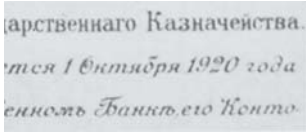
More detailed guides to the application of the less prevalent dating systems than those described, and others of strictly local nature, along with the numeral designations employed, are presented in conjunction with the appropriate listings.

Some notes carry dating according to both the locally observed and Christian eras. This is particularly true in the Arabic sphere, where the Muslim date may be indicated in Arabic numerals and the Christian date in Western numerals.

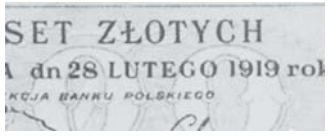
In general the date actually shown on a given paper money issue is indicated in some manner. Notes issued by special Law or Decree will have L or D preceding the date. Dates listed within parentheses may differ from the date appearing on the note; they have been documented by other means. Undated notes are listed with ND, followed by a year only when the year of actual issue is known.

Timing differentials between the 354-day Muslim and the 365-day Christian year cause situations whereby notes bearing dates of both eras have two date combinations that may overlap from one or the other calendar system.

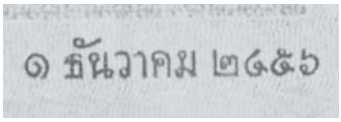
China - Republic 9th year, 1st month, 15th day (15.1.1920), read r. to l.



Russia-1 October 1920



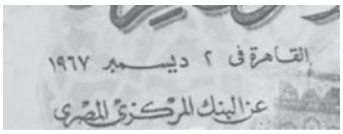
Poland - 28 February 1919



Thailand (Siam) - 1 December 2456

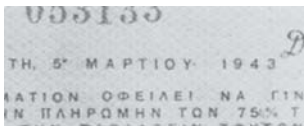
Israel - 1973, 5733

Indonesia - 1 January 1950

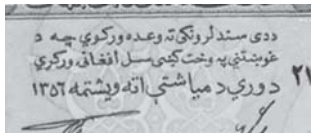


Egypt - 1967 December 2

Korea - 4288 (1955)



Greece - 5 March 1943



Afghanistan - Solar Year 1356

Hejira Date Conversion Chart

HEJIRA (Hijira, Hegira), the name of the Muslim era (A.H. = Anno Hegirae) dates back to the Christian year 622 when Mohammed "fled" from Mecca, escaping to Medina to avoid persecution from the Koreish tribemen. Based on a lunar year the Muslim year is 11 days shorter.

Macedonia / National Bank of the Republic of Macedonia

Ukraine / Unkranian National Bank

Specimen Notes

To familiarize private banks, central banks, law enforcement agencies and treasuries around the world with newly issued currency, many nations provide special "Specimen" examples of their notes. Specimens are actual bank notes, complete with dummy or all zero serial numbers and signatures bearing the overprinted and/or perforated word "SPECIMEN" in the language of the country of origin itself or where the notes were printed.

Some countries have made specimen notes available for sale to collectors. These include Cuba, Czechoslovakia, Poland and Slovakia after World War II and a special set of four denominations of Jamaica notes bearing red matched star serial numbers. Also, in 1978, the Franklin Mint made available to collectors specimen notes from 15 nations, bearing matching serial numbers and a Maltese cross device used as a prefix. Several other countries have also participated in making specimen notes available to collectors at times.

Aside from these collectors issues, specimen notes may sometimes comand higher prices than regular issue notes of the same type, even though there are far fewer collectors of specimens. In some cases, notably older issues in high denominations, specimens may be the only form of such notes available to collectors today. Specimen notes are not legal tender or redeemable, thus have no real "face value".

The most unusual forms of specimens were produced by Waterlow and Sons. They printed special off-colored notes for salesman's sample books adding the word SPECIMEN and their seal.

Some examples of how the word "SPECIMEN" is represented in other languages or on notes of other countries follow:

AMOSTRA: Brazil
CAMPIONE: Italy
CONTOH: Malaysia
EKSEMPLAAR: South Africa
ESPƒCIME: Portugal and Colonies
ESPECIMEN: Various Spanish-speaking nations
GIAY MAU: Vietnam
MINTA: Hungary
MODELO: Brazil
MODEL: Albania
MUSTER: Austria, Germany
MUESTRA: Various Spanish-speaking nations
NUMUNDEDIR GECMEZ: Turkey
ORNEKTIR GECMEZ: Turkey
ОБРАЗЕЦ or **ОБРАЗЕЦЪ:** Bulgaria, Russia, U.S.S.R.
PARAUGS: Latvia
PROFTRYK: Sweden
UZORAK: Croatia
WZOR: Poland
ЗАГВАР: Mongolia

樣本 : China (printed or perforated)
見樣 : Korea (old)
គំរូ : Kampuchea
견양 : Korea (new)

International Bank Note Society

The International Bank note Society (IBNS) was formed in 1961 to promote the study and collecting of world paper money. A membership of almost 2,000 in over 90 nations draws on the services of the Society for advancing their knowledge and their collections.

The benefits of the society include the quarterly IBNS Journal, a full color, 80-page magazine featuring learned writings on the notes of the world, their history, artistry and technical background. Additionally each member receives a directory, which lists members by name—with their contact details and collecting interests—as well as by geographic location. The Society conducts auctions in which all members may participate.

One of the greatest strengths of IBNS membership is the facility for correspondence with other members around the world for purposes of exchanging notes, and for obtaining information and assistance with research projects or the identification of notes. Information about the Society can be found at www.theIBNS.org

Application for membership must be completed on line at:
www.theIBNS.org

For further information please contact **us-secretary@ibns.biz** or **uk-secretary@ibns.biz**

An Invitation

To purchase additional Krause Publications titles on banknotes please visit www.shopnumismaster.com. You will find our more specialized catalogs available there for purchase in addition to the rest of the standard catalog series.

With the advances in technology, images of notes now appear with the word "SPECIMEN" on them. These are images of notes never printed physically as specimens. As a result, the catalog inclusion of a specimen note will only happen if there is physical proof of the note. If you have the note in your collection and take a picture of it where it is clearly real it will be considered.

Specimen note Cambodia #49s stamped once in box.

Specimen note Haiti #183s is stamped multiple times and has three punch holes.

Specimen note Uruguay #67As is prominently specimen stamped.

Security Devices

ASCENDING SIZE SERIAL NUMBER - A serial number with each digit slightly increasing in height and width. Both horizontal and vertical formats have been used. Czech Republic and Slovakia are among the countries where this may be found.

BAR CODE AND NUMERALS - Used mainly by banks for checks. Some countries have used these on banknotes. Scotland has a bar code, and Canada has used it with serial numbers. Sometimes magnetic.

COLORED FIBERS - Fibers usually red, blue or green, that are added either into the pulp mix to be randomly flowed onto the paper as it is made, or distributed onto the drying paper in particular areas of the page forming 'bars' of colored fibers, quite visible to the naked eye.

EMBEDDED SECURITY THREAD - A high strength thread, sometimes magnetic, embedded into the paper at the beginning of the drying stage. Looks to the eye as a solid dark strip within the paper.

FACE-BACK OPTICAL REGISTRATION DESIGN (TRANSPARENT REGISTER) - A design technique where half of an image in a framed area is printed on the face, and the other half is printed on the back, in exact register, so when held to a light, the two half images form one full image.

FOIL IMPRINTS - Shaped metal foil applied to the printed note, usually with an adhesive. Sometimes the foil is embossed with an image.

HOLOGRAM - Shiny application to the note containing an image that changes in design and color depending upon the viewing angle.

INVISIBLE PRINTING - Designs printed with inks detectable only when viewed under bright sunlight or ultraviolet light. Sometimes used to replace the more expensive watermark on low value notes.

LATENT IMPRESSIONS -Portions of the note containing sculptured engraving, making some legends or designs visible only when held to the light at certain angles.

KINEGRAM(r) - Similar to a foil imprint, the design and color changes at different viewing angles.

METALLIC INK - An ink with very fine granules of metal, thus giving the ink a metallic sheen.

MICRO PRINTING - Very small letters added to an intaglio printing plate, sometimes as single lines, or in multiple repeating lines forming a larger block in the underprint design. Intaglio printing keeps the design sharp and clear, but if the note is counterfeit the microprinted area usually becomes muddy and unclear.

OPTICAL VARIABLE DEVICE (OVD) - A foil that displays a three-dimensional image when viewed under proper lighting conditions. Similar to foil imprints.

OPTICALLY VARIABLE INK - An ink when printed in a special pattern changes shades when viewed and then tilted slightly.

PLANCHETTES - Tiny multicolored discs of paper embedded into the pulp mix or randomly sprinkled throughout the paper as it is drying.

RAISED MARKS - A type of braille design in notes, enabling blind people to identify note values.

SEGMENTED SECURITY THREAD -A continuous security thread, usually wide and with lettering, that is added into the paper during the drying process. Once added, a special tool is used to scrape the wet paper off only above the thread, and usually in a particular pattern, thus exposing alternate areas of the embedded thread.

UV-ULTRAVIOLET (FLOURESCENT) - When viewed in a darkened area, and exposed to a special low or high frequency UV light, a design, value, or paper fibers will glow.

WATERMARK - Extensively used as a security measure, the watermark is created by a raised design on a drying cylinder applied towards the end of the paper manufacturing process. The raised design causes a thin area in the paper which when held to the light reveals an image. This image can be words, design, or a portrait. Recent developments have made graduations available. Thus, rather than a light/dark watermark, a gradual light to dark fade can be achieved.

The Islamic Republic of Afghanistan, which occupies a mountainous region of Southwest Asia, has an area of 647,500 sq. km. and a population of 32.74 million. Capital: Kabul. It is bordered by Iran, Pakistan, Tajikistan, Turkmenistan, Uzbekistan and Peoples Republic of China's Sinkiang Province. Agriculture and herding are the principal industries; textile mills and cement factories are additions to the industrial sector. Cotton, wool, fruits, nuts, sheepskin coats and hand-woven carpets are exported but foreign trade has been sporadic since 1979.

Ahmad Shah Durrani unified the Pashtun tribes and founded Afghanistan in 1747. The country served as a buffer between the British and Russian empires until it won independence from national British control in 1919. A brief experiment in democracy ended in a 1973 coup and a 1978 Communist counter-coup. The Soviet Union invaded in 1979 to support the tottering Afghan Communist regime, touching off a long and destructive war. The USSR withdrew in 1989 under relentless pressure by internationally supported anti-Communist mujahedin rebels. A series of subsequent civil wars saw Kabul finally fall in 1996 to the Taliban, a hardline Pakistani-sponsored movement that emerged in 1994 to end the country's civil war and anarchy. Following the 11 September 2001 terrorist attacks in New York City, a US, Allied, and anti-Taliban Northern Alliance military action toppled the Taliban for sheltering Osama Bin Ladin. The UN-sponsored Bonn Conference in 2001 established a process for political reconstruction that included the adoption of a new constitution, a presidential election in 2004, and National Assembly elections in 2005. In December 2004, Hamid Karzai became the first democratically elected president of Afghanistan and the National Assembly was inaugurated the following December. Despite gains toward building a stable central government, a resurgent Taliban and continuing provincial instability - particularly in the south and the east - remain serious challenges for the Afghan Government.

The Republic of Albania, a Balkan republic bounded by the Montenegro, Macedonia, Greece and the Adriatic Sea, has an area of 11,100 sq. mi. (28,748 sq. km.) and a population of 3.5 million. Capital: Tirana. The country is mostly agricultural, although recent progress has been made in manufacturing and mining sectors. Petroleum, chrome, iron, copper, cotton textiles, tobacco and wood products are exported.

Since it had been part of the Greek and Roman Empires, little is known of the early history of Albania. After Roman rule it was overrun by Goths, Byzantines, Venetians and Turks. Skanderbeg, the national hero, resisted the Turks and established an independent Albania in 1443. In 1468 the country again fell to the Turks and remained part of the Ottoman Empire for the next 400 years.

Independence was re-established by revolt in 1912, and the present borders established in 1913 by a conference of European powers which, in 1914, placed Prince William of Wied on the throne - popular discontent forced his abdication within months. In 1920, following World War I and occupancy by several nations, a republic was set up. Ahmet Zogu seized the presidency in 1925, and in 1928, proclaimed him self king with the title Zog I. At the start of World War II, when Albania was invaded by Italy, Zog fled. Victor Emanuel of Italy ruled for a time. Upon the surrender of Italy to the Allies in 1943, German troops occupied the country. They withdrew in 1944, and communist partisans seized power, naming Gen. Enver Hoxha provisional president. IN 1946, following a vicotry by the communist front in 1945 elections, a new constitution modeled on that of the Soviet Union was adopted. In accordance with the 1976 constitution the official name of the country was changes from the Peoples Republic of Albania to the Peoples Socialist Republic of Albania. A general strike by trade unions in 1991 forced the communist government to resign. A new government was elected in March 1992. In 1997 Albania had a major financial crisis which caused civil disturbances and the fall of the administration.

The People's Democratic Republic of Algeria, a North African country fronting on the Mediterranean Sea between Tunisia and Morocco, has an area of 2.382 million sq. km. and a population of 33.77 million. Capital: Algiers. Most of the country's working population is engaged in agriculture although industrial diversification, financed by oil revenues, is making steady progress. Wines, fruits, iron and zinc ores, phosphates, tobacco products, liquified natural gas, and petroleum are exported.

After more than a century of rule by France, Algerians fought through much of the 1950s to achieve independence in 1962. Algeria's primary political party, the National Liberation Front (FLN), has dominated politics ever since. Many Algerians in the subsequent generation were not satisfied, however, and moved to counter the FLN's centrality in Algerian politics. The surprising first round success of the Islamic Salvation Front (FIS) in the December 1991 balloting spurred the Algerian army to intervene and postpone the second round of elections to prevent what the secular elite feared would be an extremist-led government from assuming power. The army began a crackdown on the FIS that spurred FIS supporters to begin attacking government targets. The government later allowed elections featuring pro-government and moderate religious-centered parties, but did not appease the activists who progressively widened their attacks. The fighting escalated into an insurgency, which saw intense fighting between 1992-98 and which resulted in over 100,000 deaths - many attributed to indiscriminate massacres of villagers by extremists. The government gained the upper hand by the late-1990s and FIS's armed wing, the Islamic Salvation Army, disbanded in January 2000. However, small numbers of armed militants persist in confronting government forces and conducting ambushes and occasional attacks on villages. The army placed Abdelaziz Bouteflika in the presidency in 1999 in a fraudulent election but claimed neutrality in his 2004 landslide reelection victory. Longstanding problems continue to face Bouteflika in his second term, including the ethnic minority Berbers' ongoing autonomy campaign, large-scale unemployment, a shortage of housing, unreliable electrical and water supplies, government inefficiencies and corruption, and the continuing activities of extremist militants. The 2006 merger of the Salafist Group for Preaching and Combat (GSPC) with al-Qaida (followed by a name change to al-Qaida in the Lands of the Islamic Maghreb) signaled an increase in bombings, including high-profile, mass-casualty suicide attacks targeted against the Algerian government and Western interests. Algeria must also diversify its petroleum-centered economy, which has yielded a large cash reserve but which has not been used to redress Algeria's many social and infrastructure problems.

144 **2000 Dinars** **VF UNC**
24.3.2011. Blue-green and multicolor. FV 65.00

The Peoples Republic of Angola, a country on the west coast of southern Africa bounded by Zaïre, Zambia and Namibia (South-West Africa), has an area of 1.25 million sq. km. and a population of 12.53 million, predominantly Bantu in origin. Capital: Luanda. Most of the people are engaged in subsistence agriculture. However, important oil and mineral deposits make Angola potentially one of the richest countries in Africa. Iron and diamonds are exported.

Angola is rebuilding its country after the end of a 27-year civil war in 2002. Fighting between the Popular Movement for the Liberation of Angola (MPLA), led by Jose Eduardo Dos Santos, and the National Union for the Total Independence of Angola (UNITA), led by Jonas Savimbi, followed independence from Portugal in 1975. Peace seemed imminent in 1992 when Angola held national elections, but UNITA renewed fighting after being beaten by the MPLA at the polls. Up to 1.5 million lives may have been lost - and 4 million people displaced - in the quarter century of fighting. Savimbi's death in 2002 ended UNITA's insurgency and strengthened the MPLA's hold on power. President Dos Santos has announced legislative elections will be held in September 2008, with presidential elections planned for sometime in 2009.

RULERS:
Portuguese to 1975

MONETARY SYSTEM:
1 Escudo = 100 Centavos, 1954-77
1 Kwanza = 100 Lwei, 1977-95
1 Kwanza Reajustado = 1,000 “old” Kwanzas, 1995-1999
1 Kwanza = 1,000,000 Kwanzas Reajustados, 1999-

The Argentine Republic, located in South America, has an area of 2.76 million sq. km. and a population of 40.48 million. Capital: Buenos Aires. Its varied topography ranges from the subtropical lowlands of the north to the towering Andean Mountains in the west and the windswept Patagonian steppe in the south. The rolling, fertile pampas of central Argentina are ideal for agriculture and grazing, and support most of the republic's population. Meat packing, flour milling, textiles, sugar refining and dairy products are the principal industries. Oil is found in Patagonia, but most of the mineral requirements must be imported.

In 1816, the United Provinces of the Rio Plata declared their independence from Spain. After Bolivia, Paraguay, and Uruguay went their separate ways, the area that remained became Argentina. The country's population and culture were heavily shaped by immigrants from throughout Europe, but most particularly Italy and Spain, which provided the largest percentage of newcomers from 1860 to 1930. Up until about the mid-20th century, much of Argentina's history was dominated by periods of internal political conflict between Federalists and Unitarians and between civilian and military factions. After World War II, an era of Peronist authoritarian rule and interference in subsequent governments was followed by a military junta that took power in 1976. Democracy returned in 1983, and has persisted despite numerous challenges, the most formidable of which was a severe economic crisis in 2001-02 that led to violent public protests and the resignation of several interim presidents. The economy has recovered strongly since bottoming out in 2002.

MONETARY SYSTEM:

1 Peso (m/n) = 100 Centavos to 1970
1 'New' Peso (Ley 18.188) = 100 'Old' Pesos (m/n), 1970-83
1 Peso Argentino = 10,000 Pesos, (Ley 18.188) 1983-85
1 Austral = 100 Centavos = 1000 Pesos Argentinos, 1985-92
1 Peso = 10,000 Australes, 1992-
1 Peso = 8 Reales = 100 Centavos

REPLACEMENT NOTES:

#260d onward: R prefix before serial #.

The Republic of Armenia is bounded to the north by Georgia, to the east by Azerbaijan and to the south and west by Turkey and Iran. It has an area of 29,743 sq. km and a population of 2.97 million. Capital: Yerevan. Agriculture including cotton, vineyards and orchards, hydroelectricity, chemicals - primarily synthetic rubber and fertilizers, and vast mineral deposits of copper, zinc and aluminum and production of steel and paper are major industries.

Armenia prides itself on being the first nation to formally adopt Christianity (early 4th century). Despite periods of autonomy, over the centuries Armenia came under the sway of various empires including the Roman, Byzantine, Arab, Persian, and Ottoman. During World War I in the western portion of Armenia, Ottoman Turkey instituted a policy of forced resettlement coupled with other harsh practices that resulted in an estimated 1 million Armenian deaths. The eastern area of Armenia was ceded by the Ottomans to Russia in 1828; this portion declared its independence in 1918, but was conquered by the Soviet Red Army in 1920. Armenian leaders remain preoccupied by the long conflict with Muslim Azerbaijan over Nagorno-Karabakh, a primarily Armenian-populated region, assigned to Soviet Azerbaijan in the 1920s by Moscow. Armenia and Azerbaijan began fighting over the area in 1988; the struggle escalated after both countries attained independence from the Soviet Union in 1991. By May 1994, when a cease-fire took hold, Armenian forces held not only Nagorno-Karabakh but also a significant portion of Azerbaijan proper. The economies of both sides have been hurt by their inability to make substantial progress toward a peaceful resolution. Turkey imposed an economic blockade on Armenia and closed the common border because of the Armenian separatists' control of Nagorno-Karabakh and surrounding areas.

Aruba was the second-largest island of the Netherlands Antilles and is situated near the Venezuelan coast. The island has an area of 193 sq. km. and a population of 101,500. Capital: Oranjestad, named after the Dutch royal family.Discovered and claimed for Spain in 1499, Aruba was acquired by the Dutch in 1636. The island's economy has been dominated by three main industries. A 19th century gold rush was followed by prosperity brought on by the opening in 1924 of an oil refinery. The last decades of the 20th century saw a boom in the tourism industry. Aruba seceded from the Netherlands Antilles in 1986 and became a separate, autonomous member of the Kingdom of the Netherlands. Movement toward full independence was halted at Aruba's request in 1990.

#6-10 with low matched serial numbers housed in a six-page special presentation folder. 200 sets produced. 710

The Commonwealth of Australia, the smallest continent and largest island in the world, is located south of Indonesia between the Indian and Pacific oceans. It has an area of 7.68 million sq. km. and a population of 21 million. Capital: Canberra. Due to its early and sustained isolation, Australia is the habitat of such curious and unique fauna as the kangaroo, koala, platypus, wombat and barking lizard. The continent possesses extensive mineral deposits, the most important of which are gold, coal, silver, nickel, uranium, lead and zinc. Livestock raising, mining and manufacturing are the principal industries. Chief exports are wool, meat, wheat, iron ore, coal and nonferrous metals.

Aboriginal settlers arrived on the continent from Southeast Asia about 40,000 years before the first Europeans began exploration in the 17th century. No formal territorial claims were made until 1770, when Capt. James Cook took possession in the name of Great Britain. Six colonies were created in the late 18th and 19th centuries; they federated and became the Commonwealth of Australia in 1901. The new country took advantage of its natural resources to rapidly develop agricultural and manufacturing industries and to make a major contribution to the British effort in World Wars I and II. In recent decades, Australia has transformed itself into an internationally competitive, advanced market economy. It boasted one of the OECD's fastest growing economies during the 1990s, a performance due in large part to economic reforms adopted in the 1980s. Long-term concerns include climate-change issues such as the depletion of the ozone layer and more frequent droughts, and management and conservation of coastal areas, especially the Great Barrier Reef.

The Republic of Austria (Oesterreich), a parliamentary democracy located in mountainous central Europe, has an area of 83,870 sq. km. and a population of 8.2 million. Capital: Vienna. Austria is primarily an industrial country. Machinery, iron and steel, textiles, yarns and timber are exported.

Once the center of power for the large Austro-Hungarian Empire, Austria was reduced to a small republic after its defeat in World War I. Following annexation by Nazi Germany in 1938 and subsequent occupation by the victorious Allies in 1945, Austria's status remained unclear for a decade. A State Treaty signed in 1955 ended the occupation, recognized Austria's independence, and forbade unification with Germany. A constitutional law that same year declared the country's "perpetual neutrality" as a condition for Soviet military withdrawal. The Soviet Union's collapse in 1991 and Austria's entry into the European Union in 1995 have altered the meaning of this neutrality. A prosperous, democratic country, Austria entered the EU Economic and Monetary Union in 1999.

MONETARY SYSTEM:
1 Schilling = 100 Groschen, 1924-1938, 1945-2002
1 Euro = 100 Cents, 2002-

Note: For later issues used in Austria, see European Union listings.

The Republic of Azerbaijan includes the Nakhichevan Autonomous Republic and Nagorno-Karabakh Autonomous Region (which was abolished in 1991). Situated in the eastern area of Transcaucasia, it is bordered in the west by Armenia, in the north by Georgia and the Russian Federation of Dagestan, to the east by the Caspian Sea and to the south by Iran. It has an area of 86,600 sq. km. and a population of 8.18 million. Capital: Baku. The area is rich in mineral deposits of aluminum, copper, iron, lead, salt and zinc, with oil as its leading industry. Agriculture and livestock follow in importance.

Azerbaijan - a nation with a majority-Turkic and majority-Muslim population - was briefly independent from 1918 to 1920; it regained its independence after the collapse of the Soviet Union in 1991. Despite a 1994 cease-fire, Azerbaijan has yet to resolve its conflict with Armenia over the Azerbaijani Nagorno-Karabakh enclave (largely Armenian populated). Azerbaijan has lost 16% of its territory and must support some 600,000 internally displaced persons as a result of the conflict. Corruption is ubiquitous, and the government has been accused of authoritarianism. Although the poverty rate has been reduced in recent years, the promise of widespread wealth from development of Azerbaijan's energy sector remains largely unfulfilled.

MONETARY SYSTEM:
1 Manat = 10 Soviet Rubles, to 1992
1 Manat = 100 Azer Qepik, 1992-2005
1 New Manat = 5,000 Old Manat, 2005-

REPUBLIC

Azerbaycan Milli Banki

1992 ND Issue

In 1993, due to a cash crisis, bonds of the State Loan of Azerbaijan Republic were officially used as currency; however, they were not freely accepted in the local bazaars. The acceptance term of these bonds in the branches of the State Savings Bank was until 1 June 2000.

The Commonwealth of The Bahamas is an archipelago of about 3,000 islands, cays and rocks located in the Atlantic Ocean east of Florida and north of Cuba. The total land area of the island chain is 10,070 sq. km. They have a population of 307,400. Capital: Nassau. The Bahamas imports most of their food and manufactured products and exports cement, refined oil, pulpwood and lobsters. Lucayan Indians inhabited the islands when Christopher Columbus first landed on San Salvador in 1492. British settlement began in 1647; the islands became a colony in 1783. Since attaining independence from the UK in 1973, the Bahamas have prospered via tourism and international banking and investment management.

The State of Bahrain, a group of islands in the Persian Gulf off Saudi Arabia, has an area of 665 sq. km. and a population of 718,300. Capital: Manama. Prior to the depression of the 1930s, the economy was based on pearl fishing. Petroleum and aluminum industries and transit trade are the vital factors in the economy today.

In 1783, the al-Khalifa family captured Bahrain from the Persians. In order to secure these holdings, it entered into a series of treaties with the UK during the 19th century that made Bahrain a British protectorate. The archipelago attained its independence in 1971. Bahrain's small size and central location among Persian Gulf countries require it to play a delicate balancing act in foreign affairs among its larger neighbors. Facing declining oil reserves, Bahrain has turned to petroleum processing and refining and has transformed itself into an international banking center. King Hamad bin Isa al-Khalifa, after coming to power in 1999, pushed economic and political reforms to improve relations with the Shia community. Shia political societies participated in 2006 parliamentary and municipal elections. Al Wifaq, the largest Shia political society, won the largest number of seats in the elected chamber of the legislature. However, Shi'a discontent has resurfaced in recent years with street demonstrations and occasional low-level violence.

RULERS:
Isa Bin Sulman al-Khalifa, 1961-1999

ND (1978). #1-6 and 10 with overprint: *SPECIMEN* and Maltese cross serial # prefix. 80.00

The Peoples Republic of Bangladesh (formerly East Pakistan), a parliamentary democracy located on the Bay of Bengal bordered by India and Burma, has an area of 144,000 sq. km. and a population of 153.55 million. Capital: Dhaka (Dacca). The economy is predominantly agricultural. Jute products and tea are exported.

Europeans began to set up trading posts in the area of Bangladesh in the 16th century; eventually the British came to dominate the region and it became part of British India. In 1947, West Pakistan and East Bengal (both primarily Muslim) separated from India (largely Hindu) and jointly became the new country of Pakistan. East Bengal became East Pakistan in 1955, but the awkward arrangement of a two-part country with its territorial units separated by 1,600 km left the Bengalis marginalized and dissatisfied. East Pakistan seceded from its union with West Pakistan in 1971 and was renamed Bangladesh. A military-backed caretaker regime suspended planned parliamentary elections in January 2007 in an effort to reform the political system and root out corruption; the regime has pledged new democratic elections by the end of 2008. About a third of this extremely poor country floods annually during the monsoon rainy season, hampering economic development.

Barbados, an independent state within the British Commonwealth, is located in the Windward Islands of the West Indies east of St. Vincent. The coral island has an area of 431 sq. km and a population of 281,900. Capital: Bridgetown.

The island was uninhabited when first settled by the British in 1627. Slaves worked the sugar plantations established on the island until 1834 when slavery was abolished. The economy remained heavily dependent on sugar, rum, and molasses production through most of the 20th century. The gradual introduction of social and political reforms in the 1940s and 1950s led to complete independence from the UK in 1966. In the 1990s, tourism and manufacturing surpassed the sugar industry in economic importance.

Belarus is bounded in the west by Poland, to the north by Latvia and Lithuania, to the east by Russia and the south by the Ukraine. It has an area of 207,600 sq. km. and a population of 9.68 million. Capital: Minsk. Peat, salt, agriculture including flax, fodder and grasses for cattle breeding and dairy products, along with general manufacturing industries comprise the economy.

After seven decades as a constituent republic of the USSR, Belarus attained its independence in 1991. It has retained closer political and economic ties to Russia than any of the other former Soviet republics. Belarus and Russia signed a treaty on a two-state union on 8 December 1999 envisioning greater political and economic integration. Although Belarus agreed to a framework to carry out the accord, serious implementation has yet to take place. Since his election in July 1994 as the country's first president, Alexander Lukashenko has steadily consolidated his power through authoritarian means. Government restrictions on freedom of speech and the press, peaceful assembly, and religion continue.

MONETARY SYSTEM:

1 Ruble = 100 Kapeek
1 New Ruble = 1,000 Rubles, 2000-2016

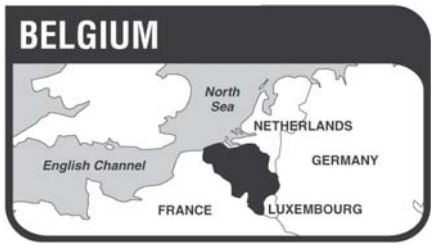
COLLECTOR SERIES

Belarus National Bank

2000 Commemorative

CS1 Rublei - Various Amounts **Mkt. Value**

Back: The 20 Rublei and higher include an overprint: *MILLENNIUM* at the lower left. 10-piece set of notes in blue folder. Set consists of #21-30 dated 2000 and with matching serial #. 25.00



The Kingdom of Belgium, a constitutional monarchy in northwest Europe, has an area of 30,528 sq. km. and a population of 10.40 million, chiefly Dutch-speaking Flemish and French-speaking Walloons. Capital: Brussels. Agriculture, dairy farming, and the processing of raw materials for re-export are the principal industries. "Beurs voor Diamant" in Antwerp is the world's largest diamond trading center. Iron and steel, machinery, motor vehicles, chemicals, textile yarns and fabrics comprise the principal exports.

Belgium became independent from the Netherlands in 1830; it was occupied by Germany during World Wars I and II. The country prospered in the past half century as a modern, technologically advanced European state and member of NATO and the EU. Tensions between the Dutch-speaking Flemings of the north and the French-speaking Walloons of the south have led in recent years to constitutional amendments granting these regions formal recognition and autonomy.

RULERS:

Baudouin I, 1951-93

Albert II, 1993-

MONETARY SYSTEM:

1 Franc = 100 Centimes to 2002

Note: For later issues used in Belgium, see European Union listings.

Belize (formerly British Honduras) is situated in Central America south of Mexico and east and north of Guatemala. It has an area of 22,965 sq. km. and a population of 301,300. Capital: Belmopan. Sugar, citrus fruits, chicle and hard woods are exported.

Belize was the site of several Mayan city states until their decline at the end of the first millennium A.D. The British and Spanish disputed the region in the 17th and 18th centuries; it formally became the colony of British Honduras in 1854. Territorial disputes between the UK and Guatemala delayed the independence of Belize until 1981. Guatemala refused to recognize the new nation until 1992. Tourism has become the mainstay of the economy.

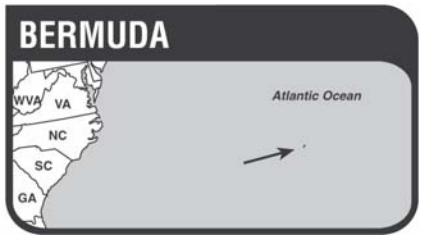
375



The Parliamentary British Colony of Bermuda, situated in the western Atlantic Ocean 1,062 km. east of North Carolina, has an area of 53.3 sq. km. and a population of 66,500. Capital: Hamilton. Concentrated essences, beauty preparations, and cut flowers are exported.

Bermuda was first settled in 1609 by shipwrecked English colonists headed for Virginia. Tourism to the island to escape North American winters first developed in Victorian times. Tourism continues to be important to the island's economy, although international business has overtaken it in recent years. Bermuda has developed into a highly successful offshore financial center. Although a referendum on independence from the UK was soundly defeated in 1995, the present government has reopened debate on the issue.

2000 Issue

CS3 **2000 2-100 Dollars** — **Mkt. Value** 75.00
2000. #50-55 with all zero serial #, punch hole cancelled in three corners.

The Kingdom of Bhutan, a landlocked Himalayan country bordered by Tibet, India, and Sikkim, has an area of 47,000 sq. km. and a population of 682,300. Capital: Thimphu. Virtually the entire population is engaged in agricultural and pastoral activities. Rice, wheat, barley, and yak butter are produced in sufficient quantity to make the country self-sufficient in food.

In 1865, Britain and Bhutan signed the Treaty of Sinchulu, under which Bhutan would receive an annual subsidy in exchange for ceding some border land to British India. Under British influence, a monarchy was set up in 1907; three years later, a treaty was signed whereby the British agreed not to interfere in Bhutanese internal affairs and Bhutan allowed Britain to direct its foreign affairs. This role was assumed by independent India after 1947. Two years later, a formal Indo-Bhutanese accord returned the areas of Bhutan annexed by the British, formalized the annual subsidies the country received, and defined India's responsibilities in defense and foreign relations. A refugee issue of over 100,000 Bhutanese in Nepal remains unresolved; 90% of the refugees are housed in seven United Nations Office of the High Commissioner for Refugees (UNHCR) camps. In March 2005, King Jigme Singye Wangchuck unveiled the government's draft constitution - which would introduce major democratic reforms - and pledged to hold a national referendum for its approval. In December 2006, the King abdicated the throne to his son, Jigme Khesar Namgyel Wangchuck, in order to give him experience as head of state before the democratic transition. In early 2007, India and Bhutan renegotiated their treaty to allow Bhutan greater autonomy in conducting its foreign policy, although Thimphu continues to coordinate policy decisions in this area with New Delhi. In July 2007, seven ministers of Bhutan's ten-member cabinet resigned to join the political process, and the cabinet acted as a caretaker regime until democratic elections for seats to the country's first parliament were completed in March 2008. The king ratified the country's first constitution in July 2008.

FV 15.00

Available in folder.

On May 27, 1967, Gen. Yakubu Gowon, head of the Federal Military Government of Nigeria, created three states from the Eastern Region of the country. Separation of the region, undertaken to achieve better regional and ethnic balance, caused Lt. Col. E. O. Ojukwu, Military Governor of the Eastern Region, to proclaim on May 30, 1967, the independence of the Eastern Region as the "Republic of Biafra." Fighting broke out between the Federal Military Government and the forces of Lt. Col. Ojukwu and continued until Biafra surrendered on Jan. 15, 1970. Biafra was then reintegrated into the Republic of Nigeria as three states: East-Central, Rivers, and South-Eastern. For additional history, see Nigeria.

MONETARY SYSTEM:
1 Shilling = 12 Pence
1 Pound = 20 Shillings

REPUBLIC

	b. Without serial #.	7.50	40.00

The Republic of Bolivia, a landlocked country in west central South America, has an area of 1,098,580 sq. km. and a population of 9.25 million. Capitals: La Paz (administrative); Sucre (constitutional). Mining is the principal industry and tin the most important metal. Minerals, petroleum, natural gas, cotton and coffee are exported.

Bolivia, named after independence fighter Simon Bolivar, broke away from Spanish rule in 1825; much of its subsequent history has consisted of a series of nearly 200 coups and countercoups. Democratic civilian rule was established in 1982, but leaders have faced difficult problems of deep-seated poverty, social unrest, and illegal drug production. In December 2005, Bolivians elected Movement Toward Socialism leader Evo Morales president - by the widest margin of any leader since the restoration of civilian rule in 1982 - after he ran on a promise to change the country's traditional political class and empower the nation's poor majority. However, since taking office, his controversial strategies have exacerbated racial and economic tensions between the Amerindian populations of the Andean west and the non-indigenous communities of the eastern lowlands.

MONETARY SYSTEM:
1 Peso Boliviano = 100 Centavos, 1962-1987
1 Boliviano = 100 Centavos, 1987-

SPECIMEN NOTES:
All *SPECIMEN, MUESTRA, MUESTRA SIN VALOR* and *ESPECIMEN* notes always have serial #s of zero.

Note: Certain listings encompassing issues circulated by various bank and regional authorities are contained in Volume 1.

The Republic of Bosnia-Herzegovina borders Croatia to the north and west, Serbia to the east and Montenegro in the southeast with only 12.4 miles of coastline. The total land area is 51,209 sq. km. It has a population of 4.59 million. Capital: Sarajevo. Electricity, mining and agriculture are leading industries.

Bosnia and Herzegovina's declaration of sovereignty in October 1991 was followed by a declaration of independence from the former Yugoslavia on 3 March 1992 after a referendum boycotted by ethnic Serbs. The Bosnian Serbs - supported by neighboring Serbia and Montenegro - responded with armed resistance aimed at partitioning the republic along ethnic lines and joining Serb-held areas to form a "Greater Serbia." In March 1994, Bosniaks and Croats reduced the number of warring factions from three to two by signing an agreement creating a joint Bosniak/Croat Federation of Bosnia and Herzegovina. On 21 November 1995, in Dayton, Ohio, the warring parties initialed a peace agreement that brought to a halt three years of interethnic civil strife (the final agreement was signed in Paris on 14 December 1995). The Dayton Peace Accords retained Bosnia and Herzegovina's international boundaries and created a joint multi-ethnic and democratic government charged with conducting foreign, diplomatic, and fiscal policy. Also recognized was a second tier of government comprised of two entities roughly equal in size: the Bosniak/Croat Federation of Bosnia and Herzegovina and the Bosnian Serb-led Republika Srpska (RS). The Federation and RS governments were charged with overseeing most government functions. The Office of the High Representative (OHR) was established to oversee the implementation of the civilian aspects of the agreement. In 1995-96, a NATO-led international peacekeeping force (IFOR) of 60,000 troops served in Bosnia to implement and monitor the military aspects of the agreement. IFOR was succeeded by a smaller, NATO-led Stabilization Force (SFOR) whose mission was to deter renewed hostilities. European Union peacekeeping troops (EUFOR) replaced SFOR in December 2004; their mission is to maintain peace and stability throughout the country. EUFOR's mission changed from peacekeeping to civil policing in October 2007, with its presence reduced from nearly 7,000 to 2,500 troops.

The Republic of Botswana, located in south central Africa between Namibia and Zimbabwe has an area of 600,370 sq. km. and a population of 1.84 million. Capital: Gaborone. The economy is primarily pastoral with a rapidly developing mining industry, of which diamonds, copper and nickel are the chief elements. Meat products and diamonds comprise 85 percent of the exports.

Formerly the British protectorate of Bechuanaland, Botswana adopted its new name upon independence in 1966. Four decades of uninterrupted civilian leadership, progressive social policies, and significant capital investment have created one of the most dynamic economies in Africa. Mineral extraction, principally diamond mining, dominates economic activity, though tourism is a growing sector due to the country's conservation practices and extensive nature preserves.

#1-3, 4a, 5a. overprint: *SPECIMEN* and Maltese cross serial # prefix. 40.00

The Federative Republic of Brazil, which comprises half the continent of South America, is the only Latin American country deriving its culture and language from Portugal. It has an area of 8,511,965 sq. km. and a population of 196.34 million. Capital: Brasília.Following three centuries under the rule of Portugal, Brazil became an independent nation in 1822 and a republic in 1889. By far the largest and most populous country in South America, Brazil overcame more than half a century of military intervention in the governance of the country when in 1985 the military regime peacefully ceded power to civilian rulers. Brazil continues to pursue industrial and agricultural growth and development of its interior. Exploiting vast natural resources and a large labor pool, it is today South America's leading economic power and a regional leader. Highly unequal income distribution and crime remain pressing problems.

The former British colony of British Honduras is now Belize, a self-governing dependency of the United Kingdom situated in Central America south of Mexico and east and north of Guatemala, has an area of 8,867 sq. mi. (22,965 sq. km.) and a population of 209,000. Capital: Belmopan. Sugar, citrus fruits, chicle and hard woods are exported. The area, site of the ancient Mayan civilization, was sighted by Columbus in 1502, and settled by shipwrecked English seamen in 1638. British buccaneers settled the former capital of Belize in the 17th century. Britain claimed administrative right over the area after the emancipation of Central America from Spain, and declared it a colony subordinate to Jamaica in 1862. It established as the separate Crown Colony of British Honduras in 1884. The anti-British People's United Party, which attained power in 1954, won a constitution, effective in 1964 which established self-government under a British appointed governor. British Honduras became Belize on June 1, 1973, following the passage of a surprise bill by the Peoples United Party, but the constitutional relationship with Britain remained unchanged. In Dec. 1975, the U.N. General Assembly adopted a resolution supporting the right of the people of Belize to self-determination, and asking Britain and Guatemala to renew their negotiations on the future of Belize. Belize obtained independence on Sept. 21, 1981.

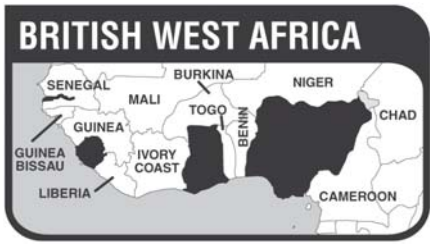
Note: For similar notes but with the *BELIZE* heading, see Belize country listings.



British West Africa was an administrative grouping of the four former British colonies of Gambia, Sierra Leone, Nigeria and Gold Coast (now Ghana). All are now independent republics and members of the British Commonwealth of Nations. These four colonies were supplied with a common currency by the West African Currency Board from 1907 through 1962. Also see Gambia, Ghana, Nigeria and Sierra Leone for related currency and for individual statistics and history.

Negara Brunei Darussalam (The State of Brunei), a member of the British Commonwealth is located on the northwest coast of the island of Borneo, has an area of 5,770 sq. km. and a population of 381,370. Capital: Bandar Seri Begawan.

The Sultanate of Brunei's influence peaked between the 15th and 17th centuries when its control extended over coastal areas of northwest Borneo and the southern Philippines. Brunei subsequently entered a period of decline brought on by internal strife over royal succession, colonial expansion of European powers, and piracy. In 1888, Brunei became a British protectorate; independence was achieved in 1984. The same family has ruled Brunei for over six centuries. Brunei benefits from extensive petroleum and natural gas fields, the source of one of the highest per capita GDPs in Asia.

50 Years of Currency Interchangeability Agreement, 1967-2017 joint set issue with Singapore. See Brunei #38 and Singapore #62 and #CS6.

The Republic of Bulgaria (formerly the Peoples Republic of Bulgaria), a Balkan country on the Black Sea in southeastern Europe, has an area of 110,910 sq. km. and a population of 7.26 million. Capital: Sofia. Agriculture remains a key component of the economy but industrialization, particularly heavy industry, has been emphasized since the late 1940s. Machinery, tobacco and cigarettes, wines and spirits, clothing and metals are the chief exports.

The Bulgars, a Central Asian Turkic tribe, merged with the local Slavic inhabitants in the late 7th century to form the first Bulgarian state. In succeeding centuries, Bulgaria struggled with the Byzantine Empire to assert its place in the Balkans, but by the end of the 14th century the country was overrun by the Ottoman Turks. Northern Bulgaria attained autonomy in 1878 and all of Bulgaria became independent from the Ottoman Empire in 1908. Having fought on the losing side in both World Wars, Bulgaria fell within the Soviet sphere of influence and became a People's Republic in 1946. Communist domination ended in 1990, when Bulgaria held its first multiparty election since World War II and began the contentious process of moving toward political democracy and a market economy while combating inflation, unemployment, corruption, and crime. The country joined NATO in 2004 and the EU in 2007.

The Socialist Republic of the Union of Burma (now called Myanmar), is a country of Southeast Asia fronting on the Bay of Bengal and the Andaman Sea, has an area of 261,228 sq. mi. (676,577 sq. km.) and a population of 49.34 million. Capital: Rangoon. The first European to reach Burma, about 1435, was Nicolo Di Conti, a merchant of Venice. During the beginning of the reign of Bodawpaya (1782-1819AD) the kingdom comprised most of the same area as it does today including Arakan which was taken over in 1784-85.

The British East India Company, while unsuccessful in its 1612 effort to establish posts along the Bay of Bengal, was enabled by the Anglo-Burmese Wars of 1824-86 to expand to the whole of Burma and to secure its annexation to British India. In 1937, Burma was separated from India, becoming a separate British colony with limited self-government. The Japanese occupied Burma in 1942, and on Aug. 1, 1943 Burma became an “independent and sovereign state” under Dr. Ba Maw who was appointed the Adipadi (head of state).

This puppet state later collapsed with the surrender of Japanese forces. Burma became an independent nation outside the British Commonwealth on Jan. 4, 1948, the constitution of 1948 providing for a parliamentary democracy and the nationalization of certain industries. However, political and economic problems persisted, and on March 2, 1962, Gen. Ne Win took over the government, suspended the constitution, installed himself as chief of state, and pursued a socialistic program with nationalization of nearly all industry and trade. On Jan. 4, 1974, a new constitution adopted by referendum established Burma as a “socialist republic” under one-party rule. The country name was changed formally to the Union of Myanmar in 1989. For later issues refer to Myanmar.

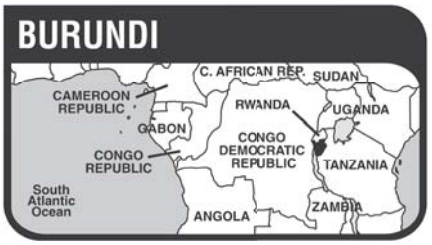
Note: For later issues see Myanmar.



The Republic of Burundi, a landlocked country in central Africa, east of Lake Taganyila has an area of 27,830 sq. km. and a population of 8.69 million. Capital: Bujumbura. Burundi has a predominantly agricultural economy. Coffee, tea and cotton are exported.

Burundi's first democratically elected president was assassinated in October 1993 after only 100 days in office, triggering widespread ethnic violence between Hutu and Tutsi factions. More than 200,000 Burundians perished during the conflict that spanned almost a dozen years. Hundreds of thousands of Burundians were internally displaced or became refugees in neighboring countries. An internationally brokered power-sharing agreement between the Tutsi-dominated government and the Hutu rebels in 2003 paved the way for a transition process that led to an integrated defense force, established a new constitution in 2005, and elected a majority Hutu government in 2005. The new government, led by President Pierre Nkurunziza, signed a South African brokered ceasefire with the country's last rebel group in September of 2006 but still faces many challenges.

Kingdom of Cambodia, formerly known as Democratic Kampuchea, People's Republic of Kampuchea, and the Khmer Republic, a land of paddy fields and forest-clad hills located on the Indo-Chinese peninsula fronting on the Gulf of Thailand, has an area of 181,040 sq. km. and a population of 14.24 million. Capital: Phnom Penh. Agriculture is the major part of the economy, with rice the chief crop. Native industries include cattle breeding, weaving and rice milling. Rubber, cattle, corn, and timber are exported.

Most Cambodians consider themselves to be Khmers, descendants of the Angkor Empire that extended over much of Southeast Asia and reached its zenith between the 10th and 13th centuries. Attacks by the Thai and Cham (from present-day Viet Nam) weakened the empire, ushering in a long period of decline. The king placed the country under French protection in 1863 and it became part of French Indochina in 1887. Following Japanese occupation in World War II, Cambodia gained full independence from France in 1955

In April 1975, after a five-year struggle, communist Khmer Rouge forces captured Phnom Penh and evacuated all cities and towns. At least 1.5 million Cambodians died from execution, forced hardships, or starvation during the Khmer Rouge regime under Pol Pot. A December 1978 Vietnamese invasion drove the Khmer Rouge into the countryside, began a 10-year Vietnamese occupation, and touched off almost 13 years of civil war.

The 1991 Paris Peace Accords mandated democratic elections and a ceasefire, which was not fully respected by the Khmer Rouge. UN-sponsored elections in 1993 helped restore some semblance of normalcy under a coalition government. Factional fighting in 1997 ended the first coalition government, but a second round of national elections in 1998 led to the formation of another coalition government and renewed political stability. The remaining elements of the Khmer Rouge surrendered in 1998.

The coalition governments parliament decided to restore the constitutional monarchy on September 24, 1993 and King Sihanouk became chief of state. He abdicated on October 6, 2004 and one of his sons, Prince Norodom Sihamoni, now sits on the throne.

RULERS:

Norodom Sihanouk (as Chief of State), 1960-1970
Lon Nol, 1970-1975
Pol Pot, 1975-1979
Heng Samrin, 1979-1985
Hun Sen, 1985-1991
Norodom Sihanouk (as Chairman, Supreme National Council), 1991-1993
Norodom Sihanouk (as King), 1993-2002
Boromneath Norodom Sihamoni, 2004-

MONETARY SYSTEM:

1 Riel = 100 Sen

REPLACEMENT NOTES:

#4b-c, 5b, 7b use 3 special Cambodian prefix characters (equivalent to Z90).

COLLECTOR SERIES

National Bank of Cambodia

1995 ND Issue

CS1 **1000 - 100,000 Riels** **Mkt. Value**
ND (1995). #44-50. Specimen. 250

Note: Issued in a special folder w/notes laminated in plastic including 50, 100, 200 and 500 Riels coins dated BE2538 (1994).

The United Republic of Cameroun, located in west-central Africa on the Gulf of Guinea, has an area of 475,440 sq. km. and a population of 18.46 million. Capital: Yaounde. About 90 percent of the labor force is employed on the land; cash crops account for 80 percent of the country's export revenue. Cocoa, coffee, aluminum, cotton, rubber and timber are exported.

The former French Cameroon and part of British Cameroon merged in 1961 to form the present country. Cameroon has generally enjoyed stability, which has permitted the development of agriculture, roads, and railways, as well as a petroleum industry. Despite a slow movement toward democratic reform, political power remains firmly in the hands of President Paul Biya.

MONETARY SYSTEM:
1 Franc = 100 Centimes

SIGNATURE VARIETIES:
Refer to introduction of Central African States.
Note: German Reichsbanknoten and Reichskassenscheine circulated freely until 1914.

Canada is located to the north of the United States, and spans the full breadth of the northern portion of North America from Atlantic to Pacific oceans, except for the State of Alaska. It has a total area of 9,984,670 sq. km. and a population of 33.21 million. Capital: Ottawa.

A land of vast distances and rich natural resources, Canada became a self-governing dominion in 1867 while retaining ties to the British crown. Economically and technologically the nation has developed in parallel with the US, its neighbor to the south across an unfortified border. Canada faces the political challenges of meeting public demands for quality improvements in health care and education services, as well as responding to separatist concerns in predominantly francophone Quebec. Canada also aims to develop its diverse energy resources while maintaining its commitment to the environment.

The Republic of Cape Verde, is located in the Atlantic Ocean, about 370 miles (595 km.) west of Dakar, Senegal off the coast of Africa. The 14-island republic has an area of 4,033 sq. km. and a population of 427,000. Capital: Praia. Fishing is important and agriculture is widely practiced, but the Cape Verdes are not self-sufficient in food. Fish products, salt, bananas, coffee, peanuts and shellfish are exported.

The uninhabited islands were discovered and colonized by the Portuguese in the 15th century; Cape Verde subsequently became a trading center for African slaves and later an important coaling and resupply stop for whaling and transatlantic shipping. Following independence in 1975, and a tentative interest in unification with Guinea-Bissau, a one-party system was established and maintained until multi-party elections were held in 1990. Cape Verde continues to exhibit one of Africa's most stable democratic governments. Repeated droughts during the second half of the 20th century caused significant hardship and prompted heavy emigration. As a result, Cape Verde's expatriate population is greater than its domestic one. Most Cape Verdeans have both African and Portuguese antecedents.

The Cayman Islands, a British Crown Colony situated about 290 km. northwest of Jamaica, consists of three islands: Grand Cayman, Little Cayman and Cayman Brac. The islands have an area of 262 sq. km. and a population of 47,900. Capital: Georgetown. Seafaring, commerce, banking and tourism are the principal industries.

The Cayman Islands were colonized from Jamaica by the British during the 18th and 19th centuries, and were administered by Jamaica after 1863. In 1959, the islands became a territory within the Federation of the West Indies, but when the Federation dissolved in 1962, the Cayman Islands chose to remain a British dependency.

The Central African Republic, a landlocked country in Central Africa, bounded by Chad on the north, Cameroon on the west, Democratice Republic of the Congo and the Republic of the Congo on the south, and The Sudan on the east, has an area of 622,984 sq. km. and a population of 4.44 million. Capital: Bangui. Deposits of uranium, iron ore, manganese and copper remain to be developed. Diamonds, cotton, timber and coffee are exported.

The former French colony of Ubangi-Shari became the Central African Republic upon independence in 1960. After three tumultuous decades of misrule - mostly by military governments - civilian rule was established in 1993 and lasted for one decade. President Ange-Felix Patasse's civilian government was plagued by unrest, and in March 2003 he was deposed in a military coup led by General Francois Bozize, who established a transitional government. Though the government has the tacit support of civil society groups and the main parties, a wide field of candidates contested the municipal, legislative, and presidential elections held in March and May of 2005 in which General Bozize was affirmed as president. The government still does not fully control the countryside, where pockets of lawlessness persist. Unrest in neighboring nations, Chad, Sudan, and the DRC, continues to affect stability in the Central African Republic as well. It is a member of the "Union Monetaire des Etats de l'Afrique Centrale." See also Central African States, Equatorial African States, and French African States.

RULERS:
Emperor J. B. Bokassa I, 1976-79

MONETARY SYSTEM:
1 Franc = 100 Centimes

The Bank of the Central African States (BEAC) is a regional central bank for the monetary and customs union formed by Cameroun, Central African Republic, Chad, Congo (Brazzaville), Gabon, and (since 1985) Equatorial Guinea. It succeeded the Equatorial African States Bank in 1972-73 when the latter was reorganized and renamed to provide greater African control over its operations. The seat of the BEAC was transferred from Paris to Yaounde in 1977 and an African governor assumed responsibility for direction of the bank in 1978. The BEAC is a member of the franc zone with its currency denominated in CFA francs and pegged to the French franc at a rate of 50-1. BEAC notes carry country names on the face and the central bank name on the back. The 1974-84 series had common back designs but were face-different. A new series begun in 1983-85 uses common designs also on the face except for some 1000 franc notes. The notes carry the signatures of *LE GOUVERNEUR (LE DIRECTEUR GENERAL* prior to 1-4-78) and *UN CENSEUR* (since 1972). Cameroun, Gabon, and France each appoint one censeur and one alternate. Cameroon and Congo notes carry the Cameroun censeur signature. Central African Republic, Equatorial Guinea, and Gabon notes carry the Gabon censeur signature. Chad notes have been divided between the two. Prior to 1978, all BEAC notes were printed by the Bank of France. Since 1978, the 500 and 1000 franc notes have been printed by the private French firm F. C. Oberthur. The Bank of France notes are engraved and usually undated. The F. C. Oberthur notes are lithographed and most carry dates. See individual member countries for additional note listings. Also see Equatorial African States and French Equatorial Africa.

Note: The first two digits of the serial number for the 1993-2002 series indicate the date of issue.

Ceylon (later to become The Democratic Socialist Republic of Sri Lanka) is an island situated in the Indian Ocean 18 miles (29 km.) southeast of India. It has an area of 65,610 sq. km. and a population of 21.13 million. Capital: Colombo. The economy is chiefly agricultural. Tea, rubber and coconut products are exported. The earliest known inhabitants are the Veddahs. The first Sinhala arrived in Lanka late in the 5th century BCE, probably from northern India. The coastal areas of the island were controlled by China for 30 years from 1408, the Portuguese from 1505 and the Dutch from 1658. The island was ceded to the British in 1796, became a crown colony in 1802, and the independent Kingdom of Kandy in the central part of the island was united under British rule by 1815, as Ceylon. Constitutional changes in 1931 granted Ceylon a parliamentary form of government. It became independent in 1948. Its name in English was changed to Sri Lanka on 1972 May 22 with the adoption of a Republican constitution. For later issues, see Sri Lanka.

The Republic of Chad, a landlocked country of central Africa, is the largest country of former French Equatorial Africa. It has an area of 1.284 million sq. km. and a population of 10.11 million. Capital. N'Djaména. An expanding livestock industry produces camels, cattle and sheep. Cotton (the chief product), ivory and palm oil are important exports.

Chad, part of France's African holdings until 1960, endured three decades of civil warfare as well as invasions by Libya before a semblance of peace was finally restored in 1990. The government eventually drafted a democratic constitution, and held flawed presidential elections in 1996 and 2001. In 1998, a rebellion broke out in northern Chad, which has sporadically flared up despite several peace agreements between the government and the rebels. In 2005, new rebel groups emerged in western Sudan and made probing attacks into eastern Chad, despite signing peace agreements in December 2006 and October 2007. Power remains in the hands of an ethnic minority. In June 2005, President Idriss Deby held a referendum successfully removing constitutional term limits and won another controversial election in 2006. Sporadic rebel campaigns continued throughout 2006 and 2007, and the capital experienced a significant rebel threat in early 2008. For later issues, see Central African States.

The Republic of Chile, a ribbonlike country on the Pacific coast of southern South America, has an area of 756,950 sq. km. and a population of 16.45 million. Capital: Santiago. Copper, of which Chile has about 25 percent of the world's reserves, has accounted for a major portion of Chile's export earnings in recent years. Other important exports are iron ore, iodine, fruit and nitrate of soda.

Prior to the coming of the Spanish in the 16th century, northern Chile was under Inca rule while Araucanian Indians (also known as Mapuches) inhabited central and southern Chile. Although Chile declared its independence in 1810, decisive victory over the Spanish was not achieved until 1818. In the War of the Pacific (1879-83), Chile defeated Peru and Bolivia and won its present northern regions. It was not until the 1880s that the Araucanian Indians were completely subjugated. A three-year-old Marxist government of Salvador Allende was overthrown in 1973 by a military coup led by Augusto Pinochet, who ruled until a freely elected president was installed in 1990. Sound economic policies, maintained consistently since the 1980s, have contributed to steady growth, reduced poverty rates by over half, and have helped secure the country's commitment to democratic and representative government. Chile has increasingly assumed regional and international leadership roles befitting its status as a stable, democratic nation.

The Republic of China, comprising Taiwan (an island located 90 miles (145 km.) off the southeastern coast of mainland China), the offshore islands of Quemoy and Matsu and nearby islets of the Pescadores chain, has an area of 14,000 sq. mi. (35,981 sq. km.) and a population of 20.2 million. Capital: Taipei. During the past decade, manufacturing has replaced agriculture in importance. Fruits, vegetables, plywood, textile yarns and fabrics and clothing are exported. Chinese migration to Taiwan began as early as the sixth century. The Dutch established a base on the island in 1624 and held it until 1661, when they were driven out by supporters of the Ming dynasty who used it as a base for their unsuccessful attempt to displace the ruling Manchu dynasty of mainland China. After being occupied by Manchu forces in 1683, Taiwan remained under the suzerainty of China until its cession to Japan in 1895. It was returned to China following World War II. On December 8, 1949, Taiwan became the last remnant of Sun Yatsen's Republic of China when Chiang Kai-shek moved his army and government from mainland China to the island following his defeat by the Communist forces of Mao Tse-tung.

PEOPLES REPUBLIC OF CHINA

Peoples Bank of China

中國人民銀行

Chung Kuo Jen Min Yin Hang

中國人民銀行

Zhong Guo Ren Min Yin Hang

The Peoples Republic of China notes of 1948-1953 have been replicated extensively. Because most of the earlier notes were lithographed, they are easily replicated. Some of these notes were printed in multiple places using different raw materials. Become educated on the qualities that differentiate the original notes.

1962; 1965 Issue

		VF	UNC
877	**1 Jiao**

The Republic of Colombia, located in the northwestern corner of South America, has an area of 1.139 million sq. km. and a population of 45.01 million. Capital: Bogotá. The economy is primarily agricultural with a mild, rich coffee the chief crop. Colombia has the world's largest platinum deposits and important reserves of coal, iron ore, petroleum and limestone; precious metals and emeralds are also mined. Coffee, crude oil, bananas, sugar, coal and flowers are exported.

Colombia was one of the three countries that emerged from the collapse of Gran Colombia in 1830 (the others are Ecuador and Venezuela). A 40-year conflict between government forces and anti-government insurgent groups and illegal paramilitary groups - both heavily funded by the drug trade - escalated during the 1990s. The insurgents lack the military or popular support necessary to overthrow the government, and violence has been decreasing since about 2002, but insurgents continue attacks against civilians and large swaths of the countryside are under guerrilla influence. More than 32,000 former paramilitaries had demobilized by the end of 2006 and the United Self Defense Forces of Colombia (AUC) as a formal organization had ceased to function. Still, some renegades continued to engage in criminal activities. The Colombian Government has stepped up efforts to reassert government control throughout the country, and now has a presence in every one of its administrative departments. However, neighboring countries worry about the violence spilling over their borders.

MONETARY SYSTEM:

1 Peso = 100 Centavos 1993

1 Peso Oro = 100 Centavos to 1993

REPLACEMENT NOTES:

Earlier issues, small *R* just below and between signatures. Larger *R* used later. Some TDLR printings have *R* preceding serial number. Later Colombian-printed notes use circled asterisk usually close to sign. or a star at r. of upper serial #. Known replacements: #389-407, 409, 413-15, 417-19, 421-22, 425-29, 431-433, 436-41, 443, 445-48.

The Union of the Comoros, a volcanic archipelago located in the Mozambique Channel of the Indian Ocean 483 km. northwest of Madagascar, has an area of 2,170 sq. km. and a population of 731,800. Capital: Moroni. The economy of the islands is based on agriculture. There are practically no mineral resources. Vanilla, essence for perfumes, copra and sisal are exported.

Comoros has endured more than 20 coups or attempted coups since gaining independence from France in 1975. In 1997, the islands of Anjouan and Moheli declared independence from Comoros. In 1999, military chief Col. Azali seized power in a bloodless coup, and helped negotiate the 2000 Fomboni Accords power-sharing agreement in which the federal presidency rotates among the three islands, and each island maintains its own local government. Azali won the 2002 Presidential election, and each island in the archipelago elected its own president. Azali stepped down in 2006 and President Sambi took office. Since 2006, Anjouan's President Mohamed Bacar has refused to work effectively with the Union presidency. In 2007, Bacar effected Anjouan's de-facto secession from the Union, refusing to step down in favor of fresh Anjouanais elections when Comoros' other islands held legitimate elections in July. The African Union (AU) initially attempted to resolve the political crisis by applying sanctions and a naval blockade on Anjouan, but in March 2008, AU and Comoran soldiers seized the island. The move was generally welcomed by the island's inhabitants. Its present status is that of a French Territorial Collectivity. Euro coinage and currency circulates there.

The Congo Democratic Republic (formerly Zaïre), located in the south-central part of Africa, has an area of 2.345 million sq. km. and a population of 66.51 million. Capital: Kinshasa. The mineral-rich country produces copper, tin, diamonds, gold, zinc, cobalt and uranium.

Established as a Belgian colony in 1908, the Republic of the Congo gained its independence in 1960, but its early years were marred by political and social instability. Col. Joseph Mobutu seized power and declared himself president in a November 1965 coup. He subsequently changed his name - to Mobutu Sese Seko - as well as that of the country - to Zaire. Mobutu retained his position for 32 years through several sham elections, as well as through the use of brutal force. Ethnic strife and civil war, touched off by a massive inflow of refugees in 1994 from fighting in Rwanda and Burundi, led in May 1997 to the toppling of the Mobutu regime by a rebellion backed by Rwanda and Uganda and fronted by Laurent Kabila. He renamed the country the Democratic Republic of the Congo (DRC), but in August 1998 his regime was itself challenged by a second insurrection again backed by Rwanda and Uganda. Troops from Angola, Chad, Namibia, Sudan, and Zimbabwe intervened to support Kabila's regime. A cease-fire was signed in July 1999 by the DRC, Congolese armed rebel groups, Angola, Namibia, Rwanda, Uganda, and Zimbabwe but sporadic fighting continued. Laurent Kabila was assassinated in January 2001 and his son, Joseph Kabila, was named head of state. In October 2002, the new president was successful in negotiating the withdrawal of Rwandan forces occupying eastern Congo; two months later, the Pretoria Accord was signed by all remaining warring parties to end the fighting and establish a government of national unity. A transitional government was set up in July 2003. Joseph Kabila as president and four vice presidents represented the former government, former rebel groups, the political opposition, and civil society. The transitional government held a successful constitutional referendum in December 2005 and elections for the presidency, National Assembly, and provincial legislatures in 2006. Kabila was inaugurated president in December 2006. The National Assembly was installed in September 2006. Its president, Vital Kamerhe, was chosen in December. Provincial assemblies were constituted in early 2007, and elected governors and national senators in January 2007. A change to a Francs-Congolese currency has been considered, but meanwhile "hard" currencies such as U.S. dollars circulate freely. See also Rwanda, Rwanda-Burundi, and Zaïre.

The Republic of the Congo is located on the equator in west-central Africa, has an area of 342,000 sq. km. and a population of 3.90 million. Capital: Brazzaville. Agriculture forestry, mining, and food processing are the principal industries. Timber, industrial diamonds, potash, peanuts, and cocoa beans are exported.

Upon independence in 1960, the former French region of Middle Congo became the Republic of the Congo. A quarter century of experimentation with Marxism was abandoned in 1990 and a democratically elected government took office in 1992. A brief civil war in 1997 restored former Marxist President Denis SASSOU-NGUESSO, and ushered in a period of ethnic and political unrest. Southern-based rebel groups agreed to a final peace accord in March 2003, but the calm is tenuous and refugees continue to present a humanitarian crisis. The Republic of Congo was once one of Africa's largest petroleum producers, but with declining production it will need new offshore oil finds to sustain its oil earnings over the long term.

Cook Islands, a political dependency of New Zealand consisting of 15 islands located in the South Pacific Ocean about 3,218 km. northeast of New Zealand, has an area of 236.7 sq. km. and a population of 12,270. Capital: Avarua. The United States claims the islands of Danger, Manahiki, Penrhyn and Rakahanga Atoll. Citrus, canned fruits and juices, copra, clothing, jewelry and mother-of-pearl shell are exported.

Named after Captain Cook, who sighted them in 1770, the islands became a British protectorate in 1888. By 1900, administrative control was transferred to New Zealand; in 1965, residents chose self-government in free association with New Zealand. The emigration of skilled workers to New Zealand and government deficits are continuing problems.

Note: In June 1995 the Government of the Cook Islands began redeeming all 10, 20 and 50 dollar notes in exchange for New Zealand currency while most coins originally intended for circulation along with their 3 dollar notes will remain in use.

The Republic of Costa Rica, located in southern Central America between Nicaragua and Panama, has an area of 51,100 sq. km. and a population of 4.19 million. Capital: San Jose. Agriculture predominates; coffee, bananas, beef and sugar contribute heavily to the country's export earnings.

Although explored by the Spanish early in the 16th century, initial attempts at colonizing Costa Rica proved unsuccessful due to a combination of factors, including: disease from mosquito-infested swamps, brutal heat, resistance by natives, and pirate raids. It was not until 1563 that a permanent settlement of Cartago was established in the cooler, fertile central highlands. The area remained a colony for some two and a half centuries. In 1821, Costa Rica became one of several Central American provinces that jointly declared their independence from Spain. Two years later it joined the United Provinces of Central America, but this federation disintegrated in 1838, at which time Costa Rica proclaimed its sovereignty and independence. Since the late 19th century, only two brief periods of violence have marred the country's democratic development. Although it still maintains a large agricultural sector, Costa Rica has expanded its economy to include strong technology and tourism industries. The standard of living is relatively high. Land ownership is widespread.

The Republic of Croatia (Hrvatska), has an area of 56,542 sq. km. and a population of 4.49 million. Capital: Zagreb.

The lands that today comprise Croatia were part of the Austro-Hungarian Empire until the close of World War I. In 1918, the Croats, Serbs, and Slovenes formed a kingdom known after 1929 as Yugoslavia. Following World War II, Yugoslavia became a federal independent Communist state under the strong hand of Marshal Tito. Although Croatia declared its independence from Yugoslavia in 1991, it took four years of sporadic, but often bitter, fighting before occupying Serb armies were mostly cleared from Croatian lands. Under UN supervision, the last Serb-held enclave in eastern Slavonia was returned to Croatia in 1998.

Local Serbian forces supported by the Yugoslav Federal Army had developed a military stronghold and proclaimed an independent "SRPSKE KRAJINA" state in the area around Knin, located in southern Croatia. In August 1995 Croat forces overran this political-military enclave.

The Republic of Cuba, situated at the northern edge of the Caribbean Sea about 145 km. south of Florida, has an area of 110,860 sq. km. and a population of 11.4 million. Capital: Havana. The Cuban economy is based on the cultivation and refining of sugar, which provides 80 percent of export earnings.

The native Amerindian population of Cuba began to decline after the European discovery of the island by Christopher Columbus in 1492 and following its development as a Spanish colony during the next several centuries. Large numbers of African slaves were imported to work the coffee and sugar plantations, and Havana became the launching point for the annual treasure fleets bound for Spain from Mexico and Peru. Spanish rule, marked initially by neglect, became increasingly repressive, provoking an independence movement and occasional rebellions that were harshly suppressed. It was US intervention during the Spanish-American War in 1898 that finally overthrew Spanish rule. The subsequent Treaty of Paris established Cuban independence, which was granted in 1902 after a three-year transition period. Fidel Castro led a rebel army to victory in 1959; his iron rule held the subsequent regime together for nearly five decades. He stepped down as president in February 2008 in favor of his younger brother Raul Castro. Cuba's Communist revolution, with Soviet support, was exported throughout Latin America and Africa during the 1960s, 1970s, and 1980s. The country is now slowly recovering from a severe economic downturn in 1990, following the withdrawal of former Soviet subsidies. Cuba portrays its difficulties as the result of the US embargo in place since 1961.

The Republic of Cyprus lies in the eastern Mediterranean Sea 71 km. south of Turkey and 97 km. west of Syria. It is the third largest island in the Mediterranean Sea, having an area of 9,250 sq. km. and a population of 792,600. Capital: Nicosia. Agriculture and mining are the chief industries. Asbestos, copper, citrus fruit, iron pyrites and potatoes are exported.

A former British colony, Cyprus became independent in 1960 following years of resistance to British rule. Tensions between the Greek Cypriot majority and Turkish Cypriot minority came to a head in December 1963, when violence broke out in the capital of Nicosia. Despite the deployment of UN peacekeepers in 1964, sporadic intercommunal violence continued forcing most Turkish Cypriots into enclaves throughout the island. In 1974, a Greek Government-sponsored attempt to seize control of Cyprus was met by military intervention from Turkey, which soon controlled more than a third of the island. In 1983, the Turkish-held area declared itself the "Turkish Republic of Northern Cyprus" (TRNC), but it is recognized only by Turkey. The latest two-year round of UN-brokered talks - between the leaders of the Greek Cypriot and Turkish Cypriot communities to reach an agreement to reunite the divided island - ended when the Greek Cypriots rejected the UN settlement plan in an April 2004 referendum. The entire island entered the EU on 1 May 2004, although the EU acquis - the body of common rights and obligations - applies only to the areas under direct government control, and is suspended in the areas administered by Turkish Cypriots. However, individual Turkish Cypriots able to document their eligibility for Republic of Cyprus citizenship legally enjoy the same rights accorded to other citizens of European Union states. The election of a new Cypriot president in 2008 served as the impetus for the UN to encourage both the Turkish and Cypriot Governments to reopen unification negotiations.

MONETARY SYSTEM:

1 Shilling = 9 Piastres
1 Pound = 20 Shillings to 1963
1 Shilling = 50 Mils
1 Pound = 1000 Mils, 1963-83
1 Pound = 100 Cents, 1983-2007.
1 Euro = 100 cents, 2008 -

In January 2008 the Cypriot Pound was replaced by the Euro.

The Czech Republic is bordered to the west by Germany, to the north by Poland, to the east by Slovakia and to the south by Austria. It consists of 3 major regions: Bohemia, Moravia and Silesia. It has an area of 78,866 sq. km. and a population of 10.22 million. Capital: Prague (Praha). Industrial production in cities and agriculture and livestock in the rural areas are chief occupations while coal deposits are the main mineral resources.

Following the First World War, the closely related Czechs and Slovaks of the former Austro-Hungarian Empire merged to form Czechoslovakia. During the interwar years, the new country's leaders were frequently preoccupied with meeting the demands of other ethnic minorities within the republic, most notably the Sudeten Germans and the Ruthenians (Ukrainians). After World War II, a truncated Czechoslovakia fell within the Soviet sphere of influence. In 1968, an invasion by Warsaw Pact troops ended the efforts of the country's leaders to liberalize Communist party rule and create "socialism with a human face." Anti-Soviet demonstrations the following year ushered in a period of harsh repression. With the collapse of Soviet authority in 1989, Czechoslovakia regained its freedom through a peaceful "Velvet Revolution." On 1 January 1993, the country underwent a "velvet divorce" into its two national components, the Czech Republic and Slovakia. The Czech Republic joined NATO in 1999 and the European Union in 2004.

MONETARY SYSTEM:

1 Czechoslovak Koruna (Kcs) = 100 Haleru Jan. - Feb. 1993
1 Czech Koruna (Kc) = 100 Haleru since Feb. 1993

The Republic of Czechoslovakia, located in central Europe, had an area of 49,365 sq. mi. (127,859 sq. km.). Capital: Prague (Praha). Industrial production in the cities and agriculture and livestock in the rural areas were the chief occupations. The Czech lands to the west were united with the Slovak to form the Czechoslovak Republic on October 28, 1918 upon the dissolution of the Austrian-Hungarian Empire. Tomas G. Masaryk was the first president. In the 1930s Hitlet provoked Czechoslovakia's German minority in the Sudetenland to agitate for autonomy. The territory was broken up for the benefit of Germany, Poland and Hungary by the Munich agreement signed by the United Kingdom, France, Germany and Italy on September 29, 1938. On March 15, 1939, Germany invaded Czechoslovakia and incorporated the Czech lands into the Third Reich as the "Protectorate of Bohemia and Moravia." eastern Slovakia, was constituted as a republic under Nazi infulence. A government-in-exile was set up in London in 1940. The Soviet and American forces liberated the area by May 1945. After World War II the physical integrity and independence of Czechoslovakia was re-established, while bringing it within the Russian sphere of influence. On February 23-25, 1948, the Communists seized control of the government in a *coup d'etat,* and adopted a constitution making the country a "people's republic." A new constitution adopted June 11, 1960, converted the country into a "socialist republic." Communist infulence increased steadily while pressure for liberalization culminated in the overthrow of the Stalinist leader Antonçin Novotny and his associates in January, 1968. The Communist Party then introduced far reaching reforms which received warnings from Moscow, followed by occupation of Warsaw Pact forces on August 21, 1968 resulting in stationing of Soviet troops. Student demonstrations for reform began in Prague on November 17, 1989. The Federal Assembly abolished the Communist Party's sole right to govern. In December, 1989, communism was overthrown. In January, 1990 the Czech and Slovak Federal Republic (CSFR) was formed. The movement for a democratic Slovakia was apparent in the June 1992 elections with the Slovak National Council adopting a declaration of sovereignty. The CSFR was disolved on December 31, 1992, and both new republics came into being on January 1, 1993. See the Czech Republic and Slovakia sections for additional listings.

MONETARY SYSTEM:

1 Koruna = 100 Haleru

SPECIMEN NOTES:

Large quantities of specimens were made available to collectors. Notes issued after 1945 are distinguished by a perforation consisting of three small holes or a letter S (for Solvakia). Since the difference in value between issued notes and specimen notes is frequently very great, both types of notes are valued. Earlier issues recalled from circulation were perforated: *SPECIMEN* or *NEPLATNE* or with a letter *S* for collectors. Caution should be exercised while examining notes as examples of perforated notes having the holes filled in are known.

NOTE AVAILABILITY:

The Czech National Bank in 1997 made available to collectors uncirculated examples of #78-98, as a full set or in issue groups. As the notes were demonetized they had no cancellation holes nor were overprinted. These notes have regular serial #'s and thus can not be distinguished from regular uncirculated notes of the period.

SOCIALIST REPUBLIC

Ceskoslovenská Socialistická Republika

Czechoslovak Socialist Republic

1961 Issue

81 **3 Koruny** **VF** **UNC**

1961. Blue on blue-green underprint. Large three at center and upper corners. Back: Socialist arms at center. Watermark: Star in circle, repeated. Printer: STC-P. Artists: Sokolov, circulation 1.12.1961 - 31.12.1972. 113x56mm.

b. Serial # prefix *U.* 100 320

Note: For #98 w/additional "M-1000" adhesive stamp or printed, see Czech Republic. With *SLOVENSKÁ REPUBLIKA* adhesive stamp, see Slovakia.

The Kingdom of Denmark, a constitutional monarchy located at the mouth of the Baltic Sea, has an area of 43,094 sq. km. and a population of 5.48 million. Capital: Copenhagen. Most of the country is arable. Agriculture, which used to employ the majority of the people, is now conducted by large farms served by cooperatives. The largest industries are food processing, iron and metal, and shipping. Machinery, meats (chiefly bacon), dairy products and chemicals are exported.

Once the seat of Viking raiders and later a major north European power, Denmark has evolved into a modern, prosperous nation that is participating in the general political and economic integration of Europe. It joined NATO in 1949 and the EEC (now the EU) in 1973. However, the country has opted out of certain elements of the European Union's Maastricht Treaty, including the European Economic and Monetary Union (EMU), European defense cooperation, and issues concerning certain justice and home affairs.

RULERS:
Frederik IX, 1947-1972
Margrethe II, 1972-

MONETARY SYSTEM:
1 Krone (1/2 Rigsdaler) = 100 re 1874-

REPLACEMENT NOTES:
#42-45 although dated (19)50, they were issued from 1952 onwards.
#42-47, suffix OJ (for whole sheets) or OK (for single notes).
Revalued Notes: For early Danish notes with additional printing and signatures on back refer to Danish West Indies, Faeroe Islands and Iceland.

KINGDOM

1950 (1952)-1963 Issue

Law of 7.4.1936. #42-47. First signature changes. Usually there are three signature combinations per prefix A0, A1, A2 etc. Right signature Riim, (19)51-68 for #42, #43, #44a-aa, #45a-l, #46a-e, #47. Right signature Valeur, (19)69-74 for #44ab-aj, #45m, #46f. The prefixes in the listings refer to the two first characters of the left serial #. The middle two digits indicate the year date of issue, and the last two characters indicate the sheet position of the note. On #45, #46 and #47 the full date is also shown at the lower left or right corner of the face of the note. Replacements notes: #42-47, Serial # suffix: 0J for whole sheet replacements, or 0K for single note replacements. All replacements issued 1951 to 59 shows the date (19)50. From 19(60), the actual date is shown.

The Republic of Djibouti is located in northeast Africa at the Bab el Mandeb Strait connecting the Suez Canal and the Red Sea with the Gulf of Aden and the Indian Ocean, has an area of 23,000 sq. km. and a population of 506,200. Capital: Djibouti. The nation has very little arable land and few natural resources. The commercial activities of the trans-shipment port of Djibouti and the Addis Ababa-Djibouti railroad are the basis of the economy also French and American military activity. Salt, fish and hides are exported.

The French Territory of the Afars and the Issas became Djibouti in 1977. Hassan Gouled Aptidon installed an authoritarian one-party state and proceeded to serve as president until 1999. Unrest among the Afars minority during the 1990s led to a civil war that ended in 2001 following the conclusion of a peace accord between Afar rebels and the Issa-dominated government. In 1999, Djibouti's first multi-party presidential elections resulted in the election of Ismail Omar Guelleh; he was re-elected to a second and final term in 2005. Djibouti occupies a strategic geographic location at the mouth of the Red Sea and serves as an important transshipment location for goods entering and leaving the east African highlands. The present leadership favors close ties to France, which maintains a significant military presence in the country, but also has strong ties with the US.

MONETARY SYSTEM:
1 Franc = 100 Centimes

46 **40 Francs** **VF UNC**
2017. Blue and multicolor. Shark with coral reef and fish; seahorse and starfish. Back: Port scene with cranes and vessels. 153x70mm. FV 6.00

The Dominican Republic, occupying the eastern two-thirds of the island of Hispañiola, has an area of 48,730 sq. km. and a population of 9.50 million. Capital: Santo Domingo. The agricultural economy produces sugar, coffee, tobacco and cocoa.

Explored and claimed by Christopher Columbus on his first voyage in 1492, the island of Hispaniola became a springboard for Spanish conquest of the Caribbean and the American mainland. In 1697, Spain recognized French dominion over the western third of the island, which in 1804 became Haiti. The remainder of the island, by then known as Santo Domingo, sought to gain its own independence in 1821, but was conquered and ruled by the Haitians for 22 years; it finally attained independence as the Dominican Republic in 1844. In 1861, the Dominicans voluntarily returned to the Spanish Empire, but two years later they launched a war that restored independence in 1865. A legacy of unsettled, mostly non-representative rule followed, capped by the dictatorship of Rafael Leonidas Trujillo from 1930-61. Juan Bosch was elected president in 1962, but was deposed in a military coup in 1963. In 1965, the United States led an intervention in the midst of a civil war sparked by an uprising to restore Bosch. In 1966, Joaquin Balaguer defeated Bosch in an election to become president. Balaguer maintained a tight grip on power for most of the next 30 years when international reaction to flawed elections forced him to curtail his term in 1996. Since then, regular competitive elections have been held in which opposition candidates have won the presidency. Former President (1996-2000) Leonel Fernandez Reyna won election to a second term in 2004 following a constitutional amendment allowing presidents to serve more than one term.

MONETARY SYSTEM:
1 Peso Oro = 100 Centavos Oro
1 Peso Dominicano = 100 Centavos, 2010-

SPECIMEN NOTES:
In 1998 the Banco Central began selling various specimens over the counter to the public.

REPLACEMENT NOTES:
#53-61: Z prefix and suffix (TDLR printings).
#117-124: Z prefix and suffix (TDLR printings).

East Africa was an administrative grouping of several neighboring British territories: Kenya, Tanganyika, Uganda and Zanzibar. The common interest of Kenya, Tanzania and Uganda invited cooperation in economic matters and consideration of political union. The territorial governors, organized as the East Africa High Commission, met periodically to administer such common activities as taxation, industrial development and education. The authority of the Commission did not infringe upon the constitution and internal autonomy of the individual colonies. The common monetary system circulated for the territories by the East African Currency Board and was also used in British Somaliland and the Aden Protectorate subsequent to the independence of India (1947) whose currency had previously circulated in these two territories. Also see British Somaliland, Zanzibar, Kenya, Uganda and Tanzania. Also see Somaliland Republic, Kenya, Uganda and Tanzania.

The East Caribbean States, formerly the British Caribbean Territories (Eastern Group), a currency board formed in 1950, comprised the British West Indies territories of Trinidad and Tobago, Barbados, the Leeward Islands of Anguilla, St. Christopher, Nevis and Antigua; the Windward Islands of St. Lucia, Dominica, St. Vincent and Grenada; British Guiana and the British Virgin Islands. As time progressed, the member countries varied and is reflected on the backs of #13-16. The first issue includes Barbados but not Grenada, while the second issue includes both Barbados and Grenada and the third issue retains Grenada while Barbados is removed. Barbados attained self-government in 1961 and independence on Nov. 30, 1966. On May 26, 1966 British Guiana became independent as Guyana which later became a cooperative Republic on Feb. 23, 1970. The British Virgin Islands became a largely self-governing dependent territory of the United Kingdom in 1967. United States currency is the official medium of exchange. St. Christopher and Nevis became fully independent on Sept. 19, 1983. Trinidad & Tobago became an independent member state of the Commonwealth on August 31, 1962.

The Republic of Ecuador, located astride the equator on the Pacific coast of South America, has an area of 283,560 sq. km. and a population of 13.93 million. Capital: Quito. Agriculture is the mainstay of the economy but there are appreciable deposits of minerals and petroleum. It is the world's largest exporter of bananas and balsa wood. Coffee, cacao and shrimp are also valuable exports.

What is now Ecuador formed part of the northern Inca Empire until the Spanish conquest in 1533. Quito became a seat of Spanish colonial government in 1563 and part of the Viceroyalty of New Granada in 1717. The territories of the Viceroyalty - New Granada (Colombia), Venezuela, and Quito - gained their independence between 1819 and 1822 and formed a federation known as Gran Colombia. When Quito withdrew in 1830, the traditional name was changed in favor of the "Republic of the Equator." Between 1904 and 1942, Ecuador lost territories in a series of conflicts with its neighbors. A border war with Peru that flared in 1995 was resolved in 1999. Although Ecuador marked 25 years of civilian governance in 2004, the period has been marred by political instability. Protests in Quito have contributed to the mid-term ouster of Ecuador's last three democratically elected Presidents. In 2007, a Constituent Assembly was elected to draft a new constitution; Ecuador's twentieth since gaining independence.

MONETARY SYSTEM:

1 Peso = 8 Reales
1 Peso = 100 Centavos
1 Sucre = 10 Decimos = 100 Centavos
1 Condor = 25 Sucres
1 USA Dollar = 25,000 Sucres (March 2001)

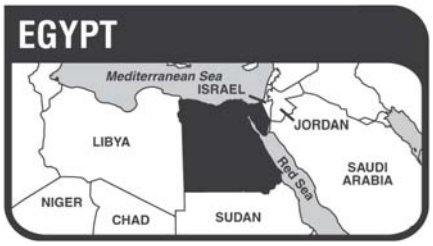
Note: Since September 7, 2000, the U.S. Dollar became legal tender, and the sucre was redeemable until March 30, 2001 at the rate of 25,000 Sucres per U.S. Dollar.



The Arab Republic of Egypt, located on the northeastern corner of Africa, has an area of 1,001,450 sq. km. and a population of 81.71 million. Capital: Cairo. Although Egypt is an almost rainless expanse of desert, its economy is predominantly agricultural. Cotton, rice and petroleum are exported.

The regularity and richness of the annual Nile River flood, coupled with semi-isolation provided by deserts to the east and west, allowed for the development of one of the world's great civilizations. A unified kingdom arose circa 3200 B.C., and a series of dynasties ruled in Egypt for the next three millennia. The last native dynasty fell to the Persians in 341 B.C., who in turn were replaced by the Greeks, Romans, and Byzantines. It was the Arabs who introduced Islam and the Arabic language in the 7th century and who ruled for the next six centuries. A local military caste, the Mamluks took control about 1250 and continued to govern after the conquest of Egypt by the Ottoman Turks in 1517. Following the completion of the Suez Canal in 1869, Egypt became an important world transportation hub, but also fell heavily into debt. Ostensibly to protect its investments, Britain seized control of Egypt's government in 1882, but nominal allegiance to the Ottoman Empire continued until 1914. Partially independent from the UK in 1922, Egypt acquired full sovereignty with the overthrow of the British-backed monarchy in 1952. The completion of the Aswan High Dam in 1971 and the resultant Lake Nasser have altered the time-honored place of the Nile River in the agriculture and ecology of Egypt. A rapidly growing population (the largest in the Arab world), limited arable land, and dependence on the Nile all continue to overtax resources and stress society. The government has struggled to meet the demands of Egypt's growing population through economic reform and massive investment in communications and physical infrastructure.

MONETARY SYSTEM:

1 Piastre (Guerche) = 10 Milliemes
1 Pound (Junayh) = 100 Piastres, 1916-

REPLACEMENT NOTES:

Starting in 1969, 2 types exist. Earlier system uses a single Arabic letter as series prefix instead of normal number/letter prefix. Known notes: #38-. Later system has the equivalent of English "200" or "300" in front of a single Arabic series letter. Known notes: #46-.

The Republic of El Salvador, a Central American country bordered by Guatemala, Honduras and the Pacific Ocean, has an area of 21,040 sq. km. and a population of 7.07 million. Capital: San Salvador. This most intensely cultivated country of Latin America produces coffee (the major crop), sugar and balsam for export. Gold, silver and other metals are largely unexploited.

El Salvador achieved independence from Spain in 1821 and from the Central American Federation in 1839. A 12-year civil war, which cost about 75,000 lives, was brought to a close in 1992 when the government and leftist rebels signed a treaty that provided for military and political reforms.

On January 1, 2001, a monetary reform established the U.S. dollar as the accounting unit for all financial transactions, and fixed the exchange rate as 8.75 colones per dollar. In addition, the Central Reserve Bank has indicated that it will cease issuing coins and notes.

MONETARY SYSTEM:
1 Colón = 100 Centavos 1919-

Equatorial African States (Central African States), a monetary union comprising the former French possessions and now independent states of the Republic of Congo (Brazzaville), Gabon, Central African Republic, Chad and Cameroon, issues a common currency for the member states from a common central bank. The monetary unit, the African Financial Community Franc, is tied to and supported by the French franc. In 1960, an abortive attempt was made to form a union of the newly independent republics of Chad, Congo, Central Africa and Gabon. The proposal was discarded when Chad refused to become a constituent member. The four countries then linked into an Equatorial Customs Unit, to which Cameroon became an associate member in 1961. A more extensive cooperation of the five republics, identified as the Central African Customs and Economic Union, was entered into force at the beginning of 1966. In 1974 the Central Bank of the Equatorial African States, which had issued coins and paper currency in its own name and with the names of the constituent member nations, changed its name to the Bank of the Central African States.

s. Specimen. Serial #00000.	—	8,000

The Republic of Equatorial Guinea consists of Rio Muni, located on the coast of west-central Africa between Cameroon and Gabon, and several offshore islands, principally Isla de Corisco and Isla de Bioko. The country has an area of 28,051 sq. km. and a population of 616,460. Capital: Malabo. The economy is based on agriculture and forestry. Cacao, wood and coffee are exported.

Equatorial Guinea gained independence in 1968 after 190 years of Spanish rule. This tiny country, composed of a mainland portion plus five inhabited islands, is one of the smallest on the African continent. President Teodoro Obiang Nguema Mbasogo has ruled the country since 1979 when he seized power in a coup. Although nominally a constitutional democracy since 1991, the 1996 and 2002 presidential elections - as well as the 1999 and 2004 legislative elections - were widely seen as flawed. The president exerts almost total control over the political system and has discouraged political opposition. Equatorial Guinea has experienced rapid economic growth due to the discovery of large offshore oil reserves, and in the last decade has become Sub-Saharan Africa's third largest oil exporter. Despite the country's economic windfall from oil production resulting in a massive increase in government revenue in recent years, there have been few improvements in the population's living standards.

Additional listings can be found under Central African States.

The State of Eritrea, a former Ethiopian province fronting on the Red Sea, has an area of 121,320 sq. km. and a population of 5.50 million.

Eritrea was awarded to Ethiopia in 1952 as part of a federation. Ethiopia's annexation of Eritrea as a province 10 years later sparked a 30-year struggle for independence that ended in 1991 with Eritrean rebels defeating governmental forces; independence was overwhelmingly approved in a 1993 referendum. A two-and-a-half-year border war with Ethiopia that erupted in 1998 ended under UN auspices in December 2000. Eritrea currently hosts a UN peacekeeping operation that is monitoring a 25 km-wide Temporary Security Zone (TSZ) on the border with Ethiopia. An international commission, organized to resolve the border dispute, posted its findings in 2002. However, both parties have been unable to reach agreement on implementing the decision. On 30 November 2007, the Eritrea-Ethiopia Boundary Commission remotely demarcated the border by coordinates and dissolved itself, leaving Ethiopia still occupying several tracts of disputed territory, including the town of Badme. Eritrea accepted the EEBC's "virtual demarcation" decision and called on Ethiopia to remove its troops from the TSZ which it states is Eritrean territory. Ethiopia has not accepted the virtual demarcation decision.

The Republic of Estonia is the northernmost of the three Baltic states in eastern Europe. It has an area of 45,226 sq. km. and a population of 1.31 million. Capital: Tallinn. Agriculture and dairy farming are the principal industries. Butter, eggs, bacon, timber are exported.

After centuries of Danish, Swedish, German, and Russian rule, Estonia attained independence in 1918. Forcibly incorporated into the USSR in 1940 - an action never recognized by the US - it regained its freedom in 1991, with the collapse of the Soviet Union. Since the last Russian troops left in 1994, Estonia has been free to promote economic and political ties with Western Europe. It joined both NATO and the EU in the spring of 2004.

COLLECTOR SERIES

Eesti Pank

Bank of Estonia

1999 Collector's Set

80th Anniversary of Bank

CS1 **100 Krooni** **Mkt. Value**
1999. Set includes: 100 Krooni specimen note (#82), 5 Krooni coin, and 4 stamps. 3,000 pcs. 80.00

The Federal Republic of Ethiopia is located in east-central Africa. The country has an area of 1.13 million sq. km. and a population of 82.54 million people. Capital: Addis Abeba. The economy is predominantly agricultural and pastoral. Gold and platinum are mined and petroleum fields are being developed. Coffee, oil, seeds, hides and cereals are exported.

Unique among African countries, the ancient Ethiopian monarchy maintained its freedom from colonial rule with the exception of the 1936-41 Italian occupation during World War II. In 1974, a military junta, the Derg, deposed Emperor Haile Selassie (who had ruled since 1930) and established a socialist state. Torn by bloody coups, uprisings, wide-scale drought, and massive refugee problems, the regime was finally toppled in 1991 by a coalition of rebel forces, the Ethiopian People's Revolutionary Democratic Front (EPRDF). A constitution was adopted in 1994, and Ethiopia's first multiparty elections were held in 1995. A border war with Eritrea late in the 1990s ended with a peace treaty in December 2000. The Eritrea-Ethiopia Border Commission in November 2007 remotely demarcated the border by geographical coordinates, but final demarcation of the boundary on the ground is currently on hold because of Ethiopian objections to an international commission's finding requiring it to surrender territory considered sensitive to Ethiopia.

RULERS:
Haile Selassie I, 1930-1936, 1941-1974

The Treaty of Rome (1958) declared a common European market as a European objective with the aim of increasing economic prosperity and contributing to an ever closer union among the peoples of Europe. The Single European Act (1986) and the Treaty on European Union (1992) have built on this, introducing the Economic and Monetary Union and laying the foundations for the single currency. In January 1999 the exchange rate was irrevocably set for the original participating countries. These were: Austria, Belgium, Finland, France, Germany, Ireland, Italy, Luxembourg, Netherlands, Portugal and Spain. Greece became a participating member in January 2001. Denmark, Sweden and the United Kingdom, although members of the European Union, decided not to participate in the single currency at its inception. The currency was introduced on January 1, 2002. Since the original group Cyprus, Estonia, Malta, Latvia, Slovenia and Slovakia have introduced Euro notes. The French overseas departments: French Guiana, Guadeloupe, Martinique; these dependencies: Saint Martin, Saint Barthélemy; and territories: Saint Pierre et Miquelon and Mayotte all use the Euro Currency, and are depicted on the map section on the notes along with Réunion and the Canary Islands.

The Faroes, a self-governing community within the kingdom of Denmark, are situated in the North Atlantic between Iceland and the Shetland Islands. The 17 inhabited islets and reefs have an area of 1,399 sq. km. and a population of 48,623. Capital: Tórshavn. The principal industries are fishing and grazing. Fish and fish products are exported.

The population of the Faroe Islands is largely descended from Viking settlers who arrived in the 9th century. The islands have been connected politically to Denmark since the 14th century. A high degree of self government was attained in 1948.

The Colony of the Falkland Islands and Dependencies, a British colony located in the South Atlantic about 500 miles northeast of Cape Horn, has an area of 12,173 sq. km. and a population of 3,140. East Falkland, West Falkland, South Georgia, and South Sandwich are the largest of the 200 islands. Capital: Port Stanley. Fishing and sheep are the industry. Wool, whale oil, and seal oil are exported.

Although first sighted by an English navigator in 1592, the first landing was by the English almost a century later in 1690, and the first settlement was by the French in 1764. The colony was turned over to Spain two years later and the islands have since been the subject of a territorial dispute, first between Britain and Spain, then between Britain and Argentina. The UK asserted its claim to the islands by establishing a naval garrison there in 1833. The Islands were important in the days of sail and steam shipping as a location to re-stock fresh food and fuel, and make repairs after trips around Cape Horn. In April 1982 Argentine forces invaded and after a short military campaign Britain regained control in June 1982. In 1990 the Argentine congress declared the Falklands and Dependencies as the province Tierra del Fuego.

The Republic of the Fiji Islands consists of about 330 islands and over 500 islets located in the southwestern Pacific 1,770 km. north of New Zealand. The islands have a combined area of 7,056 sq. mi. and a population of 884,887. Capital: Suva, on the island of Viti Levu. The country's economy is based on forestry, agriculture, fisheries, tourism and mining. Sugar, fish, timber, coconut products, and gold are exported.

In 1970 Fiji became the independent Dominion of Fiji within the British Commonwealth after nearly a century as a British colony. Democratic rule was interrupted by two military coups in 1987 precipitated by a perception that the government was dominated by the Indian community (descendants of contract laborers brought to the islands by the British in the 19th century). The second coup saw the country's name changed to The Republic of Fiji with a president replacing Queen Elizabeth as head of state.

The coups and a 1990 constitution cemented native Melanesian control of Fiji and led to heavy Indian emigration. The population loss resulted in economic difficulties but ensured Melanesians became the majority. A new constitution enacted in 1997 was more equitable with the country now known as The Republic of the Fiji Islands.

A government led by an Indo-Fijian resulted from free and peaceful elections in 1999 but a civilian-led coup in May 2000 ushered-in a prolonged period of political turmoil. Parliamentary elections held in August 2001 provided Fiji with a democratically elected government headed by Prime Minister Laisenia Qarase. He was re-elected in May 2006 but ousted in a December 2006 by a military coup led by Commodore Voreqe Bainimarama who was appointed interim prime minister in January 2007. Come September 2009 Fiji was suspended from the British Commonwealth.

After five years of delays a democratic election was held in September 2014. The election was deemed credible by international observers with Bainimarama's Fiji First party winning 59.2% of the vote. The country's suspension from the British Commonwealth was lifted the same month.

s. Specimen note.	250	400

Printed date is in reference to medal win and not date of issue. All issued notes have serial prefix AU except replacements and a 7-digit serial #.

The Republic of Finland, the second most northerly state of the European continent, has an area of 338,145 sq. km. and a population of 5.24 million. Capital: Helsinki. Electrical, optical equipment, shipbuilding, metal and woodworking are the leading industries. Paper, wood pulp, plywood and telecommunication equipment are exported.

Finland was a province and then a grand duchy under Sweden from the 12th to the 19th centuries, and an autonomous grand duchy of Russia after 1809. It won its complete independence in 1917. During World War II, it was able to successfully defend its freedom and resist invasions by the Soviet Union - albeit with some loss of territory. In the subsequent half century, the Finns made a remarkable transformation from a farm/forest economy to a diversified modern industrial economy; per capita income is now among the highest in Western Europe. A member of the European Union since 1995, Finland was the only Nordic state to join the euro system at its initiation in January 1999.

MONETARY SYSTEM:

1 Markka = 100 Penniä, 1860-1963
1 Markka = 100 "Old" Markkaa, 1963-2001
1 Euro = 100 Cents, 2002-

REPLACEMENT NOTES: Replacement notes were introduced in 1955. Until 1980, replacement notes have an asterisk after the serial number. Series 1986 show 2nd and 3rd digits of serial # as 99.

Note: For later issues made for use in Finland see European Union listings.

The French Republic, largest of the West European nations, has an area of 547,026 sq. km. and a population of 64.05 million. Capital: Paris. Agriculture, manufacturing and tourism are the most important elements of France's diversified economy. Textiles and clothing, iron and steel products, machinery and transportation equipment, agricultural products and wine are exported.

Although ultimately a victor in World Wars I and II, France suffered extensive losses in its empire, wealth, manpower, and rank as a dominant nation-state. Nevertheless, France today is one of the most modern countries in the world and is a leader among European nations. Since 1958, it has constructed a hybrid presidential-parliamentary governing system resistant to the instabilities experienced in earlier more purely parliamentary administrations. In recent years, its reconciliation and cooperation with Germany have proved central to the economic integration of Europe, including the introduction of a common exchange currency, the euro, in January 1999. At present, France is at the forefront of efforts to develop the EU's military capabilities to supplement progress toward an EU foreign policy.

MONETARY SYSTEM:

1 Nouveau Franc = 100 "old" Francs, 1959-1962
1 Franc = 100 Centimes, 1962-2002
1 Euro = 100 Cents, 2002-

Note: For later issues made for use in France see European Union listings.

The French Overseas Territory of Afars and Issas (formerly French Somaliland, later to be independent as Djibouti) is located in northeast Africa at the Bab el Mandeb Strait connecting the Suez Canal and the Red Sea with the Gulf of Aden and the Indian Ocean, has an area of 8,494 sq. mi. (22,000 sq. km.) and a population of 542,000. Capital: Djibouti. The tiny nation has less than one sq. mi. of arable land, and no natural resources except salt, sand and camels. The commercial activities of the trans-shipment port of Djibouti and the Addis Ababa-Djibouti railroad are the basis of the economy. Salt, fish and hides are exported. French interest in former French Somaliland began in 1839 with concessions obtained by a French naval lieutenant from the provincial sultans. French Somaliland was made a protectorate in 1884 and its boundaries were delimited by the Franco-British and Ethiopian accords of 1887 and 1897. It became a colony in 1896 and a territory within the French Union in 1946. In 1958, it voted to join the new French Community as an overseas territory, and reaffirmed that choice by a referendum in March 1967. Its name was changed from French Somaliland to the French Territory of Afars and Issas on July 5, 1967. The French Tricolor, which had flown over the strategically important territory for 115 years, was lowered for the last time on June 27, 1977, when French Afars and Issas became Djibouti. Note: For later issues see Djibouti.

The French Overseas Department of French Guiana, located on the northeast coast of South America, bordered by Surinam and Brazil, has an area of 32,252 sq. mi. (91,000 sq. km.) and a population of 173,000. Capital: Cayenne. Placer gold mining and shrimp processing are the chief industries. Shrimp, lumber, gold, cocoa and bananas are exported. The coast of Guiana was sighted by Columbus in 1498 and explored by Amerigo Vespucci in 1499. The French established the first successful trading stations and settlements, and placed the area under direct control of the French Crown in 1674. Portuguese and British forces occupied French Guiana for five years during the Napoleonic Wars. Devil's Island, the notorious penal colony in French Guiana where Capt. Alfred Dreyfus was imprisoned, was established in 1852 - and finally closed in 1947. When France adopted a new constitution in 1946, French Guiana voted to remain within the French Union as an overseas department. Note: For later issues see French Antilles.

The Gabonese Republic, a member of the French Community, straddles the equator on the west coast of Africa. The hot and humid rain forest country has an area of 267,667 sq. km. and a population of 1.48 million, almost all of Bantu origin. Capital: Libreville. Extravagantly rich in resources, Gabon exports crude oil, manganese ore, gold and timbers.

Only two autocratic presidents have ruled Gabon since independence from France in 1960. The current president of Gabon, El Hadj Omar Bongo Ondimba - one of the longest-serving heads of state in the world - has dominated the country's political scene for four decades. President Bongo introduced a nominal multiparty system and a new constitution in the early 1990s. However, allegations of electoral fraud during local elections in 2002-03 and the presidential elections in 2005 have exposed the weaknesses of formal political structures in Gabon. Gabon's political opposition remains weak, divided, and financially dependent on the current regime. Despite political conditions, a small population, abundant natural resources, and considerable foreign support have helped make Gabon one of the more prosperous and stable African countries.

Note: For related currency, see the Equatorial African States.

The Republic of The Gambia, an independent member of the British Commonwealth, occupies a long strip of land encompassing both sides of West Africa's Gambia River, and completely surrounded by Senegal. The republic, one of Africa's smallest, has an area of 11,300 sq. km. and a population of 1.76 million. Capital: Banjul. Agriculture and tourism are the principal industries. Peanuts constitute 95 per cent of export earnings.

The Gambia gained its independence from the UK in 1965. Geographically surrounded by Senegal, it formed a short-lived federation of Senegambia between 1982 and 1989. In 1991 the two nations signed a friendship and cooperation treaty, but tensions have flared up intermittently since then. Yahya A. J. J. Jammeh led a military coup in 1994 that overthrew the president and banned political activity. A new constitution and presidential elections in 1996, followed by parliamentary balloting in 1997, completed a nominal return to civilian rule. Jammeh has been elected president in all subsequent elections, including most recently in late 2006.

Georgia is bounded by the Black Sea to the west and by Turkey, Armenia and Azerbaijan. It occupies the western part of Transcaucasia covering an area of 69,700 sq. km. and a population of 4.63 million. Capital: Tbilisi. Hydro-electricity, minerals, forestry and agriculture are the chief industries.

The region of present-day Georgia contained the ancient kingdoms of Colchis and Kartli-Iberia. The area came under Roman influence in the first centuries A.D. and Christianity became the state religion in the 330s. Domination by Persians, Arabs, and Turks was followed by a Georgian golden age (11th-13th centuries) that was cut short by the Mongol invasion of 1236. Subsequently, the Ottoman and Persian empires competed for influence in the region. Georgia was absorbed into the Russian Empire in the 19th century. Independent for three years (1918-1921) following the Russian revolution, it was forcibly incorporated into the USSR until the Soviet Union dissolved in 1991. An attempt by the incumbent Georgian government to manipulate national legislative elections in November 2003 touched off widespread protests that led to the resignation of Eduard Shevardnadze, president since 1995. New elections in early 2004 swept Mikheil Saakashvili into power along with his National Movement party. Progress on market reforms and democratization has been made in the years since independence, but this progress has been complicated by Russian assistance and support to the breakaway regions of Abkhazia and South Ossetia. Georgian military action in South Ossetia in early August 2008 led to a Russian military response that not only occupied the breakaway areas, but large portions of Georgia proper as well. Russian troops pulled back from most occupied Georgian territory, but in late August 2008 Russia unilaterally recognized the independence of Abkhazia and South Ossetia. This action was strongly condemned by most of the world's nations and international organizations.

MONETARY SYSTEM:

1 Lari = 100 Thetri to 1995
1 Lari = 1,000,000 'old' Laris, 1995-
1 Lari = 1 Kuponi from 1993 to 1994

The German Democratic Republic (East Germany), located on the great north European plain, ceased to exist in 1990. During the closing days of World War II in Europe, Soviet troops advancing into Germany from the east occupied the German provinces of Mecklenburg, Brandenburg, Saxony-Anhalt, Saxony and Thuringia. These five provinces comprised the occupation zone administered by the Soviet Union after the cessation of hostilities. The other three zones were administered by the United States, Great Britain and France. Under the Potsdam agreement, questions affecting Germany as a whole were to be settled by the commanders in chief of the occupation zones acting jointly and by unanimous decision. When Soviet intransigence rendered the quadripartite commission inoperable, the three western zones were united to form the Federal Republic of Germany, May 23, 1949. Thereupon the Soviet Union dissolved its occupation zone and established it as the Democratic Republic of Germany, Oct. 7, 1949. East and West Germany became reunited as one country on Oct. 3, 1990.

1989 Commemorative Issue

#CS1, Opening of Brandenburg Gate, 1989. Not legal tender.

CS1 **20 Mark 22.12.1989** **Mkt. Value**
1989. Black and purple on multicolor underprint. Brandenburg Gate in Berlin at center. 500

Note: As stated on this item, #CS1 was never intended to be legal tender.

The Federal Republic of Germany (formerly West Germany), located in north-central Europe, since 1990 with the unification of East Germany, has an area of 137,782 sq. mi. (356,854 sq. km.) and a population of 82.69 million. Capital: Berlin. The economy centers about one of the world's foremost industrial establishments. Machinery, motor vehicles, iron, steel, chemicals, yarns and fabrics are exported. During the post-Normandy phase of World War II, Allied troops occupied the western German provinces of Schleswig-Holstein, Hamburg, Lower Saxony, Bremen, North Rhine-Westphalia, Hesse, Rhineland-Palatinate, Baden-Wurttemberg, Bavaria and Saarland.

The conquered provinces were divided into American, British and French occupation zones. Five eastern German provinces were occupied and administered by the forces of the Soviet Union. The western occupation forces restored the civil status of their zones on Sept. 21, 1949, and resumed diplomatic relations with the provinces on July 2, 1951. On May 5, 1955, nine of the ten western provinces, organized as the Federal Republic of Germany, became fully independent. The tenth province, Saarland, was restored to the republic on Jan. 1, 1957.

The post-WW II division of Germany ended on Oct. 3, 1990, when the German Democratic Republic (East Germany) ceased to exist and its five constituent provinces were formally admitted to the Federal Republic of Germany. An election Dec. 2, 1990, chose representatives to the united federal parliament (Bundestag), which then conducted its opening session in Berlin in the old Reichstag building.

The Republic of Ghana, a member of the British Commonwealth situated on the West Coast of Africa between the Ivory Coast and Togo, has an area of 239,460 sq. km. and a population of 23,38 million, almost entirely African. Capital: Accra. Traditional exports include cocoa, coffee, timber, gold, industrial diamonds, maganese and bauxite. Additional exports include pineapples, bananas, yams, tuna, cola and salt.

Formed from the merger of the British colony of the Gold Coast and the Togoland trust territory, Ghana in 1957 became the first sub-Saharan country in colonial Africa to gain its independence. Ghana endured a long series of coups before Lt. Jerry Rawlings took power in 1981 and banned political parties. After approving a new constitution and restoring multiparty politics in 1992, Rawlings won presidential elections in 1992 and 1996, but was constitutionally prevented from running for a third term in 2000. John Kufuor succeeded him and was reelected in 2004. Kufuor is constitutionally barred from running for a third term in upcoming Presidential elections, which are scheduled for December 2008.

Ghana's monetary denomination of "cedi" is derived from the word "sedie" meaning cowrie, a shell money commonly employed by coastal tribes.

The British Colony of Gibraltar, located at the southernmost point of the Iberian Peninsula, has an area of 6.5 sq. km. and a population of 28,000. Capital (and only town): Gibraltar.

Strategically important, Gibraltar was reluctantly ceded to Great Britain by Spain in the 1713 Treaty of Utrecht; the British garrison was formally declared a colony in 1830. In a referendum held in 1967, Gibraltarians voted overwhelmingly to remain a British dependency. The subsequent granting of autonomy in 1969 by the UK led to Spain closing the border and severing all communication links. A series of talks were held by the UK and Spain between 1997 and 2002 on establishing temporary joint sovereignty over Gibraltar. In response to these talks, the Gibraltar Government called a referendum in late 2002 in which the majority of citizens voted overwhelmingly against any sharing of sovereignty with Spain. Since the referendum, tripartite talks on other issues have been held with Spain, the UK, and Gibraltar, and in September 2006 a three-way agreement was signed. Spain agreed to remove restrictions on air movements, to speed up customs procedures, to implement international telephone dialing, and to allow mobile roaming agreements. Britain agreed to pay increased pensions to Spaniards who had been employed in Gibraltar before the border closed. Spain will be allowed to open a cultural institute from which the Spanish flag will fly. A new noncolonial constitution came into effect in 2007, but the UK retains responsibility for defense, foreign relations, internal security, and financial stability.

1975 Issue

		Mkt. Value
CS1	**1975 1-20 Pounds**	
	#20a, 21a, 22, 23a. with overprint: *SPECIMEN* and serial # prefix: Maltese cross.	350

The United Kingdom of Great Britain and Northern Ireland, (including England, Scotland, Wales and Northern Ireland) is located off the northwest coast of the European continent, has an area of 94,227 sq. mi. (244,046 sq. km.), and a population of 59.45 million. Capital: London. The economy is based on industrial activity, trading and financial services. Machinery, motor vehicles, chemicals and textile yarns and fabrics are exported. After the departure of the Romans, who brought Britain into an active relationship with Europe, Britain fell prey to invaders from Scandinavia and the Low Countries who drove the original Britons into Scotland and Wales, and established a profusion of kingdoms that finally united in the 11th century under the Danish King Canute. Norman rule, following the conquest of 1066, stimulated the development of those institutions which have since distinguished British life. Henry VIII (1509-47) turned Britain from continental adventuring and faced it to the sea - a decision that made Britain a world power during the reign of Elizabeth I (1558-1603).

Strengthened by the Industrial Revolution and the defeat of Napoleon, 19th century Britain turned to the remote parts of the world and established a colonial empire of such extent and prosperity that the world has never seen its like. World Wars I and II sealed the fate of the Empire and relegated Britain to a lesser role in world affairs by draining her resources and inaugurating a worldwide movement toward national self-determination in her former colonies. By the mid-20th century, most of the former British Empire had gained independence and had evolved into the Commonwealth of Nations.

This association of equal and and autonomous states, set out to agree views and special relationships with one another (appointing High Commissioners rather than Ambassadors) for mutual benefit, trade interests, etc. The Commonwealth is presently (1999) composed of 54 member nations, including the United Kingdom. All recognize the monarch as Head of the Commonwealth; 16 continue to recognize Queen Elizabeth II as Head of State. In addition to the United Kingdom, they are: Antigua & Barbuda, Australia, The Bahamas, Barbados Belize, Canada, Grenada, Paupa New Guinea, St. Christopher & Nevis, St. Lucia, St. Vincent & the Grenadines, Solomon Islands.

RULERS:
Elizabeth II, 1952-

MONETARY SYSTEM:
1 Shilling = 12 Pence
1 Pound = 20 Shillings to 1971
1 Pound = 100 (New) Pence, 1971-

As #386 with serial # prefix *HM70* for the 70th Birthday of Queen Elizabeth II. Limited to 5000. 80.00

CS6 5 Pounds **Mkt. Value**
Uncut sheet of 8 of #382b. Limited to 5000 sheets. 220

1997 Issue

CS7 5 Pounds **Mkt. Value**
As #385a with serial # prefix HK issued commemorating the Return of Hong Kong to the People's Republic of China.
a. Single note in a special card. 25.00
b. Uncut sheet of 12. 440
c. Uncut sheet of 35. 700

CS8 5, 10, 20 Pounds **Mkt. Value**
As #385b, 386b, 387b with serial # prefix BE98 with matching numbers. Limited to 1888. 160

1999 Issue

CS9 5, 10, 20, 50 Pounds **Mkt. Value**
New Lowther issue. In folder: #385b, 386b, 387b and 388b. 600

2000 Issue

CS10 5 Pounds **Mkt. Value**
As 385b but with serial # prefix *YR20.* Millenium. Limited to 1500. 40.00

CS12 5 Pounds **Mkt. Value**
As #385b with serial # prefix *QM10. With CN crown in folder.* Queen Mother's 100th birthday. Limited to 10,000. 60.00

CS13 5 Pounds **Mkt. Value**
As #CS12 with 5 pound stamp in folder. Limited to 1000. 80.00

CS11 10 Pounds **Mkt. Value**
As #386b with serial # prefix *YR20.*Millenium. Limited to 1500. 65.00

The Hellenic Republic of Greece is situated in southeastern Europe on the southern tip of the Balkan Peninsula. The republic includes many islands, the most important of which are Crete and the Ionian Islands. Greece (including islands) has an area of 131,940 sq. km. and a population of 10.72 million. Capital: Athens. Greece is still largely agricultural. Tobacco, cotton, fruit and wool are exported.

Greece achieved independence from the Ottoman Empire in 1829. During the second half of the 19th century and the first half of the 20th century, it gradually added neighboring islands and territories, most with Greek-speaking populations. In World War II, Greece was first invaded by Italy (1940) and subsequently occupied by Germany (1941-44); fighting endured in a protracted civil war between supporters of the king and Communist rebels. Following the latter's defeat in 1949, Greece joined NATO in 1952. A military dictatorship, which in 1967 suspended many political liberties and forced the king to flee the country, lasted seven years. The 1974 democratic elections and a referendum created a parliamentary republic and abolished the monarchy. In 1981, Greece joined the EC (now the EU); it became the 12th member of the European Economic and Monetary Union in 2001.

RULERS:
Paul I, 1947-1964

s. Specimen. — 225

Note: For later issues made for use in Greece see European Union listings.

Greenland, an integral part of the Danish realm, is a huge island situated between the North Atlantic Ocean and the Polar Sea, almost entirely within the Artic Circle. It has an area of 2.166 million sq. km. and a population of 57,564. Capital: Nuuk (Godthaab). Greenland is the world's only source of natural cryolite, a fluoride of sodium and aluminum important in making aluminum. Fish products and minerals are exported.

Greenland, the world's largest island, is about 81% ice-capped. Vikings reached the island in the 10th century from Iceland; Danish colonization began in the 18th century, and Greenland was made an integral part of Denmark in 1953. It joined the European Community (now the EU) with Denmark in 1973, but withdrew in 1985 over a dispute centered on stringent fishing quotas. Greenland was granted self-government in 1979 by the Danish parliament; the law went into effect the following year. Denmark continues to exercise control of Greenland's foreign affairs in consultation with Greenland's Home Rule Government.

The Republic of Guatemala, the northernmost of the five Central American republics, has an area of 108,890 sq. km. and a population of 13 million. Capital: Guatemala City. The economy of Guatemala is heavily dependent on resources which are being developed. Coffee, cotton and bananas are exported.

The Mayan civilization flourished in Guatemala and surrounding regions during the first millennium A.D. After almost three centuries as a Spanish colony, Guatemala won its independence in 1821. During the second half of the 20th century, it experienced a variety of military and civilian governments, as well as a 36-year guerrilla war. In 1996, the government signed a peace agreement formally ending the conflict, which had left more than 100,000 people dead and had created, by some estimates, some 1 million refugees.

The Bailiwick of Guernsey, a British crown dependency located in the English Channel 48 km. west of Normandy, France, has an area of 78 sq. km., including the Isles of Alderney, Jethou, Herm, Brechou and Sark, and a population of 58,681. Capital: St. Peter Port. Agriculture and cattle breeding are the main occupations.

Guernsey and the other Channel Islands represent the last remnants of the medieval Dukedom of Normandy, which held sway in both France and England. The islands were the only British soil occupied by German troops in World War II. Guernsey is a British crown dependency, but is not part of the UK. However, the UK Government is constitutionally responsible for its defense and international representation. United Kingdom bank notes and coinage circulate concurrently with Guernsey money as legal tender.

Commemorates the 200th Anniversary of Thomas de la Rue's first commercial venture.

The Republic of Guinea (formerly French Guinea), situated on the Atlantic coast of Africa between Sierra Leone and Guinea-Bissau, has an area of 245,857 sq. km. and a population of 9.8 million. Capital: Conakry. Although Guinea contains one-third of the world's reserves of bauxite and significant deposits of iron ore, gold and diamonds, the economy is still dependent on agriculture. Aluminum, bananas, copra and coffee are exported.

Guinea has had only two presidents since gaining its independence from France in 1958. Lansana Conte came to power in 1984 when the military seized the government after the death of the first president, Sekou Toure. Guinea did not hold democratic elections until 1993 when Gen. Conte (head of the military government) was elected president of the civilian government. He was reelected in 1998 and again in 2003, though all the polls have been marred by irregularities. Guinea has maintained its internal stability despite spillover effects from conflict in Sierra Leone and Liberia. As those countries have rebuilt, Guinea's own vulnerability to political and economic crisis has increased. Declining economic conditions and popular dissatisfaction with corruption and bad governance prompted two massive strikes in 2006; a third nationwide strike in early 2007 sparked violent protests in many Guinean cities and prompted two weeks of martial law. To appease the unions and end the unrest, Conte named a new prime minister in March 2007.

The Republic of Guinea-Bissau, a former Portuguese overseas province on the west coast of Africa between Senegal and Guinea, has an area of 36,120 sq. km. and a population of 1.5 million. Capital: Bissau. The country has undeveloped deposits of oil and bauxite. Peanuts, oil-palm kernels and hides are exported.

Since independence from Portugal in 1974, Guinea-Bissau has experienced considerable political and military upheaval. In 1980, a military coup established authoritarian dictator Joao Bernardo 'Nino' Vieira as president. Despite setting a path to a market economy and multiparty system, Vieira's regime was characterized by the suppression of political opposition and the purging of political rivals. Several coup attempts through the 1980s and early 1990s failed to unseat him. In 1994 Vieira was elected president in the country's first free elections. A military mutiny and resulting civil war in 1998 eventually led to Vieira's ouster in May 1999. In February 2000, a transitional government turned over power to opposition leader Kumba Yala, after he was elected president in transparent polling. In September 2003, after only three years in office, Yala was ousted by the military in a bloodless coup, and businessman Henrique Rosa was sworn in as interim president. In 2005, former President Vieira was re-elected president pledging to pursue economic development and national reconciliation.

The Cooperative Republic of Guyana, an independent member of the British Commonwealth situated on the northeast coast of South America, has an area of 214,970 sq. km. and a population of 770,800. Capital: Georgetown. The economy is basically agrarian. Sugar, rice and bauxite are exported.

Originally a Dutch colony in the 17th century, by 1815 Guyana had become a British possession. The abolition of slavery led to black settlement of urban areas and the importation of indentured servants from India to work the sugar plantations. This ethnocultural divide has persisted and has led to turbulent politics. Guyana achieved independence from the UK in 1966, and since then it has been ruled mostly by socialist-oriented governments. In 1992, Cheddi Jagan was elected president in what is considered the country's first free and fair election since independence. After his death five years later, his wife, Janet JAGAN, became president but resigned in 1999 due to poor health. Her successor, Bharrat Jagdeo, was reelected in 2001 and again in 2006.

Notes of the British Caribbean Currency Board circulated from 1950-1965.

2016. Orange, brown and multicolor. Map and bank logo with jaguar. "Celebrating 50 Years of Guyana's Independence". Back: Waterlily, map and doves. Signatures Ganga and Jordan. 156x65mm. FV 1.00

The Republic of Haiti, occupying the western one third of the island of Hispañola in the Caribbean Sea between Puerto Rico and Cuba, has an area of 27,750 sq. km. and a population of 8.92 million. Capital: Port-au-Prince. The economy is based on agriculture, light manufacturing and tourism which is becoming increasingly important. Coffee, bauxite, sugar, essential oils and handicrafts are exported.

The native Taino Amerindians - who inhabited the island of Hispañiola when it was discovered by Columbus in 1492 - were virtually annihilated by Spanish settlers within 25 years. In the early 17th century, the French established a presence on Hispaniola, and in 1697, Spain ceded to the French the western third of the island, which later became Haiti. The French colony, based on forestry and sugar-related industries, became one of the wealthiest in the Caribbean, but only through the heavy importation of African slaves and considerable environmental degradation. In the late 18th century, Haiti's nearly half million slaves revolted under Toussaint L'Ouverture. After a prolonged struggle, Haiti became the first black republic to declare its independence in 1804. The poorest country in the Western Hemisphere, Haiti has been plagued by political violence for most of its history. After an armed rebellion led to the forced resignation and exile of President Jean-Bertrand Aristide in February 2004, an interim government took office to organize new elections under the auspices of the United Nations Stabilization Mission in Haiti (Minustah). Continued violence and technical delays prompted repeated postponements, but Haiti finally did inaugurate a democratically elected president and parliament in May of 2006.

The Republic of Honduras, situated in Central America between El Salvador, Nicaragua and Guatemala, has an area of 43,277 sq. mi. (112,088 sq. km.) and a population of 6.48 million. Capital: Tegucigalpa. Tourism, agriculture, mining (gold and silver), and logging are the chief industries. Bananas, timber and coffee are exported.

Once part of Spain's vast empire in the New World, Honduras became an independent nation in 1821. After two and a half decades of mostly military rule, a freely elected civilian government came to power in 1982. During the 1980s, Honduras proved a haven for anti-Sandinista contras fighting the Marxist Nicaraguan Government and an ally to Salvadoran Government forces fighting leftist guerrillas. The country was devastated by Hurricane Mitch in 1998.

MONETARY SYSTEM:
1 Peso = 100 Centavos, 1871-1926
1 Lempira = 100 Centavos, 1926-

REPÚBLICA DE HONDURAS

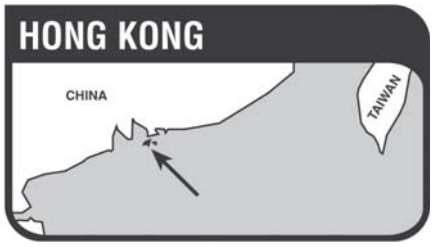
b. 12.6.2014. FV 50.00
c. 28.12.2016. FV 50.00



Hong Kong S.A.R., a former British Colony, is situated at the mouth of the Canton or Pearl River 90 miles (145 km.) southeast of Canton, has an area of 1,092 sq. km. and a population of 7.01 million. Capital: Central (formerly Victoria). The port of Hong Kong had developed as the commercial center of the Far East, a transshipment point for goods destined for China and the countries of the Pacific rim. Light manufacturing and tourism are important components of the economy.

Occupied by the UK in 1841, Hong Kong was formally ceded by China the following year; various adjacent lands were added later in the 19th century. Pursuant to an agreement signed by China and the UK on 19 December 1984, Hong Kong became the Hong Kong Special Administrative Region (SAR) of China on 1 July 1997. In this agreement, China promised that, under its "one country, two systems" formula, China's socialist economic system would not be imposed on Hong Kong and that Hong Kong would enjoy a high degree of autonomy in all matters except foreign and defense affairs for the next 50 years.

RULERS:
British (1842-1997)

MONETARY SYSTEM:
1 Dollar = 100 Cents

NOTE ON VALUATIONS: Most valuations are for issued notes. At times specimen or proof notes are listed with valuations, but these are only cases where a regularly issued example is not known to exist.

BRITISH ADMINISTRATION

Chartered Bank

行銀 打 渣[1]

Cha Ta Yin Hang

Prior to December 1956, it was in business as The Chartered Bank of India, Australia & China. In the 1980s it became the Standard Bank, then later became the Standard Chartered Bank.

The Hungarian Republic, located in central Europe, has an area of 93,030 sq. km. and a population of 9.79 million. Capital: Budapest. The economy is based on agriculture and a rapidly expanding industrial sector. Machinery, chemicals, iron and steel, and fruits and vegetables are exported.

Hungary became a Christian kingdom in A.D. 1000 and for many centuries served as a bulwark against Ottoman Turkish expansion in Europe. The kingdom eventually became part of the polyglot Austro-Hungarian Empire, which collapsed during World War I. The country fell under Communist rule following World War II. In 1956, a revolt and an announced withdrawal from the Warsaw Pact were met with a massive military intervention by Moscow. Under the leadership of Janos Kadar in 1968, Hungary began liberalizing its economy, introducing so-called *Goulash Communism.* Hungary held its first multiparty elections in 1990 and initiated a free market economy. It joined NATO in 1999 and the EU in 2004.

The Republic of Iceland, an island of recent volcanic origin in the North Atlantic east of Greenland and immediately south of the Arctic Circle, has an area of 103,000 sq. km. and a population of 304,367. Capital: Reykjavík. Fishing is the chief industry and accounts for more than 60 percent of the exports.

Settled by Norwegian and Celtic (Scottish and Irish) immigrants during the late 9th and 10th centuries A.D., Iceland boasts the world's oldest functioning legislative assembly, the Althing, established in 930. Independent for over 300 years, Iceland was subsequently ruled by Norway and Denmark. Fallout from the Askja volcano of 1875 devastated the Icelandic economy and caused widespread famine. Over the next quarter century, 20% of the island's population emigrated, mostly to Canada and the US. Limited home rule from Denmark was granted in 1874 and complete independence attained in 1944. Literacy, longevity, income, and social cohesion are first-rate by world standards.

The Republic of India, a subcontinent jutting southward from the mainland of Asia, has an area of 3,287,590 sq. km. and a population of 1,147.9 million, second only to that of the Peoples Republic of China. Capital: New Delhi. India's economy is based on agriculture and industrial activity. Engineering goods, cotton apparel and fabrics, handicrafts, tea, iron and steel are exported.

Aryan tribes from the northwest infiltrated onto the Indian subcontinent about 1500 B.C.; their merger with the earlier Dravidian inhabitants created the classical Indian culture. The Maurya Empire of the 4th and 3rd centuries B.C. - which reached its zenith under Ashoka - united much of South Asia. The Golden Age ushered in by the Gupta dynasty (4th to 6th centuries A.D.) saw a flowering of Indian science, art, and culture. Arab incursions starting in the 8th century and Turkic in the 12th were followed by those of European traders, beginning in the late 15th century. By the 19th century, Britain had assumed political control of virtually all Indian lands. Indian armed forces in the British army played a vital role in both World Wars. Nonviolent resistance to British colonialism led by Mohandas Gandhi and Jawaharlal Nehru brought independence in 1947. The subcontinent was divided into the secular state of India and the smaller Muslim state of Pakistan. A third war between the two countries in 1971 resulted in East Pakistan becoming the separate nation of Bangladesh. India's nuclear weapons testing in 1998 caused Pakistan to conduct its own tests that same year. The dispute between the countries over the state of Kashmir is ongoing, but discussions and confidence-building measures have led to decreased tensions since 2002. Despite impressive gains in economic investment and output, India faces pressing problems such as significant overpopulation, environmental degradation, extensive poverty, and ethnic and religious strife.

RULERS:
British to 1947

Note: Staple holes and condition: Perfect uncirculated notes are rarely encountered without having at least two tiny holes made by staples, stick pins or stitching having been done during age old accounting practices before and after a note is released to circulation. Staples were officially discontinued in 1998.

Formerly #108.

The Republic of Indonesia, the world's largest archipelago, extends for more than 4,827 km. along the equator from the mainland of southeast Asia to Australia. The 13,667 islands comprising the archipelago have a combined area of 1,919,440 sq. km. and a population of 237.5 million, including East Timor. Capital: Jakarta. Petroleum, timber, rubber and coffee are exported.The Dutch began to colonize Indonesia in the early 17th century; the islands were occupied by Japan from 1942 to 1945. Indonesia declared its independence after Japan's surrender, but it required four years of intermittent negotiations, recurring hostilities, and UN mediation before the Netherlands agreed to relinquish its colony. Indonesia is the world's largest archipelagic state and home to the world's largest Muslim population. Current issues include: alleviating poverty, preventing terrorism, consolidating democracy after four decades of authoritarianism, implementing financial sector reforms, stemming corruption, holding the military and police accountable for human rights violations, and controlling avian influenza. In 2005, Indonesia reached a historic peace agreement with armed separatists in Aceh, which led to democratic elections in December 2006. Indonesia continues to face a low intensity separatist movement in Papua.

MONETARY SYSTEM:
1 Rupiah = 100 Sen, 1945-

REPUBLIC

Republik Indonesia

1961 Issue

78 **1 Rupiah** **VF** **UNC**

The Islamic Republic of Iran, located between the Caspian Sea and the Persian Gulf in southwestern Asia, has an area of 1,648,000 sq. km. and a population of 65.87 million. Capital: Tehran. Although predominantly an agricultural state, Iran depends heavily on oil for foreign exchange. Crude oil, carpets and agricultural products are exported.

Known as Persia until 1935, Iran became an Islamic republic in 1979 after the ruling monarchy was overthrown and the shah was forced into exile. Conservative clerical forces established a theocratic system of government with ultimate political authority vested in a learned religious scholar referred to commonly as the Supreme Leader who, according to the constitution, is accountable only to the Assembly of Experts. US-Iranian relations have been strained since a group of Iranian students seized the US Embassy in Tehran on 4 November 1979 and held it until 20 January 1981. During 1980-88, Iran fought a bloody, indecisive war with Iraq that eventually expanded into the Persian Gulf and led to clashes between US Navy and Iranian military forces between 1987 and 1988. Iran has been designated a state sponsor of terrorism for its activities in Lebanon and elsewhere in the world and remains subject to US and UN economic sanctions and export controls because of its continued involvement in terrorism and conventional weapons proliferation. Following the election of reformer Hojjat ol-Eslam Mohammad Khatami as president in 1997 and similarly a reformer Majles (parliament) in 2000, a campaign to foster political reform in response to popular dissatisfaction was initiated. The movement floundered as conservative politicians, through the control of unelected institutions, prevented reform measures from being enacted and increased repressive measures. Starting with nationwide municipal elections in 2003 and continuing through Majles elections in 2004, conservatives reestablished control over Iran's elected government institutions, which culminated with the August 2005 inauguration of hardliner Mahmud Ahmadi-Nejad as president.

ISLAMIC REPUBLIC

Government

Type 1 ND Provisional Issue

#110-116 Type I overprint: Arabesque design over Shah at right. Watermark area at left without overprint. Replacement notes: Refer to #100-107.

REVOLUTIONARY OVERPRINTS

After the Islamic Revolution of 1978-79, the Iranian government used numerous overprints on existing stocks of unissued paper money to obliterate Shah Pahlavi's portrait. There were many unauthorized and illegal crude stampings such as a large "X" and hand obliterations used by zealous citizens which circulated freely, but only three major types types of official overprints were used by the government.

PROVISIONAL ISSUES

All provisional government overprints were placed on existing notes of Shah Pahlavi already printed. Overprinting was an interim action meant to discredit and disgrace the deposed Shah as well as to publicize and give credence to the new Islamic Republic. The overprints themselves gave way to more appropriate seals and emblems, changes of watermarks and finally to a complete redesigning of all denominations of notes. In all cases the Shah's portr. was covered by an arabesque design. Eight different styles and varieties of this ovpt. were used. Watermark ovpt., when used, are either the former Iranian national emblem of Lion and Sun or the calligraphic Persian text of JUMHURI-YE-ISLAMI-YE-IRAN (Islamic Republic of Iran) taken from the obverse of the country's new emblem. All ovpt. colors are very dark and require careful scrutiny to distinguish colors other than black.

The Republic of Iraq, historically known as Mesopotamia, is located in the Near East and is bordered by Kuwait, Iran, Turkey, Syria, Jordan and Saudi Arabia. It has an area of 437,072 sq. km. and a population of 28.22 million. Capital: Baghdad. The economy of Iraq is based on agriculture and petroleum. Crude oil accounts for 94 percent of the exports before the war with Iran began in 1980.

Formerly part of the Ottoman Empire, Iraq was occupied by Britain during the course of World War I; in 1920, it was declared a League of Nations mandate under UK administration. In stages over the next dozen years, Iraq attained its independence as a kingdom in 1932. A "republic" was proclaimed in 1958, but in actuality a series of military strongmen ruled the country until 2003. The last was Saddam Husayn. Territorial disputes with Iran led to an inconclusive and costly eight-year war (1980-88). In August 1990, Iraq seized Kuwait but was expelled by US-led, UN coalition forces during the Gulf War of January-February 1991. Following Kuwait's liberation, the UN Security Council (UNSC) required Iraq to scrap all weapons of mass destruction and long-range missiles and to allow UN verification inspections. Continued Iraqi noncompliance with UNSC resolutions over a period of 12 years led to the US-led invasion of Iraq in March 2003 and the ouster of the Saddam Husayn regime. Coalition forces remain in Iraq under a UNSC mandate, helping to provide security and to support the freely elected government. The Coalition Provisional Authority, which temporarily administered Iraq after the invasion, transferred full governmental authority on 28 June 2004 to the Iraqi Interim Government, which governed under the Transitional Administrative Law for Iraq (TAL). Under the TAL, elections for a 275-member Transitional National Assembly (TNA) were held in Iraq on 30 January 2005. Following these elections, the Iraqi Transitional Government (ITG) assumed office. The TNA was charged with drafting Iraq's permanent constitution, which was approved in a 15 October 2005 constitutional referendum. An election under the constitution for a 275-member Council of Representatives (CoR) was held on 15 December 2005. The CoR approval in the selection of most of the cabinet ministers on 20 May 2006 marked the transition from the ITG to Iraq's first constitutional government in nearly a half-century.

RULERS:
Faisal I, 1921-1933
Ghazi I, 1933-1939
Faisal II, 1939-1958

The Republic of Ireland, occupying five-sixths of the island of Ireland located in the Atlantic Ocean west of Great Britain, has an area of 70,280 sq. km. and a population of 4.16 million. Capital: Dublin.Celtic tribes arrived on the island between 600-150 B.C. Invasions by Norsemen that began in the late 8th century were finally ended when King Brian Boru defeated the Danes in 1014. English invasions began in the 12th century and set off more than seven centuries of Anglo-Irish struggle marked by fierce rebellions and harsh repressions. A failed 1916 Easter Monday Rebellion touched off several years of guerrilla warfare that in 1921 resulted in independence from the UK for 26 southern counties; six northern (Ulster) counties remained part of the UK. In 1949, Ireland withdrew from the British Commonwealth; it joined the European Community in 1973.

Additional information on bank notes of Northern Ireland can be found in *Paper Money of Ireland* by Bob Blake and Jonathan Callaway, published by Pam West.

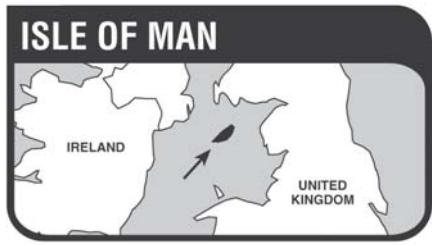
Note: For later issues made for use in the Republic of Ireland, see European Union listings.



The Isle of Man, a dependency of the British Crown located in the Irish Sea equidistant from Ireland, Scotland and England, has an area of 572 sq. km. and a population of 76,220. Capital: Douglas. Agriculture, dairy farming, fishing and tourism are the chief industries.

Part of the Norwegian Kingdom of the Hebrides until the 13th century when it was ceded to Scotland, the isle came under the British crown in 1765. Current concerns include reviving the almost extinct Manx Gaelic language. Isle of Man is a British crown dependency but is not part of the UK. However, the UK Government remains constitutionally responsible for its defense and international representation. The Sovereign of the United Kingdom (currently Queen Elizabeth II) holds the title Lord of Man. The Isle of Man is ruled by its own legislative council and the House of Keys, one of the oldest legislative assemblies in the world. Acts of Parliament passed in London do not affect the island unless it is specifically mentioned. United Kingdom bank notes and coinage circulate concurrently with Isle of Man money as legal tender.

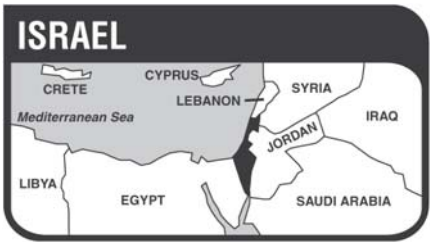
a. Signature 7.	—	50.00
r. As a. Replacement note.	—	150



The State of Israel, at the eastern end of the Mediterranean Sea, bounded by Lebanon on the north, Syria on the northeast, Jordan on the east, and Egypt on the southwest, has an area of 20,770 sq. km. and a population of 8.85 million. Capital: Jerusalem. Diamonds, chemicals, citrus, textiles, and minerals are exported, local tourism to religious sites.

Following World War II, the British withdrew from their mandate of Palestine, and the UN partitioned the area into Arab and Jewish states, an arrangement rejected by the Arabs. Subsequently, the Israelis defeated the Arabs in a series of wars without ending the deep tensions between the two sides. The territories Israel occupied since the 1967 war are not included in the Israel country profile, unless otherwise noted. On 25 April 1982, Israel withdrew from the Sinai pursuant to the 1979 Israel-Egypt Peace Treaty. In keeping with the framework established at the Madrid Conference in October 1991, bilateral negotiations were conducted between Israel and Palestinian representatives and Syria to achieve a permanent settlement. Israel and Palestinian officials signed on 13 September 1993 a Declaration of Principles (also known as the "Oslo Accords") guiding an interim period of Palestinian self-rule.

MONETARY SYSTEM:

1985-86. #56a and 57a with matching serial # issued in special packaging. (2,000). 150

The Italian Republic, a 700-mile-long peninsula extending into the heart of the Mediterranean Sea, has an area of 301,230 sq. km. and a population of 58.14 million. Captal: Rome. The economy centers about agriculture, manufacturing, forestry and fishing. Machinery, textiles, clothing and motor vehicles are exported.

Italy became a nation-state in 1861 when the regional states of the peninsula, along with Sardinia and Sicily, were united under King Victor Emmanuel II. An era of parliamentary government came to a close in the early 1920s when Benito Mussolini established a Fascist dictatorship. His alliance with Nazi Germany led to Italy's defeat in World War II. A democratic republic replaced the monarchy in 1946 and economic revival followed. Italy was a charter member of NATO and the European Economic Community (EEC). It has been at the forefront of European economic and political unification, joining the Economic and Monetary Union in 1999. Persistent problems include illegal immigration, organized crime, corruption, high unemployment, sluggish economic growth, and the low incomes and technical standards of southern Italy compared with the prosperous north.

MONETARY SYSTEM:

1 Lira = 100 Centesimi, to 2001
1 Euro = 100 Cents, 2002-

DECREES:

There are many different dates found on the following notes of the Banca d'Italia. These include ART. DELLA LEGGE (law date) and the more important DECRETO MINISTERIALE (D. M. date). The earliest D.M. date is usually found on the back of the note while later D.M. dates are found grouped together. The actual latest date (of issue) is referred to in the following listings.

FACE SEAL VARIETIES:

Type B
Facing head of Medusa

Type C
Winged lion of St. Mark of Venice above 3 shields of Genoa, Pisa and Amalfi

Note: For later issues made for use in Italy, see European Union listings.

Jamaica, a member of the British Commonwealth situated in the Caribbean Sea 90 miles south of Cuba, has an area of 10,991 sq. km. and a population of 2.8 million. Capital: Kingston. The economy is founded chiefly on mining, tourism and agriculture. Alumina, bauxite, sugar, rum and molasses are exported.

The island - discovered by Christopher Columbus in 1494 - was settled by the Spanish early in the 16th century. The native Taino Indians, who had inhabited Jamaica for centuries, were gradually exterminated and replaced by African slaves. England seized the island in 1655 and established a plantation economy based on sugar, cocoa, and coffee. The abolition of slavery in 1834 freed a quarter million slaves, many of whom became small farmers. Jamaica gradually obtained increasing independence from Britain, and in 1958 it joined other British Caribbean colonies in forming the Federation of the West Indies. Jamaica gained full independence when it withdrew from the Federation in 1962. Deteriorating economic conditions during the 1970s led to recurrent violence as rival gangs affiliated with the major political parties evolved into powerful organized crime networks involved in international drug smuggling and money laundering. Violent crime, drug trafficking, and poverty pose significant challenges to the government today. Nonetheless, many rural and resort areas remain relatively safe and contribute substantially to the economy.

Jamaica is a member of the Commonwealth of Nations. Elizabeth II is the Head of State, as Queen of Jamaica. A decimal standard currency system was adopted on Sept. 8, 1969.

CS3 1978 1-10 Dollars — **Mkt. Value** 30.00

#59a-61a, 62 in double set. One is like #CS1-2 with *SERIES 1978* and the other with additional overprint: *Twenty-fifth Anniversary of the Coronation June 2, 1953* and *SERIES 1978* at right. All with matching red star prefix serial #. (6250 sets issued).

Japan, a constitutional monarchy situated off the east coast of Asia, has an area of 377,835 sq. km. and a population of 127.29 million. Capital: Tokyo. Japan, one of the three major industrial nations of the free world, exports machinery, motor vehicles, textiles and chemicals.

In 1603, a Tokugawa shogunate (military dictatorship) ushered in a long period of isolation from foreign influence in order to secure its power. For more than two centuries this policy enabled Japan to enjoy stability and a flowering of its indigenous culture. Following the Treaty of Kanagawa with the US in 1854, Japan opened its ports and began to intensively modernize and industrialize. During the late 19th and early 20th centuries, Japan became a regional power that was able to defeat the forces of both China and Russia. It occupied Korea, Formosa (Taiwan), and southern Sakhalin Island. In 1931-32 Japan occupied Manchuria, and in 1937 it launched a full-scale invasion of China. Japan attacked US forces in 1941 - triggering America's entry into World War II - and soon occupied much of East and Southeast Asia. After its defeat in World War II, Japan recovered to become an economic power and a staunch ally of the US. While the emperor retains his throne as a symbol of national unity, elected politicians - with heavy input from bureaucrats and business executives - wield actual decisionmaking power. The economy experienced a major slowdown starting in the 1990s following three decades of unprecedented growth, but Japan still remains a major economic power, both in Asia and globally.

The Bailiwick of Jersey, a British Crown dependency located in the English Channel 12 miles (19 km.) west of Normandy, France, has an area of 45 sq. mi. (117 sq. km.) and a population of 90,000. Capital: St. Helier. The economy is based on agriculture and cattle breeding - the importation of cattle is prohibited to protect the purity of the island's world-famous strain of milk cows. Jersey and the other Channel Islands represent the last remnants of the medieval Dukedom of Normandy that held sway in both France and England. These islands were the only British soil occupied by German troops in World War II. Jersey is a British crown dependency but is not part of the UK. However, the UK Government is constitutionally responsible for its defense and international representation.

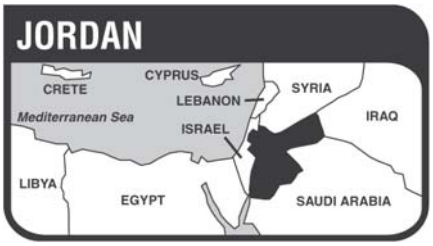
COLLECTOR SERIES

States of Jersey, Treasury

1978 Issue

CS1 **ND (1978) 1-20 Pounds** **Mkt. Value**
#11a-14a with overprint: *SPECIMEN* and Maltese cross prefix serial #. 75.00



The Hashemite Kingdom of Jordan, a constitutional monarchy in southwest Asia, has an area of 37,738 sq. mi. (97,740 sq. km.) and a population of 5.46 million. Capital: Amman. Agriculture and tourism comprise Jordan's economic base. Chief exports are phosphates, tomatoes and oranges.Following World War I and the dissolution of the Ottoman Empire, the UK received a mandate to govern much of the Middle East. Britain separated out a semi-autonomous region of Transjordan from Palestine in the early 1920s, and the area gained its independence in 1946; it adopted the name of Jordan in 1950.

The country's long-time ruler was King Hussen (1953-99). A pragmatic leader, he successfully navigated competing pressures from the major powers (US, USSR, and UK), various Arab states, Israel, and a large internal Palestinian population. Jordan lost the West Bank to Israel in the 1967 war and barely managed to defeat Palestinian rebels who threatened to overthrow the monarchy in 1970. Hussen in 1988 permanently relinquished Jordanian claims to the West Bank. In 1989, he reinstituted parliamentary elections and initiated a gradual political liberalization; political parties were legalized in 1992.

In 1994, he signed a peace treaty with Israel. King Abdullah II, the son of King Hussein, assumed the throne following his father's death in February 1999. Since then, he has consolidated his power and undertaken an aggressive economic reform program. Jordan acceded to the World Trade Organization in 2000, and began to participate in the European Free Trade Association in 2001. In 2003, Jordan staunchly supported the Coalition ouster of Saddam in Iraq and following the outbreak of insurgent violence in Iraq, absorbed hundreds of thousands of displaced Iraqis, most of whom remain in the country.

Municipal elections were held in July 2007 under a system in which 20% of seats in all municipal councils were reserved by quota for women. Parliamentary elections were held in November 2007 and saw independent pro-government candidates win the vast majority of seats. In November 2007, King Abdullah instructed his new prime minister to focus on socioeconomic reform, developing a healthcare and housing network for civilians and military personnel, and improving the educational system.

RULERS:
Hussein I, 1952-1999
Abdullah II, 1999-

MONETARY SYSTEM:
1 Dinar = 10 Dirhams
1 Dirham = 10 Piastres = 10 Qirsh
1 Piastre = 1 Qirsh = 10 Fils

Katanga, the southern province of the former Zaïre extends northeast to Lake Tanganyika, east and south to Zambia, and west to Angola. It was inhabited by Luba and Bantu peoples, and was one of Africa's richest mining areas. In 1960, Katanga, under the leadership of provincial president Moise Tshombe and supported by foreign mining interests, seceded from newly independent Republic of the Congo. A period of political confusion and bloody fighting involving Congolese, Belgian and United Nations forces ensued. At the end of the rebellion in 1962, Katanga was reintegrated into the republic, and is known as the Shaba region. For additional history, see Zaïre.

MONETARY SYSTEM:

s. Specimen. — 500

The Republic of Kazakhstan is bordered to the west by the Caspian Sea and Russia, to the north by Russia, in the east by the Peoples Republic of China and in the south by Uzbekistan and Kyrgyzstan. It has an area of 1,049,155 sq. mi. (2,717,300 sq. km.) and a population of 16.93 million. Capital: Astana. The country is rich in mineral resources including coal, tungsten, copper, lead, zinc and manganese with huge oil and natural gas reserves. Agriculture is important also non-ferrous metallurgy, heavy engineering and chemical industries are leaders in its economy.Native Kazakhs, a mix of Turkic and Mongol nomadic tribes who migrated into the region in the 13th century, were rarely united as a single nation. The area was conquered by Russia in the 18th century, and Kazakhstan became a Soviet Republic in 1936. During the 1950s and 1960s agricultural “Virgin Lands” program, Soviet citizens were encouraged to help cultivate Kazakhstan’s northern pastures. This influx of immigrants (mostly Russians, but also some other deported nationalities) skewed the ethnic mixture and enabled non-Kazakhs to outnumber natives. Independence in 1991 caused many of these newcomers to emigrate. Kazakhstan’s economy is larger than those of all the other Central Asian states combined, largely due to the country’s vast natural resources and a recent history of political stability. Current issues include: developing a cohesive national identity; expanding the development of the country’s vast energy resources and exporting them to world markets; achieving a sustainable economic growth; diversifying the economy outside the oil, gas, and mining sectors; enhancing Kazakhstan’s competitiveness; and strengthening relations with neighboring states and other foreign powers.

The Republic of Kenya, located on the east coast of Central Africa, has an area of 224,961 sq. mi. (582,646 sq. km.) and a population of 30.34 million. Capital: Nairobi. The predominantly agricultural country exports coffee, tea and petroleum products. Founding president and liberation struggle icon Jomo Kenyatta led Kenya from independence in 1963 until his death in 1978, when President Daniel Toroitich arap Moi took power in a constitutional succession. The country was a de facto one-party state from 1969 until 1982 when the ruling Kenya African National Union (KANU) made itself the sole legal party in Kenya. Moi acceded to internal and external pressure for political liberalization in late 1991. The ethnically fractured opposition failed to dislodge KANU from power in elections in 1992 and 1997, which were marred by violence and fraud, but were viewed as having generally reflected the will of the Kenyan people. President Moi stepped down in December 2002 following fair and peaceful elections. Mwai Kibaki, running as the candidate of the multiethnic, united opposition group, the National Rainbow Coalition (NARC), defeated KANU candidate Uhuru Kenyatta and assumed the presidency following a campaign centered on an anticorruption platform. Kibaki's NARC coalition splintered in 2005 over the constitutional review process. Government defectors joined with KANU to form a new opposition coalition, the Orange Democratic Movement, which defeated the government's draft constitution in a popular referendum in November 2005. Kibaki's reelection in December 2007 brought charges of vote rigging from ODM candidate Raila Odinga and unleashed two months of violence in which as many as 1,500 people died. UN-sponsored talks in late February produced a powersharing accord bringing Odinga into the government in the restored position of prime minister. Notes of the East African Currency Board were in use during the first years.

The State of Kuwait, a constitutional monarchy located on the Arabian Peninsula at the northwestern corner of the Persian Gulf, has an area of 6,880 sq. mi. (17,818 sq. km.) and a population of 1.97 million. Capital: Kuwait. Petroleum, the basis of the economy, provides 95 percent of the exports. Britain oversaw foreign relations and defense for the ruling Kuwaiti Al-Sabah dynasty from 1899 until independence in 1961. Kuwait was attacked and overrun by Iraq on 2 August 1990. Following several weeks of aerial bombardment, a US-led, UN coalition began a ground assault on 23 February 1991 that liberated Kuwait in four days. Kuwait spent more than $5 billion to repair oil infrastructure damaged during 1990-1991. The Al-Sabah family has ruled since returning to power in 1991 and reestablished an elected legislature that in recent years has become increasingly assertive.

RULERS:

British to 1961
Abdullah, 1961-1965
Sabah Ibn Salim Al Sabah, 1965-1977
Jabir Ibn Ahmad Al Sabah, 1977-2006
Sabah Al Ahmad Al Sabah, 2006-

26.2.2001. Light blue and lilac. Arms at right. Back: Military man holding flag, town view. Text: *NOT A LEGAL TENDER*, etc., at lower left. Polymer plastic with silver foil window. 17.50

The Republic of Kyrgyzstan, an independent state since Aug. 31, 1991, is a member of the UN and of the C.I.S. It was the last state of the Union Republics to declare its sovereignty. Capital: Bishkek (formerly Frunze). Population of 4.54 million. The area is 77,181 sq. mi. (199,951 sq. km.) A Central Asian country of incredible natural beauty and proud nomadic traditions, most of Kyrgyzstan was formally annexed to Russia in 1876. The Kyrgyz staged a major revolt against the Tsarist Empire in 1916 in which almost one-sixth of the Kyrgyz population was killed. Kyrgyzstan became a Soviet republic in 1936 and achieved independence in 1991 when the USSR dissolved. Nationwide demonstrations in the spring of 2005 resulted in the ouster of President Askar Akaev, who had run the country since 1990. Subsequent presidential elections in July 2005 were won overwhelmingly by former prime minister Kurmanbek BAKIEV. The political opposition organized demonstrations in Bishkek in April, May, and November 2006 resulting in the adoption of a new constitution that transferred some of the president's powers to parliament and the government. In December 2006, the Kyrgyzstani parliament voted to adopt new amendments, restoring some of the presidential powers lost in the November 2006 constitutional change. By late-September 2007, both previous versions of the constitution were declared illegal, and the country reverted to the Akaev-era 2003 constitution, which was subsequently modified in a flawed referendum initiated by Bakiev. The president then dissolved parliament, called for early elections, and gained control of the new parliament through his newly-created political party, Ak Jol, in December 2007 elections. Current concerns include: privatization of state-owned enterprises, negative trends in democracy and political freedoms, reduction of corruption, improving interethnic relations, electricity generation, rising food prices, and combating terrorism.

The Lao People's Democratic Republic is located on the Indo-Chinese Peninsula between the Socialist Republic of Viet Nam and the Kingdom of Thailand, has an area of 91,429 sq. mi. (236,800 sq. km.) and a population of 5.69 million. Captial: Vientiane. Agriculture employs 95 percent of the people. Tin, lumber and coffee are exported.

Modern-day Lao has its roots in the ancient Lao Kingdom of Lan Xang, established in the 14th Century under King Fa Ngum. For 300 years Lan Xang had influence reaching into present-day Cambodia and Thailand, as well as over all of what is now Lao. After centuries of gradual decline, Lao came under the domination of Siam (Thailand) and Viet Nam from the late 18th century until the late 19th century when it became part of French Indochina.

The Kingdom of Laos became fully independent of the French in 1955, and war soon ensued with the communist Pathet Lao. In 1975, the communist Pathet Lao took control of the government ending a six-century-old monarchy and instituting a strict socialist regime closely aligned to Viet Nam. A gradual return to private enterprise and the liberalization of foreign investment laws began in 1986. Lao became a member of ASEAN in 1997.

The Republic of Latvia, the central Baltic state in east Europe, has an area of 24,595 sq. mi. (43,601 sq. km.) and a population of 2.4 million. Capital: Riga. Livestock raising and manufacturing are the chief industries. Butter, bacon, fertilizers and telephone equipment are exported. The name "Latvia" originates from the ancient Latgalians, one of four eastern Baltic tribes that formed the ethnic core of the Latvian people (ca. 8th-12th centuries A.D.). The region subsequently came under the control of Germans, Poles, Swedes, and finally, Russians. A Latvian republic emerged following World War I, but it was annexed by the USSR in 1940 - an action never recognized by the US and many other countries. Latvia reestablished its independence in 1991 following the breakup of the Soviet Union. Although the last Russian troops left in 1994, the status of the Russian minority (some 30% of the population) remains of concern to Moscow. Latvia joined both NATO and the EU in the spring of 2004.

The Republic of Lebanon, situated on the eastern shore of the Mediterranean Sea between Syria and Israel, has an area of 4,015 sq. mi. (10,400 sq. km.) and a population of 3.29 million. Capital: Beirut. The economy is based on agriculture, trade and tourism. Fruit, other foodstuffs and textiles are exported. Following the capture of Syria from the Ottoman Empire by Anglo-French forces in 1918, France received a mandate over this territory and separated out the region of Lebanon in 1920. France granted this area independence in 1943. A lengthy civil war (1975-1990) devastated the country, but Lebanon has since made progress toward rebuilding its political institutions. Under the Ta'if Accord - the blueprint for national reconciliation - the Lebanese established a more equitable political system, particularly by giving Muslims a greater voice in the political process while institutionalizing sectarian divisions in the government. Since the end of the war, Lebanon has conducted several successful elections. Most militias have been disbanded, and the Lebanese Armed Forces (LAF) have extended authority over about two-thirds of the country. Hizballah, a radical Shia organization listed by the US State Department as a Foreign Terrorist Organization, retains its weapons. During Lebanon's civil war, the Arab League legitimized in the Ta'if Accord Syria's troop deployment, numbering about 16,000 based mainly east of Beirut and in the Bekaa Valley. Israel's withdrawal from southern Lebanon in May 2000 and the passage in October 2004 of UNSCR 1559 - a resolution calling for Syria to withdraw from Lebanon and end its interference in Lebanese affairs - encouraged some Lebanese groups to demand that Syria withdraw its forces as well. The assassination of former Prime Minister Rafiq Hariri and 22 others in February 2005 led to massive demonstrations in Beirut against the Syrian presence ("the Cedar Revolution"), and Syria withdrew the remainder of its military forces in April 2005. In May-June 2005, Lebanon held its first legislative elections since the end of the civil war free of foreign interference, handing a majority to the bloc led by Saad HARIRI, the slain prime minister's son. Lebanon continues to be plagued by violence - Hizballah kidnapped two Israeli soldiers in July 2006 leading to a 34-day conflict with Israel. The LAF in May-September 2007 battled Sunni extremist group Fatah al-Islam in the Nahr al-Barid Palestinian refugee camp; and the country has witnessed a string of politically motivated assassinations since the death of Rafiq Hariri. Lebanese politicians in November 2007 were unable to agree on a successor to Emile Lahud when he stepped down as president, creating a political vacuum until the election of Army Commander Michel Sulaymanin May 2008 and the formation of a new unity government in July 2008.

The Kingdom of Lesotho, a constitutional monarchy located within the east-central part of the Republic of South Africa, has an area of 11,716 sq. mi. (30,355 sq. km.) and a population of 2.29 million. Capital: Maseru. The economy is based on subsistence agriculture and livestock raising. Wool, mohair, water through Katse Dam, and cattle are exported. Basutoland was renamed the Kingdom of Lesotho upon independence from the UK in 1966. The Basuto National Party ruled for the first two decades. King Moshoeshoe was exiled in 1990, but returned to Lesotho in 1992 and was reinstated in 1995. Constitutional government was restored in 1993 after seven years of military rule. In 1998, violent protests and a military mutiny following a contentious election prompted a brief but bloody intervention by South African and Botswanan military forces under the aegis of the Southern African Development Community. Subsequent constitutional reforms restored relative political stability. Peaceful parliamentary elections were held in 2002, but the National Assembly elections of February 2007 were hotly contested and aggrieved parties continue to periodically demonstrate their distrust of the results.

The Republic of Liberia, located on the southern side of the west African bulge between Sierra Leone and the Ivory Coast, has an area of 38,250 sq. mi. (111,369 sq. km.) and a population of 3.26 million. Capital: Monrovia. The major industries are agriculture, mining and lumbering. Iron ore, diamonds, rubber, coffee and cocoa are exported. Settlement of freed slaves from the US in what is today Liberia began in 1822; by 1847, the Americo-Liberians were able to establish a republic. William Tubman, president from 1944-1971, did much to promote foreign investment and to bridge the economic, social, and political gaps between the descendents of the original settlers and the inhabitants of the interior. In 1980, a military coup led by Samuel Doe ushered in a decade of authoritarian rule. In December 1989, Charles Taylor launched a rebellion against Doe's regime that led to a prolonged civil war in which Doe himself was killed. A period of relative peace in 1997 allowed for elections that brought Taylor to power, but major fighting resumed in 2000. An August 2003 peace agreement ended the war and prompted the resignation of former president Charles Taylor, who faces war crimes charges in The Hague related to his involvement in Sierra Leone's civil war. After two years of rule by a transitional government, democratic elections in late 2005 brought President Ellen Johnson Sirleaf to power. The UN Mission in Liberia (UNMIL) maintains a strong presence throughout the country, but the security situation is still fragile and the process of rebuilding the social and economic structure of this war-torn country will take many years.

The Socialist People's Libyan Arab Jamahiriya, located on the north central coast of Africa between Tunisia and Egypt, has an area of 679,359 sq. mi. (1,759,540 sq. km.) and a population of 6.39 million. Capital: Tripoli. Crude oil, which accounts for 90 percent of the export earnings, is the mainstay of the economy. The Italians supplanted the Ottoman Turks in the area around Tripoli in 1911 and did not relinquish their hold until 1943 when defeated in World War II. Libya then passed to UN administration and achieved independence in 1951. Following a 1969 military coup, Col. Muammar Abu Minyar al-Qadhafi began to espouse his own political system, the Third Universal Theory. The system is a combination of socialism and Islam derived in part from tribal practices and is supposed to be implemented by the Libyan people themselves in a unique form of "direct democracy." Qadhafi has always seen himself as a revolutionary and visionary leader. He used oil funds during the 1970s and 1980s to promote his ideology outside Libya, supporting subversives and terrorists abroad to hasten the end of Marxism and capitalism. In addition, beginning in 1973, he engaged in military operations in northern Chad's Aozou Strip - to gain access to minerals and to use as a base of influence in Chadian politics - but was forced to retreat in 1987. UN sanctions in 1992 isolated Qadhafi politically following the downing of Pan AM Flight 103 over Lockerbie, Scotland. During the 1990s, Qadhafi began to rebuild his relationships with Europe. UN sanctions were suspended in April 1999 and finally lifted in September 2003 after Libya accepted responsibility for the Lockerbie bombing. In December 2003, Libya announced that it had agreed to reveal and end its programs to develop weapons of mass destruction and to renounce terrorism. Qadhafi has made significant strides in normalizing relations with Western nations since then. He has received various Western European leaders as well as many working-level and commercial delegations, and made his first trip to Western Europe in 15 years when he traveled to Brussels in April 2004. The US rescinded Libya's designation as a state sponsor of terrorism in June 2006. In January 2008, Libya assumed a nonpermanent seat on the United Nations Security Council for the 2008/09 term. In August 2008, the US and Libya signed a bilateral comprehensive claims settlement agreement to compensate claimants in both countries who allege injury or death at the hands of the other country, including the Lockerbie bombing, the LaBelle disco bombing, and the UTA 772 bombing. In October 2008, the US Government received $1.5 billion pursuant to the agreement to distribute to US national claimants, and as a result effectively normalized its bilateral relationship with Libya. The two countries then exchanged ambassadors for the first time since 1973 in January 2009.

ND (2016). Green. Like #80. Lighthouse. Serial numbers horizontal all the same size numbers. Back: Rock arch. Printer: Goznak. 155x77mm. FV 95.00

The Republic of Lithuania southernmost of the Baltic states in east Europe, has an area of 26,173 sq. mi. (65,301 sq. km.) and a population of 3.69 million. Capital: Vilnius. The economy is based on livestock raising and manufacturing. Hogs, cattle, hides and electric motors are exported. Lithuanian lands were united under Mlinfaugas in 1236; over the next century, through alliances and conquest, Lithuania extended its territory to include most of present-day Belarus and Ukraine. By the end of the 14th century Lithuania was the largest state in Europe. An alliance with Poland in 1386 led the two countries into a union through the person of a common ruler. In 1569, Lithuania and Poland formally united into a single dual state, the Polish-Lithuanian Commonwealth. This entity survived until 1795, when its remnants were partitioned by surrounding countries. Lithuania regained its independence following World War I but was annexed by the USSR in 1940 - an action never recognized by the US and many other countries. On 11 March 1990, Lithuania became the first of the Soviet republics to declare its independence, but Moscow did not recognize this proclamation until September of 1991 (following the abortive coup in Moscow). The last Russian troops withdrew in 1993. Lithuania joined the Euro currency area on January 1, 2015. The Litas banknotes were thereby withdrawn from circulation and replaced by Euro notes.

MONETARY SYSTEM:
1 Litas = 100 Centu
1 Euro = 100 cents, 2015 -

The Grand Duchy of Luxembourg is located in western Europe between Belgium, Germany and France. It has an area of 998 sq. mi. (2,586 sq. km.) and a population of 430,000. Capital: Luxembourg. The economy is based on steel - Luxembourg's per capita production of 16 tons is the highest in the world. Founded in 963, Luxembourg became a grand duchy in 1815 and an independent state under the Netherlands. It lost more than half of its territory to Belgium in 1839, but gained a larger measure of autonomy. Full independence was attained in 1867. Overrun by Germany in both World Wars, it ended its neutrality in 1948 when it entered into the Benelux Customs Union and when it joined NATO the following year. In 1957, Luxembourg became one of the six founding countries of the European Economic Community (later the European Union), and in 1999 it joined the euro currency area

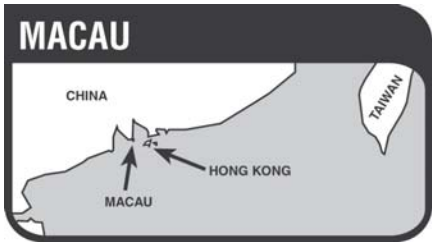
Note: For later issues used in Luxembourg see European Union listings.



The Macau R.A.E.M., a former Portuguese overseas province located in the South China Sea 35 miles (56 km.) southwest of Hong Kong, consists of the peninsula and the islands of Taipa and Coloane. It has an area of 14 sq. mi. (21.45 sq. km.) and a population of 415,850. Capital: Macau. The economy is based on tourism, gambling, commerce and gold trading - Macau is one of the few entirely free markets for gold in the world. Cement, textiles, vegetable oils and metal products are exported. Established by the Portuguese in 1557, Macau is the oldest European settlement in the Far East. Pursuant to an agreement signed by China and Portugal on 13 April 1987, Macau became the Macau R.A.E.M. of the People's Republic of China on 20 December 1999. In this agreement, China promised that, under its *one country, two systems* formula, China's socialist economic system would not be practiced in Macau, and that Macau would enjoy a high degree of autonomy in all matters except foreign and defense affairs for the next 50 years.

The Republic of Macedonia is landlocked, and is bordered in the north by Yugoslavia, to the east by Bulgaria, in the south by Greece and to the west by Albania. It has an area of 9,923 sq. mi. (25,713 sq. km.) and its population at the 1991 census was 2.23 million. of which the predominating ethnic groups were Macedonians. The capital is Skopje. Macedonia gained its independence peacefully from Yugoslavia in 1991, but Greece's objection to the new state's use of what it considered a Hellenic name and symbols delayed international recognition, which occurred under the provisional designation of "the Former Yugoslav Republic of Macedonia." In 1995, Greece lifted a 20-month trade embargo and the two countries agreed to normalize relations. The United States began referring to Macedonia by its constitutional name, Republic of Macedonia, in 2004 and negotiations continue between Greece and Macedonia to resolve the name issue. Some ethnic Albanians, angered by perceived political and economic inequities, launched an insurgency in 2001 that eventually won the support of the majority of Macedonia's Albanian population and led to the internationally-brokered Framework Agreement, which ended the fighting by establishing a set of new laws enhancing the rights of minorities. Fully implementating the Framework Agreement and stimulating economic growth and development continue to be challenges for Macedonia, although progress has been made on both fronts over the past several years.

The Democratic Republic of Madagascar, an independent member of the French Community located in the Indian Ocean 250 miles (402 km.) off the southeast coast of Africa, has an area of 226,658 sq. mi. (587,041 sq. km.) and a population of 17.39 million. Capital: Antananarivo. The economy is primarily agricultural; large bauxite deposits are presently being developed. Coffee, vanilla, graphite and rice are exported. Formerly an independent kingdom, Madagascar became a French colony in 1896 but regained independence in 1960. During 1992-93, free presidential and National Assembly elections were held ending 17 years of single-party rule. In 1997, in the second presidential race, Didier Ratsiraka, the leader during the 1970s and 1980s, was returned to the presidency. The 2001 presidential election was contested between the followers of Didier Ratsiraka and Marc Ravalomanana, nearly causing secession of half of the country. In April 2002, the High Constitutional Court announced Ravalomanana the winner. Ravalomanana is now in his second term following a landslide victory in the generally free and fair presidential elections of 2006.

The Republic of Malawi (formerly Nyasaland), located in southeastern Africa to the west of Lake Malawi (Nyasa), has an area of 45,747 sq. mi. (118,484 sq. km.) and a population of 10.98 million. Capital: Lilongwe. The economy is predominantly agricultural. Tobacco, tea, peanuts and cotton are exported. Established in 1891, the British protectorate of Nyasaland became the independent nation of Malawi in 1964. After three decades of one-party rule under President Hastings Kamuzu Banda the country held multiparty elections in 1994, under a provisional constitution that came into full effect the following year. Current President Bingu wa Mitharika, elected in May 2004 after a failed attempt by the previous president to amend the constitution to permit another term, struggled to assert his authority against his predecessor and subsequently started his own party, the Democratic Progressive Party (DPP) in 2005. As president, Mutharika has overseen substantial economic improvement but because of political deadlock in the legislature, his minority party has been unable to pass significant legislation, and anti-corruption measures have stalled. Population growth, increasing pressure on agricultural lands, corruption, and the spread of HIV/AIDS pose major problems for Malawi.

RULERS:
British to 1964

MONETARY SYSTEM:
1 Pound = 20 Shillings to 1971
1 Kwacha = 100 Tambala 1971-

REPLACEMENT NOTES:
#13-17, ZZ prefix. #18-22, V/1, W/1, X/1, Y/1, Z/1 prefix by denomination.
#23-27, ZZ prefix.

Malaysia, an independent federation of southeast Asia consisting of 11 states of West Malaysia on the Malay Peninsula and two states of East Malaysia on the island of Borneo, has an area of 127,316 sq. mi. (329,747 sq. km.) and a population of 22.3 million. Capital: Kuala Lumpur. The federation came into being on Sept. 16, 1963. Rubber, timber, tin, iron ore and bauxite are exported. During the late 18th and 19th centuries, Great Britain established colonies and protectorates in the area of current Malaysia; these were occupied by Japan from 1942 to 1945. In 1948, the British-ruled territories on the Malay Peninsula formed the Federation of Malaya, which became independent in 1957. Malaysia was formed in 1963 when the former British colonies of Singapore and the East Malaysian states of Sabah and Sarawak on the northern coast of Borneo joined the Federation. The first several years of the country's history were marred by a Communist insurgency, Indonesian confrontation with Malaysia, Philippine claims to Sabah, and Singapore's secession from the Federation in 1965. During the 22-year term of Prime Minister Mahathir bin Mohamad (1981-2003), Malaysia was successful in diversifying its economy from dependence on exports of raw materials to expansion in manufacturing, services, and tourism.

The Republic of Maldives, an archipelago of about 2,000 coral islets in the northern Indian Ocean 417 miles (671 km.) southwest of Ceylon, has an area of 115 sq. mi. (298 sq. km.) and a population of 302,000. Capital: Malé. Fishing employs 95 percent of the work force. Dried fish, copra and coir yarn are exported. The Maldives was long a sultanate, first under Dutch and then under British protection. It became a republic in 1968, three years after independence. President Maumoon Abdul Gayoom dominated the islands' political scene for 30 years, elected to six successive terms by single-party referendums. Following riots in the capital Male in August 2004, the president and his government pledged to embark upon democratic reforms including a more representative political system and expanded political freedoms. Progress was sluggish, however, and many promised reforms were slow to be realized. Nonetheless, political parties were legalized in 2005. In June 2008, a constituent assembly - termed the "Special Majlis" - finalized a new constitution, which was ratified by the president in August. The first-ever presidential elections under a multi-candidate, multi-party system were held in October 2008. Gayoom was defeated in a runoff poll by Mohamed Nasheed, a political activist who had been jailed several years earlier by the former regime. Challenges facing the new president include strengthening democracy and combating poverty and drug abuse.

The Republic of Mali, a landlocked country in the interior of West Africa southwest of Algeria, has an area of 478,764 sq. mi. (1,240,000 sq. km.) and a population of 12.56 million. Capital: Bamako. Livestock, fish, cotton and peanuts are exported. The Sudanese Republic and Senegal became independent of France in 1960 as the Mali Federation. When Senegal withdrew after only a few months, what formerly made up the Sudanese Republic was renamed Mali. Rule by dictatorship was brought to a close in 1991 by a military coup - led by the current president Amadou Toure - enabling Mali's emergence as one of the strongest democracies on the continent. President Alpha Konare won Mali's first democratic presidential election in 1992 and was reelected in 1997. In keeping with Mali's two-term constitutional limit, Konare stepped down in 2002 and was succeeded by Amadou Toure, who was subsequently elected to a second term in 2007. The elections were widely judged to be free and fair Mali seceded from the African Financial Community in 1962, then rejoined in 1984. Issues specially marked with letter *D* for Mali were made by the Banque des Etats de l'Afrique de l'Ouest. See also French West Africa, and West African States.

The Republic of Malta, an independent parliamentary democracy within the British Commonwealth, is situated in the Mediterranean Sea between Sicily and North Africa. With the islands of Gozo and Comino, Malta has an area of 122 sq. mi. (316 sq. km.) and a population of 379,000. Capital: Valletta. With the islands of Gozo (Ghawdex), Comino, Cominetto and Filfla, Malta has no proven mineral resources, an agriculture insufficient to its needs and a small but expanding, manufacturing facility. Clothing, textile yarns and fabrics, and knitted wear are exported.Great Britain formally acquired possession of Malta in 1814. The island staunchly supported the UK through both World Wars and remained in the Commonwealth when it became independent in 1964. A decade later Malta became a republic. Since about the mid-1980s, the island has transformed itself into a freight transshipment point, a financial center, and a tourist destination. Malta became an EU member in May 2004 and began to use the euro as currency in 2008.

#49-51 in individual folders titled: *Special Millennium Issue.* Hologram on watermark area: *1999 Towards a New Millennium 2000.* 25,000 sets issued. 300

The Islamic Republic of Mauritania, located in northwest Africa bounded by Spanish Sahara, Mali, Algeria, Senegal and the Atlantic Ocean, has an area of 397,955 sq. mi. (1,030,700 sq. km.) and a population of 2.58 million. Capital: Nouakchott. The economy centers on herding, agriculture, fishing and mining. Iron ore, copper concentrates and fish products are exported. Independent from France in 1960, Mauritania annexed the southern third of the former Spanish Sahara (now Western Sahara) in 1976, but relinquished it after three years of raids by the Polisario guerrilla front seeking independence for the territory. Maaouya Ould Sid Ahmed Taya seized power in a coup in 1984 and ruled Mauritania with a heavy hand for over two decades. A series of presidential elections that he held were widely seen as flawed. A bloodless coup in August 2005 deposed President TAYA and ushered in a military council that oversaw a transition to democratic rule. Independent candidate Sidi Ould Cheikh Abadallahi was inaugurated in April 2007 as Mauritania's first freely and fairly elected president. His term ended prematurely in August 2008 when a military junta deposed him and ushered in a military council government. Meanwhile, the country continues to experience ethnic tensions among its black population (Afro-Mauritanians) and White and Black Moor (Arab-Berber) communities. On June 28, 1973, in a move designed to emphasize its non-alignment with France, Mauritania converted its currency from the old French-supported CFA franc unit to a new unit called the Ouguiya.

MONETARY SYSTEM:
1 Ouguiya = 5 Khoum
100 Ouguiya = 500 CFA Francs, 1973-2017
1 new Ouguiya = 10 old Ouguiyas 2017-

Note: Issues specially marked with letter *E* for Mauritania were issued by the Banque Centrale des Etats de l'Afrique de l'Ouest. These issues were used before Mauritania seceded from the French Community of the West African States in 1973. For those listings see West African States.

The island of Mauritius, a member of the British Commonwealth located in the Indian Ocean 500 miles (805 km.) east of Madagascar, has an area of 790 sq. mi. (2,045 sq. km.) and a population of 1.18 million. Capital: Port Louis. Sugar provides 90 percent of the export revenue.Although known to Arab and Malay sailors as early as the 10th century, Mauritius was first explored by the Portuguese in the 16th century and subsequently settled by the Dutch - who named it in honor of Prince Maurits van Nassau - in the 17th century. The French assumed control in 1715, developing the island into an important naval base overseeing Indian Ocean trade, and establishing a plantation economy of sugar cane. The British captured the island in 1810, during the Napoleonic Wars. Mauritius remained a strategically important British naval base, and later an air station, playing an important role during World War II for anti-submarine and convoy operations, as well as the collection of signals intelligence. Independence from the UK was attained in 1968. A stable democracy with regular free elections and a positive human rights record, the country has attracted considerable foreign investment and has earned one of Africa's highest per capita incomes. Recent poor weather, declining sugar prices, and declining textile and apparel production, have slowed economic growth, leading to some protests over standards of living in the Creole community.

Bank of Mauritius

1978 ND Issue

CS1 **ND (1978) 5-50 Rupees** **Mkt. Value**
#30c, 31c, 32b, 33c with overprint: *SPECIMEN* and Maltese cross prefix serial #. 80.00

The United States of Mexico, located immediately south of the United States, has an area of 1,222,612 sq. mi. (1,967,183 sq. km.) and a population of 98.88 million. Capital: Mexico City. The economy is based on agriculture, manufacturing and mining. Cotton, sugar, coffee and shrimp are exported.

Mexico was the site of highly advanced Indian civilizations 1,500 years before conquistador Hernando Cortes conquered the wealthy Aztec empire of Montezuma, 1519-1521, and founded a Spanish colony which lasted for nearly 300 years. During the Spanish period, Mexico, then called New Spain, stretched from Guatemala to the present states of Wyoming and California, its present northern boundary having been established by the secession of Texas (1836) and the war of 1846-1848 with the United States.

Independence from Spain was declared by Father Miguel Hidalgo on Sept. 16, 1810, Mexican Independence Day, and was achieved by General Agustin de Iturbide in 1821. Iturbide became emperor in 1822 but was deposed when a republic was established a year later. For more than half a century following the birth of the republic, the political scene of Mexico was characterized by turmoil which saw two emperors (including the unfortunate Maximilian), several dictators and an average of one new government every nine months passing swiftly from obscurity to oblivion. The land, social, economic and labor reforms promulgated by the Reform Constitution of Feb. 5, 1917 established the basis for a sustained economic development and participative democracy that have made Mexico one of the most politically stable countries of modern Latin America.

The area of Moldova is bordered in the north, east, and south by the Ukraine and on the west by Romania. The historical Romanian principality of Moldova was established in the 14th century. It fell under Turkish suzerainty in the 16th century. From 1812 to 1918, Russians occupied the eastern portion of Moldova which they named Bessarabia. In March 1918, the Bessarabian legislature voted in favor of reunification with Romania. Part of Romania during the interwar period, Moldova was incorporated into the Soviet Union at the close of World War II. Although independent from the USSR since 1991, Russian forces have remained on Moldovan territory east of the Dniester River supporting the Slavic majority population, mostly Ukrainians and Russians, who have proclaimed a "Transnistria" republic. One of the poorest nations in Europe, Moldova became the first former Soviet state to elect a Communist as its president in 2001.

The State of Mongolia, a landlocked country in central Asia between Russia and the Peoples Republic of China, has an area of 604,247 sq. mi. (1,565,000 sq. km.) and a population of 2.74 million. Capital: Ulan Bator. Animal herds and flocks are the chief economic asset. Wool, cattle, butter, meat and hides are exported. The Mongols gained fame in the 13th century when under Chinggis Khan they established a huge Eurasian empire through conquest. After his death the empire was divided into several powerful Mongol states, but these broke apart in the 14th century. The Mongols eventually retired to their original steppe homelands and in the late 17th century came under Chinese rule. Mongolia won its independence in 1921 with Soviet backing and a Communist regime was installed in 1924. The modern country of Mongolia, however, represents only part of the Mongols' historical homeland; more Mongols live in the Inner Mongolia Autonomous Region in the People's Republic of China than in Mongolia. Following a peaceful democratic revolution, the ex-Communist Mongolian People's Revolutionary Party (MPRP) won elections in 1990 and 1992, but was defeated by the Democratic Union Coalition (DUC) in the 1996 parliamentary election. The MPRP won an overwhelming majority in the 2000 parliamentary election, but the party lost seats in the 2004 election and shared power with democratic coalition parties from 2004-2008. The MPRP regained a solid majority in the 2008 parliamentary elections; the prime minister and a majority of cabinet members are currently MPRP members.

The Kingdom of Morocco, situated on the northwest corner of Africa south of Spain, has an area of 172,413 sq. mi. (712,550 sq. km.) and a population of 28.98 million. Capital: Rabat. The economy is essentially agricultural. Phosphates, fresh and preserved vegetables, canned fish and raw material are exported.In 788, about a century after the Arab conquest of North Africa, successive Moorish dynasties began to rule in Morocco. In the 16th century, the Sa'adi monarchy, particularly under Ahmad Al-Mansur (1578-1603), repelled foreign invaders and inaugurated a golden age. In 1860, Spain occupied northern Morocco and ushered in a half century of trade rivalry among European powers that saw Morocco's sovereignty steadily erode; in 1912, the French imposed a protectorate over the country. A protracted independence struggle with France ended successfully in 1956. The internationalized city of Tangier and most Spanish possessions were turned over to the new country that same year. Morocco virtually annexed Western Sahara during the late 1970s, but final resolution on the status of the territory remains unresolved. Gradual political reforms in the 1990s resulted in the establishment of a bicameral legislature, which first met in 1997. The country has made improvements in human rights under King Mohammed VI and its press is moderately free. Despite the continuing reforms, ultimate authority remains in the hands of the monarch.

RULERS:

Muhammad V, AH1346-1380/1927-1961AD
Hassan II, AH1380-1420 /1961-1999AD
Muhammad VI, AH1420- /1999- AD

MONETARY SYSTEM:

1 Franc = 100 Centimes
1 Dirham = 100 Francs, 1921-1974
1 Dirham = 100 Centimes = 100 Santimat, 1974-
1 Riffan = 1 French Gold Franc = 10 British Pence

The People's Republic of Mozambique, a former overseas province of Portugal stretching for 1,430 miles (2,301 km.) along the southeast coast of Africa, has an area of 309,494 sq. mi. (783,030 sq. km.) and a population of 19.56 million. Capital: Maputo. Agriculture is the chief industry. Cashew nuts, cotton, sugar, copra and tea are exported. Almost five centuries as a Portuguese colony came to a close with independence in 1975. Large-scale emigration by whites, economic dependence on South Africa, a severe drought, and a prolonged civil war hindered the country's development until the mid 1990's. The ruling Front for the Liberation of Mozambique (FRELIMO) party formally abandoned Marxism in 1989, and a new constitution the following year provided for multiparty elections and a free market economy. A UN-negotiated peace agreement between FRELIMO and rebel Mozambique National Resistance (RENAMO) forces ended the fighting in 1992. In December 2004, Mozambique underwent a delicate transition as Joaquim Chissano stepped down after 18 years in office. His elected successor, Armando Emilio Guebuza, promised to continue the sound economic policies that have encouraged foreign investment. Mozambique has seen very strong economic growth since the end of the civil war largely due to post-conflict reconstruction.

RULERS:

The Socialist Republic of the Union of Myanmar (formally called Burma), a country of Southeast Asia fronting on the Bay of Bengal and the Andaman Sea, has an area of 261,789 sq. mi. (676,552 sq. km.) and a population of 49.34 million. Capital: Rangoon. Myanmar is an agricultural country heavily dependent on its leading product (rice) which embodies two-thirds of the cultivated area and accounts for 40 percent of the value of exports. Petroleum, lead, tin, silver, zinc, nickel, cobalt and precious stones are exported. Britain conquered Burma over a period of 62 years (1824-1886) and incorporated it into its Indian Empire. Burma was administered as a province of India until 1937 when it became a separate, self-governing colony; independence from the Commonwealth was attained in 1948. Gen. Ne Win dominated the government from 1962 to 1988, first as military ruler, then as self-appointed president, and later as political kingpin. In September 1988, the military deposed Ne Win and established a new ruling junta. Despite multiparty legislative elections in 1990 that resulted in the main opposition party - the National League for Democracy (NLD) - winning a landslide victory, the junta refused to hand over power. NLD leader and Nobel Peace Prize recipient Aung San Suu Kyi, who was under house arrest from 1989 to 1995 and 2000 to 2002, was imprisoned in May 2003 and subsequently transferred to house arrest. After the ruling junta in August 2007 unexpectedly increased fuel prices, tens of thousands of Burmese marched in protest, led by prodemocracy activists and Buddhist monks. In late September 2007, the government brutally suppressed the protests, killing at least 13 people and arresting thousands for participating in the demonstrations. Since then, the regime has continued to raid homes and monasteries and arrest persons suspected of participating in the pro-democracy protests. The junta appointed Labor Minister Aung Kyi in October 2007 as liaison to Aung San Suu Kyi, who remains under house arrest and virtually incommunicado with her party and supporters.Burma in early May 2008 was struck by Cyclone Nargis which official estimates claimed left over 80,000 dead and 50,000 injured. Despite this tragedy, the junta proceeded with its May constitutional referendum, the first vote in Burma since 1990, setting the stage for the 2010 parliamentary elections. The country name in English was changed to Union of Myanmar in 1989.

The Republic of Namibia, once the German colonial territory of German South West Africa, is situated on the Atlantic coast of southern Africa, bounded on the north by Angola, on the east by Botswana, and on the south by South Africa. It has an area of 318,261 sq. mi. (824,290 sq. km.) and a population of 1.73 million. Capital: Windhoek. Diamonds, copper, lead, zinc and cattle are exported.South Africa occupied the German colony of South-West Africa during World War I and administered it as a mandate until after World War II, when it annexed the territory. In 1966 the Marxist South-West Africa People's Organization (SWAPO) guerrilla group launched a war of independence for the area that became Namibia, but it was not until 1988 that South Africa agreed to end its administration in accordance with a UN peace plan for the entire region. Namibia has been governed by SWAPO since the country won independence in 1990. Hifikepunye Pohamba was elected president in November 2004 in a landslide victory replacing Sam Nujoma who led the country during its first 14 years of self rule.

The Kingdom of Nepal, the world's only Hindu kingdom, is a landlocked country located in central Asia along the southern slopes of the Himalayan Mountains. It has an area of 56,136 sq. mi. (140,797 sq. km.) and a population of 24.35 million. Capital: Káthmandu. Nepal has substantial deposits of coal, copper, iron and cobalt but they are largely unexploited. Agriculture is the principal economic activity. Livestock, rice, timber and jute are exported.In 1951, the Nepalese monarch ended the century-old system of rule by hereditary premiers and instituted a cabinet system of government. Reforms in 1990 established a multiparty democracy within the framework of a constitutional monarchy. An insurgency led by Maoist extremists broke out in 1996. The ensuing nine-year civil war between insurgents and government forces witnessed the dissolution of the cabinet and parliament and assumption of absolute power by the king. Several weeks of mass protests in April 2006 were followed by several months of peace negotiations between the Maoists and government officials, and culminated in a November 2006 peace accord and the promulgation of an interim constitution. The newly formed interim parliament declared Nepal a democratic federal republic at its first meeting in May 2008, the king vacated the throne in mid-June 2008, and parliament elected the country's first president the following month.

RULERS:

Mahendra Vira Vikrama Shahi Deva, 1955-1972
Birendra Bir Bikram Shahi Deva, 1972-2001
Ginendra, 2001-

The Kingdom of the Netherlands, a country of western Europe fronting on the North Sea and bordered by Belgium and Germany, has an area of 15,770 sq. mi. (40,844 sq. km.) and a population of 15.87 million. Capital: Amsterdam, but the seat of government is at The Hague. The economy is based on dairy farming and a variety of industrial activities. Chemicals, yarns and fabrics, and meat products are exported. The Dutch United Provinces declared their independence from Spain in 1579; during the 17th century, they became a leading seafaring and commercial power, with settlements and colonies around the world. After a 20-year French occupation, a Kingdom of the Netherlands was formed in 1815. In 1830 Belgium seceded and formed a separate kingdom. The Netherlands remained neutral in World War I, but suffered invasion and occupation by Germany in World War II. A modern, industrialized nation, the Netherlands is also a large exporter of agricultural products. The country was a founding member of NATO and the EEC (now the EU), and participated in the introduction of the euro in 1999.

Note: For later issues used in the Netherlands see European Union listings.

The Netherlands Antilles, part of the Netherlands realm, comprise two groups of islands in the West Indies: Bonaire and Curaço near the Venezuelan coast; St. Eustatius, Saba, and the southern part of St. Maarten (St. Martin) southeast of Puerto Rico. The island group has an area of 385 sq. mi. (961 sq. km.) and a population of 210,000. Capital: Willemstad. Chief industries are the refining of crude oil, and tourism. Petroleum products and phosphates are exported. Once the center of the Caribbean slave trade, the island of Curaçao was hard hit by the abolition of slavery in 1863. Its prosperity (and that of neighboring Aruba) was restored in the early 20th century with the construction of oil refineries to service the newly discovered Venezuelan oil fields. The island of St. Martin is shared with France; its southern portion is named Saint Maarten and is part of the Netherlands Antilles; its northern portion, called Saint Martin, is an overseas collectivity of France.On Dec. 15, 1954, the Netherlands Antilles were given complete domestic autonomy and granted equality within the Kingdom with Surinam and the Netherlands. The island of Aruba gained independence in 1986. In October 2010 Curaçao and Saint Marten became autonomous entities of the Netherlands with the guilder being a valid currency until 31.12.2011. The islands of Bonaire, Saba and St. Eustatius became direct dependencies of the Netherlands and will use the US dollar starting 1.1.2011.

The Netherlands Antilles, part of the Netherlands realm, comprise two groups of islands in the West Indies: Bonaire and Curacao near the Venezuelan coast; St. Eustatius, Saba, and the southern part of St. Martin (St. Maarten) southeast of Puerto Rico. The island group has an area of 385 sq. mi. (961 sq. km.) and a population of 210,000. Capital: Willemstad. Chief industries are the refining of crude oil, and tourism. Petroleum products and phosphates are exported. On Dec. 15, 1954, the Netherlands Antilles were given complete domestic autonomy and granted equality within the Kingdom with Surinam and the Netherlands. The French Overseas Territory of New Caledonia, a group of about 25 islands in the South Pacific, is situated about 750 miles (1,207 km.) east of Australia. The territory, which includes the dependencies of Ile des Pins, Loyalty Islands, Ile Huon, Isles Belep, Isles Chesterfield, and Ile Walpole, has a total land area of 6,530 sq. mi. (19,058 sq. km.) and a population of 152,000. Capital: Noumea. The islands are rich in minerals; New Caledonia has the world's largest known deposit of nickel. Nickel, nickel castings, coffee and copra are exported.Settled by both Britain and France during the first half of the 19th century, the island was made a French possession in 1853. It served as a penal colony for four decades after 1864. Agitation for independence during the 1980s and early 1990s ended in the 1998 Noumea Accord, which over a period of 15 to 20 years will transfer an increasing amount of governing responsibility from France to New Caledonia. The agreement also commits France to conduct as many as three referenda between 2013 and 2018, to decide whether New Caledonia should assume full sovereignty and independence.

New Hebrides Condominium, a group of islands located in the South Pacific 500 miles (800 km.) west of Fiji, were under the joint sovereignty of Great Britain and France. The islands have an area of 5,700 sq. mi. (14,763 sq. km.) and a population of mainly Melanesians of mixed blood. Capital: Port-Vila. The volcanic and coral islands, while malarial and subject to frequent earthquakes, are extremely fertile, and produce copra, coffee, tropical fruits and timber for export. The New Hebrides were discovered by Portuguese navigator Pedro de Quiros in 1606, visited by French explorer Bougainville in 1768, and named by British navigator Capt. James Cook in 1774. Ships of all nations converged on the islands to trade for sandalwood, prompting France and Britain to relinquish their individual claims and declare the islands a neutral zone in 1878. The New Hebrides were placed under the control of a mixed Anglo-French commission of naval officers during the native uprisings of 1887, and established as a condominium under the joint sovereignty of France and Great Britain in 1906.

New Zealand, a parliamentary state located in the southwestern Pacific 1,250 miles (2,011 km.) east of Australia, has an area of 103,736 sq. mi. (269,056 sq. km.) and a population of 4.3 million. Capital: Wellington. Wool, meat, dairy products and some manufactured items are exported. The Polynesian Maori reached New Zealand in about A.D. 800. In 1840, their chieftains entered into a compact with Britain, the Treaty of Waitangi, in which they ceded sovereignty to Queen Victoria while retaining territorial rights. In that same year, the British began the first organized colonial settlement. A series of land wars between 1843 and 1872 ended with the defeat of the native peoples. The British colony of New Zealand became an independent dominion in 1907 and supported the UK militarily in both World Wars. New Zealand's full participation in a number of defense alliances lapsed by the 1980s. In recent years, the government has sought to address longstanding Maori grievances.

The Republic of Nicaragua, situated in Central America between Honduras and Costa Rica, has an area of 50,193 sq. mi (130,000 sq. km.) and a population of 4.69 million. Capital: Managua. Agriculture, mining (gold and silver) and hardwood logging are the principal industries. Cotton, meat, coffee, tobacco and sugar are exported.The Pacific coast of Nicaragua was settled as a Spanish colony from Panama in the early 16th century. Independence from Spain was declared in 1821 and the country became an independent republic in 1838. Britain occupied the Caribbean Coast in the first half of the 19th century, but gradually ceded control of the region in subsequent decades. Violent opposition to governmental manipulation and corruption spread to all classes by 1978 and resulted in a short-lived civil war that brought the Marxist Sandinista guerrillas to power in 1979. Nicaraguan aid to leftist rebels in El Salvador caused the US to sponsor anti-Sandinista contra guerrillas through much of the 1980s. Free elections in 1990, 1996, and 2001, saw the Sandinistas defeated, but voting in 2006 announced the return of former Sandinista President Daniel Ortega Saavedra. Nicaragua's infrastructure and economy - hard hit by the earlier civil war and by Hurricane Mitch in 1998 - are slowly being rebuilt.

MONETARY SYSTEM:

1 Córdoba = 100 Centavos, 1912-1987
1 New Córdoba = 1000 Old Córdobas, 1988-90
1 Córdoba Oro = 100 Centavos, 1990-

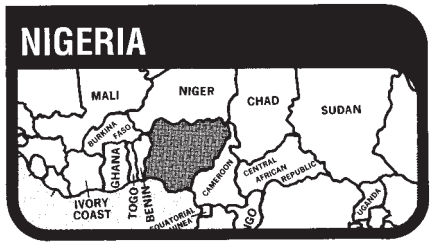
s. Specimen. Red overprint: *SPECIMEN* on both sides. — 200



The Federal Republic of Nigeria, situated on the Atlantic coast of Africa between Benin and Cameroon, has an area of 356,667 sq. mi. (923,768 sq. km.) and a population of 128.79 million. Capital: Abuja. The economy is based on petroleum and agriculture. Crude oil, cocoa, tobacco and tin are exported. British influence and control over what would become Nigeria and Africa's most populous country grew through the 19th century. A series of constitutions after World War II granted Nigeria greater autonomy; independence came in 1960. Following nearly 16 years of military rule, a new constitution was adopted in 1999, and a peaceful transition to civilian government was completed. The government continues to face the daunting task of reforming a petroleum-based economy, whose revenues have been squandered through corruption and mismanagement, and institutionalizing democracy. In addition, Nigeria continues to experience longstanding ethnic and religious tensions. Although both the 2003 and 2007 presidential elections were marred by significant irregularities and violence, Nigeria is currently experiencing its longest period of civilian rule since independence. The general elections of April 2007 marked the first civilian-to-civilian transfer of power in the country's history.

RULERS:
British to 1963

2014. Chief Obafemi Awolowo. Back: Chief Obafemi Awolowo, traditional dancers, cowrie shells. Watermark: Chief Obafemi Awolowo and electrotype. 100th anniversary of united nation. 151x78mm. FV 10.00

The Democratic Peoples Republic of Korea, situated in northeastern Asia on the northern half of the Korean peninsula between the Peoples Republic of China and the Republic of Korea, has an area of 46,540 sq. mi. (120,538 sq. km.) and an estimated population approaching 25 million. Capital: Pyongyang. The economy is based heavily on industry. Coal briquettes are proportionally one of the largest exports followed by iron ore and concentrates. Japan replaced China as the predominant foreign influence in Korea in 1895 and annexed the peninsular country in 1910. Defeat in World War II brought an end to Japanese rule. U.S. troops entered Korea from the south and Soviet forces entered from the north. The Cairo conference (1943) had established that Korea should be "free and independent." The Potsdam conference (1945) set the 38th parallel as the line dividing the occupation forces of the United States and Russia. When Russia refused to permit a U.N. commission designated to supervise reunification elections to enter North Korea, an election was held in South Korea which established the Republic of Korea on Aug. 15, 1948. North Korea held an unsupervised election on Aug. 25, 1948, and on the following day proclaimed the establishment of the Democratic Peoples Republic of Korea.

From 1800 to 1921 Ireland was an integral part of the United Kingdom. The Anglo-Irish treaty of 1921 established the Irish Free State of 26 counties within the Commonwealth of Nations and recognized the partition of Ireland. The six predominantly Protestant counties of northeast Ulster chose to remain a part of the United Kingdom with a limited self-government. Up to 1928 banknotes issued by six of the nine joint stock commercial banks were circulating in the whole of Ireland. After the establishment of the Irish Free State, the commercial notes were issued for circulation only in Northern Ireland, with the Consolidated Banknotes being issued by the eight commercial banks operating in the Irish Free State.

Additional information on bank notes of Northern Ireland can be found in *Paper Money of Ireland* by Bob Blake and Jonathan Callaway, published by Pam West.

RULERS:
British

MONETARY SYSTEM:
1 Shilling = 12 Pence
1 Pound = 20 Shillings to 1971
1 Pound = 100 New Pence, 1971-

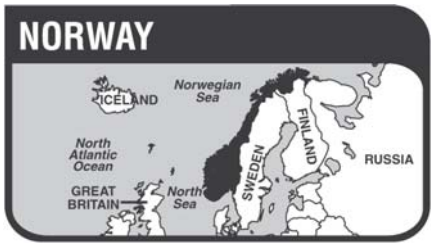
	#62b-64b overprint: *SPECIMEN.*	300



The Kingdom of Norway, a constitutional monarchy located in northwestern Europe, has an area of 150,000 sq. mi. (388,500 sq. km.) including the island territories of Spitzbergen (Svalbard) and Jan Mayen, and a population of 4.46 million. Capital: Oslo. The diversified economic base of Norway includes shipping, fishing, forestry, agriculture and manufacturing. Nonferrous metals, paper and paperboard, paper pulp, iron, steel and oil are exported. Two centuries of Viking raids into Europe tapered off following the adoption of Christianity by King Olav Tryggvason in 994. Conversion of the Norwegian kingdom occurred over the next several decades. In 1397, Norway was absorbed into a union with Denmark that lasted more than four centuries. In 1814, Norwegians resisted the cession of their country to Sweden and adopted a new constitution. Sweden then invaded Norway but agreed to let Norway keep its constitution in return for accepting the union under a Swedish king. Rising nationalism throughout the 19th century led to a 1905 referendum granting Norway independence. Although Norway remained neutral in World War I, it suffered heavy losses to its shipping. Norway proclaimed its neutrality at the outset of World War II, but was nonetheless occupied for five years by Nazi Germany (1940-45). In 1949, neutrality was abandoned and Norway became a member of NATO. Discovery of oil and gas in adjacent waters in the late 1960s boosted Norway's economic fortunes. The current focus is on containing spending on the extensive welfare system and planning for the time when petroleum reserves are depleted. In referenda held in 1972 and 1994, Norway rejected joining the EU.

Listings for Nouméa, see New Caledonia.

The Sultanate of Oman (formerly Muscat and Oman), an independent monarchy located in the southeastern part of the Arabian Peninsula, has an area of 82,030 sq. mi. (212,457 sq. km.) and a population of 2.72 million. Capital: Muscat. The economy is based on agriculture, herding and petroleum. Petroleum products, dates, fish and hides are exported. The inhabitants of the area of Oman have long prospered on Indian Ocean trade. In the late 18th century, a newly established sultanate in Muscat signed the first in a series of friendship treaties with Britain. Over time, Oman's dependence on British political and military advisors increased, but it never became a British colony. In 1970, Qaboos bin Said al-Said overthrew the restrictive rule of his father; he has ruled as sultan ever since. His extensive modernization program has opened the country to the outside world while preserving the longstanding close ties with the UK. Oman's moderate, independent foreign policy has sought to maintain good relations with all Middle Eastern countries.

RULERS:
Sa'id bin Taimur, AH1351-1390/1932-1970 AD
Qaboos bin Sa'id, AH1390-1419/1970-present

MONETARY SYSTEM:

a. Incorrect date on front (AH1427). FV 75.00
b. Corrected date on front (AH1437). FV 50.00

The Islamic Republic of Pakistan, located on the Indian subcontinent between India and Afghanistan, has an area of 310,404 sq. mi. (803,943 sq. m.) and a population of 170 million. Capital: Islamabad. Pakistan is mainly an agricultural land. Yarn, cotton, rice and leather are exported. The Indus Valley civilization, one of the oldest in the world and dating back at least 5,000 years, spread over much of what is presently Pakistan. During the second millennium B.C., remnants of this culture fused with the migrating Indo-Aryan peoples. The area underwent successive invasions in subsequent centuries from the Persians, Greeks, Scythians, Arabs (who brought Islam), Afghans, and Turks. The Mughal Empire flourished in the 16th and 17th centuries; the British came to dominate the region in the 18th century. The separation in 1947 of British India into the Muslim state of Pakistan (with West and East sections) and largely Hindu India was never satisfactorily resolved, and India and Pakistan fought two wars - in 1947-48 and 1965 - over the disputed Kashmir territory. A third war between these countries in 1971 - in which India capitalized on Islamabad's marginalization of Bengalis in Pakistani politics - resulted in East Pakistan becoming the separate nation of Bangladesh. In response to Indian nuclear weapons testing, Pakistan conducted its own tests in 1998. The dispute over the state of Kashmir is ongoing, but discussions and confidence-building measures have led to decreased tensions since 2002. Mounting public dissatisfaction with President Musharraf, coupled with the assassination of the prominent and popular political leader, Benazir Bhutto, in late 2007, and Musharraf's resignation in August 2008, led to the September presidential election of Asif Zardari, Bhutto's widower. Pakistani government and military leaders are struggling to control Islamist militants, many of whom are located in the tribal areas adjacent to the border with Afghanistan. The November 2008 Mumbai attacks again inflamed Indo-Pakistan relations. The Pakistani Government is also faced with a deteriorating economy as foreign exchange reserves decline, the currency depreciates, and the current account deficit widens.

MONETARY SYSTEM:
1 Rupee = 16 Annas to 1961
1 Rupee = 100 Paisa (Pice), 1961-

REPLACEMENT NOTES:
#24, 24A, 24B, 1/X or 2/X prefix. #25-33, X as first of double prefix letters.

Papua New Guinea, an independent member of the British Commonwealth, occupies the eastern half of the island of New Guinea. It lies north of Australia near the equator and borders on West Irian. The country, which includes nearby Bismarck Archipelago, Buka and Bougainville, has an area of 462,820 sq. km. and a population of 5.93 million. Capital: Port Moresby. The economy is agricultural, and exports include copra, rubber, cocoa, coffee, tea, gold and copper.The eastern half of the island of New Guinea - second largest in the world - was divided between Germany (north) and the UK (south) in 1885. The latter area was transferred to Australia in 1902, which occupied the northern portion during World War I and continued to administer the combined areas until independence in 1975. A nine-year secessionist revolt on the island of Bougainville ended in 1997 after claiming some 20,000 lives.

The Republic of Paraguay, a landlocked country in the heart of South America surrounded by Argentina, Bolivia and Brazil, has an area of 157,042 sq. mi. (406,752 sq. km.) and a population of 5.5 million, 95 percent of whom are of mixed Spanish and Indian descent. Capital: Asunción. The country is predominantly agrarian, with no important mineral deposits or oil reserves. Meat, timber, oilseeds, tobacco and cotton account for 70 percent of Paraguay's export revenue.In the disastrous War of the Triple Alliance (1865-70) - between Paraguay and Argentina, Brazil, and Uruguay - Paraguay lost two-thirds of all adult males and much of its territory. It stagnated economically for the next half century. In the Chaco War of 1932-35, Paraguay won large, economically important areas from Bolivia. The 35-year military dictatorship of Alfredo Stroessner ended in 1989, and, despite a marked increase in political infighting in recent years, Paraguay has held relatively free and regular presidential elections since then.

MONETARY SYSTEM:
1 Peso = 100 Centavos to 1870
1 Peso = 8 Reales to 1872
1 Peso = 100 Centésimos to 1870
1 Peso = 100 Centavos (Centésimos) to 1944

COLLECTOR SERIES

Banco Central del Paraguay

1979 Issue

CS1 **100-10,000 Guaraníes** **Mkt. Value**
L.1972 (1979). 199b-202b, 204b overprint: *SPECIMEN* and with serial # prefix Maltese cross. 25.00

The Republic of Perú, located on the Pacific coast of South America, has an area of 496,222 sq. mi. (1,285,216 sq. km.) and a population of 25.66 million. Capital: Lima. The diversified economy includes mining, fishing and agriculture. Fish meal, copper, sugar, zinc and iron ore are exported. Ancient Peru was the seat of several prominent Andean civilizations, most notably that of the Incas whose empire was captured by the Spanish conquistadors in 1533. Peruvian independence was declared in 1821, and remaining Spanish forces defeated in 1824. After a dozen years of military rule, Peru returned to democratic leadership in 1980, but experienced economic problems and the growth of a violent insurgency. President Alberto Fujimori's election in 1990 ushered in a decade that saw a dramatic turnaround in the economy and significant progress in curtailing guerrilla activity. Nevertheless, the president's increasing reliance on authoritarian measures and an economic slump in the late 1990s generated mounting dissatisfaction with his regime, which led to his ouster in 2000. A caretaker government oversaw new elections in the spring of 2001, which ushered in Alejandro Toledo Manrique as the new head of government - Peru's first democratically elected president of Native American ethnicity. The presidential election of 2006 saw the return of Alan Garcia Perez who, after a disappointing presidential term from 1985 to 1990, returned to the presidency with promises to improve social conditions and maintain fiscal responsibility

MONETARY SYSTEM:

1 Sol = 1 Sol de Oro = 100 Centavos, 1879-1985

1985-1991 Issues

During the period from around 1984 and extending beyond 1990, Perú suffered from a hyperinflation that saw the Sol depreciate in value dramatically and drastically. A sudden need for new Inti banknotes caused the government to approach a number of different security printers in order to satisfy the demand for new notes. #128-150 involve 7 different printers: BdM, BDDK, CdM-B, FNMT, G&D, IPS-Roma and TDLR. Listings proceed by denomination and in chronological order. Replacement notes:

BdM - Serial # prefix *Y; Z.*
BDDK - Serial # prefix *Y.*
FNMT - Serial # prefix *Y.*
IPS-Roma - Serial # prefix *Y; Z.*
TDLR - Serial # prefix *Y; Z.*

The Republic of the Philippines, an archipelago in the western Pacific 500 miles (805 km.) from the southeast coast of Asia, has an area of 115,830 sq. mi. (300,000 sq. km.) and a population of 75.04 million. Capital: Manila. The economy of the 7,000-island group is based on agriculture, forestry and fishing. Timber, coconut products, sugar and hemp are exported.

The Philippine Islands became a Spanish colony during the 16th century; they were ceded to the US in 1898 following the Spanish-American War. In 1935 the Philippines became a self-governing commonwealth. Manuel Quezon was elected president and was tasked with preparing the country for independence after a 10-year transition. In 1942 the islands fell under Japanese occupation during World War II, and US forces and Filipinos fought together during 1944-45 to regain control. On 4 July 1946 the Republic of the Philippines attained its independence. The 20-year rule of Ferdinand Marcos ended in 1986, when a "people power" movement in Manila ("EDSA 1") forced him into exile and installed Corazon Aquino as president. Her presidency was hampered by several coup attempts, which prevented a return to full political stability and economic development. Fidel Ramos was elected president in 1992 and his administration was marked by greater stability and progress on economic reforms. In 1992, the US closed its last military bases on the islands. Joseph Estrada was elected president in 1998, but was succeeded by his vice-president, Gloria Macapagal-Arroyo, in January 2001 after Estrada's stormy impeachment trial on corruption charges broke down and another "people power" movement ("EDSA 2") demanded his resignation. Macapagal-Arroyo was elected to a six-year term as president in May 2004. The Philippine Government faces threats from three terrorist groups on the US Government's Foreign Terrorist Organization list, but in 2006 and 2007 scored some major successes in capturing or killing key wanted terrorists. Decades of Muslim insurgency in the southern Philippines have led to a peace accord with one group and on-again/off-again peace talks with another.

The Republic of Poland, formerly the Polish Peoples Republic, located in central Europe, has an area of 120,725 sq. mi. (312,677 sq. km.) and a population of 38.73 million. Capital: Warsaw. The economy is essentially agricultural, but industrial activity provides the products for foreign trade. Machinery, coal, coke, iron, steel and transport equipment are exported. Poland is an ancient nation that was conceived near the middle of the 10th century. Its golden age occurred in the 16th century. During the following century, the strengthening of the gentry and internal disorders weakened the nation. In a series of agreements between 1772 and 1795, Russia, Prussia, and Austria partitioned Poland amongst themselves. Poland regained its independence in 1918 only to be overrun by Germany and the Soviet Union in World War II. It became a Soviet satellite state following the war, but its government was comparatively tolerant and progressive. Labor turmoil in 1980 led to the formation of the independent trade union "Solidarity" that over time became a political force and by 1990 had swept parliamentary elections and the presidency. A "shock therapy" program during the early 1990s enabled the country to transform its economy into one of the most robust in Central Europe, but Poland still faces the lingering challenges of high unemployment, underdeveloped and dilapidated infrastructure, and a poor rural underclass. Solidarity suffered a major defeat in the 2001 parliamentary elections when it failed to elect a single deputy to the lower house of Parliament, and the new leaders of the Solidarity Trade Union subsequently pledged to reduce the Trade Union's political role. Poland joined NATO in 1999 and the European Union in 2004. With its transformation to a democratic, market-oriented country largely completed, Poland is an increasingly active member of Euro-Atlantic organizations.

Note: Originally #CS8 was sold in a special booklet by Pekao Trading Company at its New York City, NY, and Warsaw offices.

The Portuguese Republic, located in the western part of the Iberian Peninsula in southwestern Europe, has an area of 35,553 sq. mi. (91,905 sq. km.) and a population of 9.79 million. Capital: Lisbon. Portugal's economy is based on agriculture and a small but expanding industrial sector. Textiles, machinery, chemicals, wine and cork are exported. Following its heyday as a global maritime power during the 15th and 16th centuries, Portugal lost much of its wealth and status with the destruction of Lisbon in a 1755 earthquake, occupation during the Napoleonic Wars, and the independence of its wealthiest colony of Brazil in 1822. A 1910 revolution deposed the monarchy; for most of the next six decades, repressive governments ran the country. In 1974, a left-wing military coup installed broad democratic reforms. The following year, Portugal granted independence to all of its African colonies. Portugal is a founding member of NATO and entered the EC (now the EU) in 1986.

Note: For later issues used in Portugal see European Union listings.

Portuguese Guinea (now Guinea-Bissau), a former Portuguese province off the west coast of Africa bounded on the north by Senegal and on the east and southeast by Guinea, had an area of 13,948 sq. mi. (36,125 sq. km.). Capital: Bissau. The province exported peanuts, timber and beeswax. Portuguese Guinea was discovered by Portuguese navigator Nuno Tristao in 1446. Trading rights in the area were granted to Cape Verde islanders but few prominent posts were established before 1851, and they were principally coastal installations. The chief export of this colony's early period was slaves for South America, a practice that adversely affected trade with the native people and retarded subjection of the interior. Territorial disputes with France delayed final demarcation of the colony's frontiers until 1905. The African Party for the Independence of Guinea-Bissau was founded in 1956, and several years later began a guerrilla warfare that grew in effectiveness until 1974, when the rebels controlled most of the colony. Portugal's costly overseas wars in her African territories resulted in a military coup in Portugal in April 1974, that appreciably brightened the prospects for freedom for Guinea-Bissau. In August, 1974, the Lisbon government signed an agreement granting independence to Portuguese Guinea effective Sept. 10, 1974. The new republic took the name of Guinea-Bissau.

The State of Qatar, an emirate in the Persian Gulf between Bahrain and the United Arab Emirates, has an an area 4,247 sq. mi. (11,437 sq. km.) and a population of 700,000. Capital: Doha. Ruled by the al-Thani family since the mid-1800s, Qatar transformed itself from a poor British protectorate noted mainly for pearling into an independent state with significant oil and natural gas revenues. During the late 1980s and early 1990s, the Qatari economy was crippled by a continuous siphoning off of petroleum revenues by the Amir, who had ruled the country since 1972. His son, the current Amir Hamad bin Khalifa al-Thani, overthrew him in a bloodless coup in 1995. In 2001, Qatar resolved its longstanding border disputes with both Bahrain and Saudi Arabia. As of 2007, oil and natural gas revenues had enabled Qatar to attain the highest per capita income in the world. Also see Qatar and Dubai.

The State of Qatar, which occupies the Qatar Peninsula jutting into the Persian Gulf from eastern Saudi Arabia, has an area of 4,247 sq. mi. (11,000 sq. km.) and a population of 382,000. Capital: Doha. The traditional occupations of pearling, fishing and herding have been replaced in economics by petroleum-related industries. Crude oil, petroleum products, and tomatoes are exported. Dubai is one of the seven sheikhdoms comprising the United Arab Emirates (formerly Trucial States) located along the southern shore of the Persian Gulf. It has a population of about 60,000. Qatar, which initiated protective treaty relations with Great Britain in 1820, achieved independence on Sept. 3, 1971, upon withdrawal of the British military presence from the Persian Gulf, and replaced its special treaty arrangement with Britain with a treaty of general friendship. Dubai attended independence on Dec. 1, 1971, upon termination of Britain's protective treaty with the trucial sheikhdoms, and on Dec. 2, 1971, entered into the union of the United Arab Emirates. Despite the fact that the sultanate of Qatar and the sheikhdom of Dubai were merged under a monetary union, the two territories were governed independently from each other. Qatar now uses its own currency while Dubai uses the United Arab Emirates currency and coins.

The Department of Reunion, an overseas department of France located in the Indian Ocean 400 miles (640 km.) east of Madagascar, has an area of 969 sq. mi. (2,510 sq. km.) and a population of 556,000. Capital: Saint-Denis. The island's volcanic soil is extremely fertile. Sugar, vanilla, coffee and rum are exported. Although first visited by Portuguese navigators in the 16th century, Reunion was uninhabited when claimed for France by Capt. Goubert in 1638. It was first colonized as Isle de Burbon by the French in 1662 as a layover station for ships rounding the Cape of Good Hope to India. It was renamed Reunion in 1793. The island remained in French possession except for the period of 1810-15, when it was occupied by the British. Reunion became an overseas department of France in 1946, and in 1958 voted to continue that status within the new French Union. Baque du France notes were introduced 1.1.1973.

The "Republic of" Rhodesia (never recognized by the British government and was referred to as Southern Rhodesia, now Zimbabwe) located in the east-central part of southern Africa, has an area of 150,804 sq. mi. (390,580 sq. km.) and a population of 9.9 million. Capital: Harare. The economy is based on agriculture and mining. Tobacco, sugar, asbestos, copper and chrome ore and coal are exported. The Rhodesian area, the habitat of paleolithic man, contains extensive evidence of earlier civilizations, notably the world-famous ruins of Zimbabwe, a gold-trading center that flourished about the 14th or 15th century AD. The Portuguese of the 16th century were the first Europeans to attempt to develop south-central Africa, but it remained for Cecil Rhodes and the British South Africa Co. to open the hinterlands. Rhodes obtained a concession for mineral rights from local chiefs in 1888 and administered his African empire (named Southern Rhodesia in 1895) through the British South Africa Co. until 1923, when the British government annexed the area after the white settlers voted for existence as a separate entity, rather than for incorporation into the Union of South Africa. From Sept. of 1953 through 1963 Southern Rhodesia was joined with the British protectorates of Northern Rhodesia and Nyasaland into a multiracial federation. When the federation was dissolved at the end of 1963, Northern Rhodesia and Nyasaland became the independent states of Zambia and Malawi. Britain was prepared to grant independence to Southern Rhodesia but declined to do so when the politically dominant white Rhodesians refused to give assurances of representative government. In November 1965, the white minority government of Southern Rhodesia unilaterally declared Southern Rhodesia an independent dominion. The United Nations and the British Parliament both proclaimed this unilateral declaration of independence null and void. Following a conference in London in December 1979, the opposition government conceded and it was agreed that the British government should resume control. In 1970, the government proclaimed a republic, but this too received no recognition. In 1979, the government purported to change the name of the Colony to Zimbabwe Rhodesia, but again this was never recognized. A British governor soon returned to Southern Rhodesia. One of his first acts was to affirm the nullification of the purported declaration of independence. On April 18, 1980, pursuant to an act of the British Parliament, the colony of Southern Rhodesia became independent within the commonwealth as the Republic of Zimbabwe.

Rhodesia and Nyasaland (now the Republics of Malawi, Zambia and Zimbabwe) was located in the east-central part of southern Africa, had an area of 487,133 sq. mi. (1,261,678 sq. km.). Capital: Salisbury. The area was the habitat of paleolithic man, contains extensive evidence of earlier civilizations, notably the world-famous ruins of Zimbabwe, a gold-trading center that flourished about the 14th or 15th century AD. The Portuguese of the 16th century were the first Europeans to attempt to develop south-central Africa, but it remained for Cecil Rhodes and the British South Africa Co. to open the hinterlands. Rhodes obtained a concession for mineral rights from local chiefs in 1888 and administered his African empire (named Southern Rhodesia in 1895) through the British South Africa Co. until 1923, when the British government annexed the area after the white settlers voted for existence as a separate entity, rather than for incorporation into the Union of South Africa. From Sept. of 1953 through 1963 Southern Rhodesia was joined with the British protectorates of Northern Rhodesia and Nyasaland into a multiracial federation. When the federation was dissolved at the end of 1963, Northern Rhodesia and Nyasaland became the independent states of Zambia and Malawi.

Britain was prepared to grant independence to Southern Rhodesia but declined to do so when the politically dominant white Rhodesians refused to give assurances of representative government. On May 11, 1965, following two years of unsuccessful negotiation with the British government, Prime Minister Ian Smith issued a unilateral declaration of independence. Britain responded with economic sanctions supported by the United Nations. After further futile attempts to effect an accommodation, the Rhodesian Parliament severed all ties with Britain, and on March 2, 1970, established the Republic of Rhodesia.

On March 3, 1978, Prime Minister Ian Smith and three moderate black nationalist leaders signed an agreement providing for black majority rule. The name of the country was changed to Zimbabwe Rhodesia.

After the election of March 3, 1980, the country again changed its name to the Republic of Zimbabwe. The Federation of Rhodesia and Nyasaland (or the Central African Federation), comprising the British protectorates of Northern Rhodesia and Nyasaland and the self-governing colony of Southern Rhodesia, was located in the east-central part of southern Africa. The multiracial federation had an area of about 487,000 sq. mi. (1,261,330 sq. km.) and a population of 6.8 million. Capital: Salisbury, in Southern Rhodesia. The geographical unity of the three British possessions suggested the desirability of political and economic union as early as 1924. Despite objections by the African constituency of Northern Rhodesia and Nyasaland, who feared the dominant influence of prosperous and self governing Southern Rhodesia, the Central African Federation was established in Sept. of 1953. As feared, the Federation was effectively and profitably dominated by the European constituency of Southern Rhodesia despite the fact that the three component countries retained their basic pre-federation political structure. It was dissolved at the end of 1963, largely because of the effective opposition of the Nyasaland African Congress. Northern Rhodesia and Nyasaland became independent states of Zambia and Malawi in 1964. Southern Rhodesia unilaterally declared its independence as Rhodesia the following year; this act was not recognized by the British Government.

Note: For earlier issues refer to Southern Rhodesia in Volume 2. For later issues refer to Malawi, Zambia, Rhodesia and Zimbabwe in Volume 3.

Romania, located in southeast Europe, has an area of 91,699 sq. mi. (237,500 sq. km.) and a population of 22.5 million. Capital: Bucharest. Machinery, foodstuffs, raw minerals and petroleum products are exported. The principalities of Wallachia and Moldavia - for centuries under the suzerainty of the Turkish Ottoman Empire - secured their autonomy in 1856; they united in 1859 and a few years later adopted the new name of Romania. The country gained recognition of its independence in 1878. It joined the Allied Powers in World War I and acquired new territories - most notably Transylvania - following the conflict. In 1940, Romania allied with the Axis powers and participated in the 1941 German invasion of the USSR. Three years later, overrun by the Soviets, Romania signed an armistice. The post-war Soviet occupation led to the formation of a Communist "people's republic" in 1947 and the abdication of the king. The decades-long rule of dictator Nicolae Ceausescu, who took power in 1965, and his Securitate police state became increasingly oppressive and draconian through the 1980s. Ceausescu was overthrown and executed in late 1989. Former Communists dominated the government until 1996 when they were swept from power. Romania joined NATO in 2004 and the EU in 2007.

2018 Commemorative Issue

100th anniversary of the Great Union 1.12.1918.

124 100 Lei **VF UNC**

1.12.2018. Blue. Great National Assembly in Alba Iulia at center, King Ferdinand I and Queen Maria at right. Back: Arrival of the Royal cortege, 1 December 1918, partial mace of King Ferdinand I, four women in traditional provincial garb. Polymer. 147x89mm. FV 55.00

According to the bank, 10,000 notes were issued.

Russia, (formerly the central power of the Union of Soviet Socialist Republics and now of the Commonwealth of Independent States) occupying the northern part of Asia and the far eastern part of Europe, has an area of 17,075,200 sq. km. and a population of 140.7 million. Capital: Moscow. Exports include machinery, iron and steel, oil, timber and nonferrous metals.Founded in the 12th century, the Principality of Muscovy, was able to emerge from over 200 years of Mongol domination (13th-15th centuries) and to gradually conquer and absorb surrounding principalities. In the early 17th century, a new Romanov Dynasty continued this policy of expansion across Siberia to the Pacific. Under Peter I (ruled 1682-1725), hegemony was extended to the Baltic Sea and the country was renamed the Russian Empire. During the 19th century, more territorial acquisitions were made in Europe and Asia. Defeat in the Russo-Japanese War of 1904-05 contributed to the Revolution of 1905, which resulted in the formation of a parliament and other reforms. Repeated devastating defeats of the Russian army in World War I led to widespread rioting in the major cities of the Russian Empire and to the overthrow in 1917 of the imperial household. The Communists under Vladimir Lenin seized power soon after and formed the USSR. The brutal rule of Iosif STALIN (1928-53) strengthened Communist rule and Russian dominance of the Soviet Union at a cost of tens of millions of lives. The Soviet economy and society stagnated in the following decades until General Secretary Mikhail Gorbachev (1985-91) introduced glasnost (openness) and perestroika (restructuring) in an attempt to modernize Communism, but his initiatives inadvertently released forces that by December 1991 splintered the USSR into Russia and 14 other independent republics. Since then, Russia has shifted its post-Soviet democratic ambitions in favor of a centralized semi-authoritarian state whose legitimacy is buttressed, in part, by carefully managed national elections, former President Putin's genuine popularity, and the prudent management of Russia's windfall energy wealth. Russia has severely disabled a Chechen rebel movement, although violence still occurs throughout the North Caucasus.

The Republic of Rwanda, located in central Africa between the Republic of the Congo and Tanzania, has an area of 26,338 sq. km. and a population of 10.186 million. Capital: Kigali. The economy is based on agriculture and mining. Coffee and tin are exported.In 1959, three years before independence from Belgium, the majority ethnic group, the Hutus, overthrew the ruling Tutsi king. Over the next several years, thousands of Tutsis were killed, and some 150,000 driven into exile in neighboring countries. The children of these exiles later formed a rebel group, the Rwandan Patriotic Front (RPF), and began a civil war in 1990. The war, along with several political and economic upheavals, exacerbated ethnic tensions, culminating in April 1994 in the genocide of roughly 800,000 Tutsis and moderate Hutus. The Tutsi rebels defeated the Hutu regime and ended the killing in July 1994, but approximately 2 million Hutu refugees - many fearing Tutsi retribution - fled to neighboring Burundi, Tanzania, Uganda, and Zaire. Since then, most of the refugees have returned to Rwanda, but several thousand remained in the neighboring Democratic Republic of the Congo (DRC; the former Zaire) and formed an extremist insurgency bent on retaking Rwanda, much as the RPF tried in 1990. Despite substantial international assistance and political reforms - including Rwanda's first local elections in March 1999 and its first post-genocide presidential and legislative elections in August and September 2003 - the country continues to struggle to boost investment and agricultural output, and ethnic reconciliation is complicated by the real and perceived Tutsi political dominance. Kigali's increasing centralization and intolerance of dissent, the nagging Hutu extremist insurgency across the border, and Rwandan involvement in two wars in recent years in the neighboring DRC continue to hinder Rwanda's efforts to escape its bloody legacy. Also see Belgian Congo, Rwanda-Burundi.

Rwanda-Burundi, a Belgian League of Nations mandate and United Nations trust territory comprising the provinces of Rwanda and Burundi of the former colony of German East Africa, was located in central Africa between the present Republic of the Congo, Uganda and mainland Tanzania. The mandate-trust territory had an area of 20,916 sq. mi. (54,272 sq. km.). For specific statistics and history of Rwanda and Burundi see individual entries. When Rwanda and Burundi were formed into a mandate for administration by Belgium, their names were changed to Ruanda and Urundi and they were organized as an integral part of the Belgian Congo, during which time they used a common banknote issue with the Belgian Congo. After the Belgian Congo acquired independence as the Republic of the Congo, the provinces of Ruanda and Urundi reverted to their former names of Rwanda and Burundi and issued notes with both names on them. In 1962, both Rwanda and Burundi became separate independent states. Also see Belgian Congo, Burundi and Rwanda.

The British Overseas Territory of St. Helena, is located about 1,150 miles (1,850 km.) from the west coast of Africa, has an area of 413 sq. km. and a population of 7,600. Capital: Jamestown. Flax, lace and rope are produced for export. Ascension and Tristan da Cunha are dependencies of St. Helena. Saint Helena was uninhabited when first discovered by the Portuguese in 1502, it was garrisoned by the British during the 17th century. It acquired fame as the place of Napoleon Bonaparte's exile, from 1815 until his death in 1821, but its importance as a port of call declined after the opening of the Suez Canal in 1869. During the Anglo-Boer War in South Africa, several thousand Boer prisoners were confined on the island between 1900 and 1903. St. Helena banknotes are also used on the islands of Assencion and Tristan de Cunia.

The Territorial Collectivity of St. Pierre and Miquelon, a French overseas territory located 10 miles (16 km.) off the south coast of Newfoundland, has an area of 242 sq. km. and a population of 7,045. Capital: St. Pierre. The economy of the barren archipelago is based on cod fishing and fur farming Fish and fish products, and mink and silver fox pelts are exported. The islands, occupied by the French in 1604, were captured by the British in 1702 and held until 1763 when they were returned to the possession of France and employed as a fishing station. They passed between France and England on six more occasions between 1778 and 1814 when they were awarded permanently to France by the Treaty of Paris. The rugged, soil-poor granite islands, which will support only evergreen shrubs, are all that remain to France of her extensive colonies in North America. In 1958 St. Pierre and Miquelon voted in favor of the new constitution of the Fifth Republic of France, thereby choosing to remain within the French Community. Notes of the Banque de France circulated 1937-1942; afterwards notes of the Caisse Centrale de la France Libre and the Caisse Centrale de la France d'Outre-Mer were in use.

The Democratic Republic of Sao Tomé and Príncipe (formerly the Portuguese overseas province of St. Thomas and Prince Islands) is located in the Gulf of Guinea 150 miles (241 km.) off the West African coast. It has an area of 372 sq. mi. (960 sq. km.) and a population of 149,000. Capital: São Tomé. The economy of the islands is based on cocoa, copra and coffee. Discovered and claimed by Portugal in the late 15th century, the islands' sugar-based economy gave way to coffee and cocoa in the 19th century - all grown with plantation slave labor, a form of which lingered into the 20th century. While independence was achieved in 1975, democratic reforms were not instituted until the late 1980s. The country held its first free elections in 1991, but frequent internal wrangling between the various political parties precipitated repeated changes in leadership and two failed coup attempts in 1995 and 2003. The recent discovery of oil in the Gulf of Guinea promises to attract increased attention to the small island nation.

The Independent State of Western Samoa (formerly German Samoa), located in the Pacific Ocean 1,600 miles (2,574 km.) northeast of New Zealand, has an area of 1,097 sq. mi. (2,860 sq. km.) and a population of 157,000. Capital: Apia. The economy is based on agriculture, fishing and tourism. Copra, cocoa and bananas are exported. The Samoan group of islands was discovered by Dutch navigator Jacob Roggeveen in 1772. Great Britain, the United States and Germany established consular representation at Apia in 1847, 1853 and 1861 respectively. The conflicting interests of the three powers produced the Berlin agreement of 1889 which declared Samoa neutral and had the effect of establishing a tripartite protectorate over the islands. A further agreement, 1899, recognized the rights of the United States in those islands east of 171 deg. west longitude (American Samoa) and of Germany in the other islands (Western Samoa). New Zealand occupied Western Samoa at the start of World War I and administered it as a League of Nations mandate and U.N. trusteeship until Jan. 1, 1962, when it became an independent state. Western Samoa is a member of the Commonwealth of Nations. The Chief Executive is Chief of State. The prime minister is the Head of Government. The present Head of State, Malietoa Tanumafili II, holds his position for life. Future Heads of State will be elected by the Legislature Assembly for five-year terms.

b. Signature: Tuioti - Ainuu Enari. FV 65.00

The Kingdom of Saudi Arabia, an independent and absolute hereditary monarchy comprising the former sultanate of Nejd, the old kingdom of Hejaz, Asir and el Hasa, occupies four-fifths of the Arabian peninsula. The kingdom has an area of 2,149,690 sq. km. and a population of 28.15 million. Capital: Riyadh. The economy is based on oil, which provides 85 percent of Saudi Arabia's revenue. Saudi Arabia is the birthplace of Islam and home to Islam's two holiest shrines in Mecca and Medina. The king's official title is the Custodian of the Two Holy Mosques. The modern Saudi state was founded in 1932 by Abd al-Aziz bin Abd al-Rahman al Saud (Ibn Saud) after a 30-year campaign to unify most of the Arabian Peninsula. A male descendent of Ibn Saud, his son Abdallah bin Abd al-Aziz, rules the country today as required by the country's 1992 Basic Law. Following Iraq's invasion of Kuwait in 1990, Saudi Arabia accepted the Kuwaiti royal family and 400,000 refugees while allowing Western and Arab troops to deploy on its soil for the liberation of Kuwait the following year. The continuing presence of foreign troops on Saudi soil after the liberation of Kuwait became a source of tension between the royal family and the public until all operational US troops left the country in 2003. Major terrorist attacks in May and November 2003 spurred a strong on-going campaign against domestic terrorism and extremism. King Abdallah has continued the cautious reform program begun when he was crown prince. To promote increased political participation, the government held elections nationwide from February through April 2005 for half the members of 179 municipal councils. In December 2005, King Abdallah completed the process by appointing the remaining members of the advisory municipal councils. The country remains a leading producer of oil and natural gas and holds more than 20% of the world's proven oil reserves. The government continues to pursue economic reform and diversification, particularly since Saudi Arabia's accession to the WTO in December 2005, and promotes foreign investment in the kingdom. A burgeoning population, aquifer depletion, and an economy largely dependent on petroleum output and prices are all ongoing governmental concerns.

KINGDOM

Saudi Arabian Monetary Agency

SIGNATURE VARIETIES

These notes were initially introduced as a convenience to foreign Moslems making the pilgrimage to Mecca. They were given in exchange for equivalent local currencies at Saudi Arabian agencies and embassies located abroad. By 1957 the receipts had gained wide acceptance within the country and had replaced silver riyals in major financial transactions. Accordingly, a Royal Decree dated 1/7/1379 authorized the Monetary Agency to issue its own paper currency for general circulation throughout the Kingdom. The Pilgrim Receipts were called in during October 1963 and finally demonetized on March 20, 1964.

Scotland, a part of the United Kingdom of Great Britain and Northern Ireland, consists of the northern part of the island of Great Britain. It has an area of 30,414 sq. mi. (78,772 sq. km.). Capital: Edinburgh. Principal industries are agriculture, fishing, manufacturing and ship-building. In the 5th century, Scotland consisted of four kingdoms; that of the Picts, the Scots, Strathclyde, and Northumbria. The Scottish kingdom was united by Malcolm II (1005-34), but its ruler was forced to pay homage to the English crown in 1174. Scotland won independence under Robert Bruce at Bannockburn in 1314 and was ruled by the house of Stuart from 1371 to 1688. The personal union of the kingdoms of England and Scotland was achieved in 1603 by the accession of King James VI of Scotland as James I of England. Scotland was united with England by Parliamentary act in 1707.

Serbia, a former inland Balkan kingdom (now a federated republic with Montenegro) has an area of 34,116 sq. mi. (88,361 sq. km.) Capital: Belgrade. The Kingdom of Serbs, Croats, and Slovenes was formed in 1918; its name was changed to Yugoslavia in 1929. Various paramilitary bands resisted Nazi Germany's occupation and division of Yugoslavia from 1941 to 1945, but fought each other and ethnic opponents as much as the invaders. The military and political movement headed by Josip Tito (Partisans) took full control of Yugoslavia when German and Croatian separatist forces were defeated in 1945. Although Communist, Tito's government and his successors (he died in 1980) managed to steer their own path between the Warsaw Pact nations and the West for the next four and a half decades.

In 1989, Slobodan Milosevic became president of the Serbian Republic and his ultranationalist calls for Serbian domination led to the violent breakup of Yugoslavia along ethnic lines. In 1991, Croatia, Slovenia, and Macedonia declared independence, followed by Bosnia in 1992.

The remaining republics of Serbia and Montenegro declared a new Federal Republic of Yugoslavia in April 1992 and under Milosevic's leadership, Serbia led various military campaigns to unite ethnic Serbs in neighboring republics into a "Greater Serbia." These actions led to Yugoslavia being ousted from the UN in 1992, but Serbia continued its - ultimately unsuccessful - campaign until signing the Dayton Peace Accords in 1995. Milosevic kept tight control over Serbia and eventually became president of the FRY in 1997. In 1998, an ethnic Albanian insurgency in the formerly autonomous Serbian province of Kosovo provoked a Serbian counterinsurgency campaign that resulted in massacres and massive expulsions of ethnic Albanians living in Kosovo.

The Milosevic government's rejection of a proposed international settlement led to NATO's bombing of Serbia in the spring of 1999 and to the eventual withdrawal of Serbian military and police forces from Kosovo in June 1999. UNSC Resolution 1244 in June 1999 authorized the stationing of a NATO-led force (KFOR) in Kosovo to provide a safe and secure environment for the region's ethnic communities, created a UN interim Administration Mission in Kosovo (UNMIK) to foster self-governing institutions, and reserved the issue of Kosovo's final status for an unspecified date in the future.

In 2001, UNMIK promulgated a constitutional framework that allowed Kosovo to establish institutions of self-government and led to Kosovo's first parliamentary election. FRY elections in September 2000 led to the ouster of Milosevic and installed Vojislav Kostunica as president. A broad coalition of democratic reformist parties known as DOS (the Democratic Opposition of Serbia) was subsequently elected to parliament in December 2000 and took control of the government. DOS arrested Milosevic in 2001 and allowed for him to be tried in The Hague for crimes against humanity. (Milosevic died in March 2006 before the completion of his trial.)

In 2001, the country's suspension from the UN was lifted. In 2003, the FRY became Serbia and Montenegro, a loose federation of the two republics with a federal level parliament. Widespread violence predominantly targeting ethnic Serbs in Kosovo in March 2004 caused the international community to open negotiations on the future status of Kosovo in January 2006.

In May 2006, Montenegro invoked its right to secede from the federation and - following a successful referendum - it declared itself an independent nation on 3 June 2006. Two days later, Serbia declared that it was the successor state to the union of Serbia and Montenegro. A new Serbian constitution was approved in October 2006 and adopted the following month. After 15 months of inconclusive negotiations mediated by the UN and four months of further inconclusive negotiations mediated by the US, EU, and Russia, on 17 February 2008, the UNMIK-administered province of Kosovo declared itself independent of Serbia.

The Republic of Seychelles, an archipelago of 85 granite and coral islands situated in the Indian Ocean 600 miles (965 km.) northeast of Madagascar, has an area of 156 sq. mi. (455 sq. km.) and a population of 82,400. Among these islands are the Aldabra Islands, the Farquhar Group, and Ile Desroches, which the United Kingdom ceded to the Seychelles upon its independence. Capital: Victoria, on Mahe. The economy is based on fishing, a plantation system of agriculture and tourism. Copra, cinnamon and vanilla are exported. A lengthy struggle between France and Great Britain for the islands ended in 1814, when they were ceded to the latter. Independence came in 1976. Socialist rule was brought to a close with a new constitution and free elections in 1993. President France-Albert Rene, who had served since 1977, was re-elected in 2001, but stepped down in 2004. Vice President James Michel took over the presidency and in July 2006 was elected to a new five-year term.

Overprint: 40th Anniversary of Independence". Back: Cowry shells at upper left, Coco-de-Mer palm fruit at lower left, fairy terns at center, Hawksbill turtle at lower right. FV 7.50

The Republic of Sierra Leone, a British Commonwealth nation located in western Africa between Guinea and Liberia, has an area of 71,740 sq. km. and a population of 6.29 million. Capital: Freetown. The economy is predominantly agricultural but mining contributes significantly to export revenues. Diamonds, iron ore, palm kernels, cocoa and coffee are exported. Democracy is slowly being reestablished after the civil war from 1991 to 2002 that resulted in tens of thousands of deaths and the displacement of more than 2 million people (about one-third of the population). The military, which took over full responsibility for security following the departure of UN peacekeepers at the end of 2005, is increasingly developing as a guarantor of the country's stability. The armed forces remained on the sideline during the 2007 presidential election, but still look to the UN Integrated Office in Sierra Leone (UNIOSIL) - a civilian UN mission - to support efforts to consolidate peace. The new government's priorities include furthering development, creating jobs, and stamping out endemic corruption.

The Republic of Singapore, a British Commonwealth nation situated at the southern tip of the Malayan peninsula, has an area of 712 sq. km. and a population of 5.1 million. Capital: Singapore. The economy is based on electronics production, petrochemicals, pharmaceuticals and shipbuilding/repairs. It is a world financial, business E-commerce, oil refining and air services center, besides having the busiest port in terms of shipping tonnage and containers handled. Singapore was founded as a British trading colony in 1819. It joined the Malaysian Federation in 1963 but separated two years later and became independent. Singapore subsequently became one of the world's most prosperous countries with strong international trading links (its port is one of the world's busiest in terms of tonnage handled) and with per capita GDP equal to that of the leading nations of Western Europe.

MONETARY SYSTEM:

Slovakia as a republic has an area of 18,923 sq. mi. (49,011 sq. km.) and a population of 5.37 million. Capital: Bratislava. Textiles, steel, and wood products are exported. The dissolution of the Austro-Hungarian Empire at the close of World War I allowed the Slovaks to join the closely related Czechs to form Czechoslovakia. Following the chaos of World War II, Czechoslovakia became a Communist nation within Soviet-dominated Eastern Europe. Soviet influence collapsed in 1989 and Czechoslovakia once more became free. The Slovaks and the Czechs agreed to separate peacefully on 1 January 1993. Slovakia joined both NATO and the EU in the spring of 2004 and the Eurozone on 1 January 2009.

MONETARY SYSTEM:
1 Korun = 100 Halierov, 1945-2008
1 Euro = 100 Euro Cent, 2009-

Slovakia adopted the Euro in January 2009.

The Republic of Slovenia is bounded in the north by Austria, northeast by Hungary, southeast by Croatia and to the west by Italy. It has an area of 20,251 sq. km. and a population of 2.01 million. Capital: Ljubljana. The economy is based on electricity, minerals, forestry, agriculture and fishing. Small industries are being developed during privatization.The Slovene lands were part of the Austro-Hungarian Empire until the latter's dissolution at the end of World War I. In 1918, the Slovenes joined the Serbs and Croats in forming a new multinational state, which was named Yugoslavia in 1929. After World War II, Slovenia became a republic of the renewed Yugoslavia, which though Communist, distanced itself from Moscow's rule. Dissatisfied with the exercise of power by the majority Serbs, the Slovenes succeeded in establishing their independence in 1991 after a short 10-day war. Historical ties to Western Europe, a strong economy, and a stable democracy have assisted in Slovenia's transformation to a modern state. Slovenia acceded to both NATO and the EU in the spring of 2004.

MONETARY SYSTEM:
1 (Tolar) = 1 Yugoslavian Dinar
1 Tolar = 100 Stotinas, 1992-2006
1 Euro = 1 Cents, 2007-

REPLACEMENT NOTES:
#11-19, ZA prefix.

Slovenia adopted the Euro in January 2007.

The Solomon Islands, located in the Southwest Pacific east of Papua New Guinea, has an area of 28,450 sq. km. and a population of 581,300. Capital: Honiara. The most important islands of the Solomon chain are Guadalcanal (scene of some of the fiercest fighting of World War II), Malaitia, New Georgia, Florida, Vella Lavella, Choiseul, Rendova, San Cristobal, the Lord Howe group, the Santa Cruz islands, and the Duff group. Copra is the only important cash crop but it is hoped that timber will become an economic factor.The UK established a protectorate over the Solomon Islands in the 1890s. Some of the bitterest fighting of World War II occurred on this archipelago. Self-government was achieved in 1976 and independence two years later. Ethnic violence, government malfeasance, and endemic crime have undermined stability and civil society. In June 2003, then Prime Minister Sir Allan Kemakeza sought the assistance of Australia in reestablishing law and order; the following month, an Australian-led multinational force arrived to restore peace and disarm ethnic militias. The Regional Assistance Mission to the Solomon Islands (RAMSI) has generally been effective in restoring law and order and rebuilding government institutions.

Somalia, the Somali Democratic Republic, comprising the former Italian Somaliland, is located on the coast of the eastern projection of the African continent commonly referred to as the *Horn*. It has an area of 178,201 sq. mi. (461,657 sq. km.) and a population of 11.53 million. Capitol Mogadishu. The economy is pastoral and agricultural. Livestock, bananas and hides are exported. The area of the British Somaliland Protectorate was known to the Egyptians at least 1,500 years B.C., and was occupied by the Arabs and Portuguese before British sea captains obtained trading and anchorage rights in 1827. The land of sandy clay and sporadic rainfall acquired a strategic importance with the opening of the Suez Canal in 1869. After negotiating treaties with the tribes, Britain declared the area a protectorate in 1888. Italy acquired Italian Somaliland in 1895 by purchase from the sultan of Zanzibar. Britain occupied Italian Somaliland in 1941 and administered it until April 1, 1950, when it was returned to Italy as a U.N. trusteeship. The British Somaliland protectorate became independent on June 26, 1960. Five days later it joined with Italian Somaliland to form the Somali Republic. The country was under a revolutionary military regime installed Oct. 21, 1969. After 11 years of civil war rebel forces fought their way into the capital. A. M. Muhammad became president in Aug. 1991 but interfactional fighting continued. A UN-sponsored truce was signed in March 1992 and a peace plan and pact was signed Jan. 15, 1993. The northern Somali National Movements (SNM) declared a secession of the northwestern Somaliland Republic on May 17, 1991 which is not recognized by the Somali Democratic Republic.

The Somaliland Republic, comprising the former British Somaliland Protectorate, is located on the coast of the northeastern projection of the African continent commonly referred to as the "Horn" on the southwestern end of the Gulf of Aden. Bordered by Eritrea to the west, Ethiopia to west and south and Somalia to the east, it has an area of 68,000* sq. mi. (176,000* sq. km). Capital: Hargeysa. It is mostly arid and mounainous except for the gulf shoreline. The Protectorate of British Somaliland was established in 1888 and from 1905 the territory was administered by a commissioner under the British Colonial Office. Italian Somaliland was administered as a colony from 1893 to 1941, when the territory was occupied by British forces. In 1950 the United Nations allowed Italy to resume control of Italian Somaliland under a trusteeship. In 1960 British and Italian Somaliland were united as Somalia, an independent republic outside the Commonwealth. Civil War erupted in the late 1970's and continued until the capital of Somalia was taken in 1990. The United Nations provided aid and peacekeepers. A UN sponsored truce was signed in March 1992 and a peace plan and pact was signed Jan. 15, 1993. The northern Somali National Movement (SMN) declared a secession of the Somaliland Republic on May 17, 1991 which is not recognized by the Somali Democratic Republic. The currency issued by the East African Currency Board was used in British Somaliland from 1945 to 1961. Somali currency was then used until 1995.

s. Specimen. Red overprint: *SPECIMEN* on both sides. — 30.00

The Republic of South Africa, located at the southern tip of Africa, has an area, including the enclave of Walvis Bay, of 1,219,912 sq. km. and a population of 48.78 million. Capital: Administrative, Pretoria; Legislative, Cape Town; Judicial, Bloemfontein. Manufacturing, mining and agriculture are the principal industries. Exports include wool, diamonds, gold and metallic ores.Dutch traders landed at the southern tip of modern day South Africa in 1652 and established a stopover point on the spice route between the Netherlands and the East, founding the city of Cape Town. After the British seized the Cape of Good Hope area in 1806, many of the Dutch settlers (the Boers) trekked north to found their own republics. The discovery of diamonds (1867) and gold (1886) spurred wealth and immigration and intensified the subjugation of the native inhabitants. The Boers resisted British encroachments but were defeated in the Boer War (1899-1902); however, the British and the Afrikaners, as the Boers became known, ruled together under the Union of South Africa. In 1948, the National Party was voted into power and instituted a policy of apartheid - the separate development of the races. The first multi-racial elections in 1994 brought an end to apartheid and ushered in black majority rule under the African National Congress (ANC). ANC infighting, which has grown in recent years, came to a head in September 2008 after President Thabo Mneki resigned. Kgalema Motlanthe, the party's General-Secretary, succeeded as interim president until general elections scheduled for 2009. South African currency carries inscriptions in both Afrikaans and English.

RULERS:
British to 1961

MONETARY SYSTEM:
1 Shilling = 12 Pence
1 Pound = 20 Shillings to 1961
1 Rand = 100 Cents (= 10 Shillings), 1961-

The Republic of Korea, situated in northeastern Asia on the southern half of the Korean peninsula between North Korea and the Korean Strait, has an area of 38,025 sq. mi. (98,484 sq. km.) and a population of 44.61 million. Capital: Seoul. The country's exports include petrochemicals, automobile/auto parts, ships, wireless communication equipment, and steel. Japan replaced China as the predominant foreign influence in Korea in 1895 and annexed the peninsular country in 1910. Defeat in World War II brought an end to Japanese rule. U.S. troops entered Korea from the south and Soviet forces entered from the north. The Cairo Conference (1943) had established that Korea should be "free and independent." The Potsdam Conference (1945) set the 38th parallel as the line dividing the occupation forces of the United States and Russia. When Russia refused to permit a U.N. commission designated to supervise reunification elections to enter North Korea, an election was held in South Korea on May 10, 1948. By its determination, the Republic of Korea was inaugurated on Aug. 15, 1948.

Note: For Bank of Chosen notes issued in South Korea under the Allied occupation during the post WWII period 1945 to 1948 refer to Korea listings.

MONETARY SYSTEM:

1 Won (Hwan) = 100 Chon
1 new Won = 10 old Hwan, 1962-

REPLACEMENT NOTES:

#3: H prefix. #13-15: D prefix and no suffix letter. #30-32, 34, 36-37, sm. crosslet design in front of serial #. #35, 38, 38A, 39, 43-49: notes w/first digit 9 in serial number.

DATING:

The modern notes of Korea are dated according to the founding of the first Korean dynasty, that of the house of Tangun, in 2333 BC.

SOUTH SUDAN

Egypt attempted to colonize the region of southern Sudan by establishing the province of Equatoria in the 1870s. Islamic Mahdist revolutionaries overran the region in 1885, but in 1898 a British force was able to overthrow the Mahdist regime. An Anglo-Egyptian Sudan was established the following year with Equatoria being the southernmost of its eight provinces. The isolated region was largely left to itself over the following decades, but Christian missionaries converted much of the population and facilitated the spread of English. When Sudan gained its independence in 1956, it was with the understanding that the southerners would be able to participate fully in the political system. When the Arab Khartoum government reneged on its promises, a mutiny began that led to two prolonged periods of conflict (1955-1972 and 1983-2005) in which perhaps 2.5 million people died - mostly civilians - due to starvation and drought. Ongoing peace talks finally resulted in a Comprehensive Peace Agreement, signed in January 2005. As part of this agreement the south was granted a six-year period of autonomy to be followed by a referendum on final status. The result of this referendum, held in January 2011, was a vote of 98% in favor of secession. Independence was attained on 9 July 2011.

South Viet Nam (the former Republic of Viet Nam), located in Southeast Asia, bounded by North Viet Nam on the north (the former Democratic Republic of Viet Nam), Laos and Cambodia on the west, and the South China Sea on the east and south, had an area of 66,280 sq. mi. (171,665 sq. km.) and a population of 20 million. Capital: Saigon. The economy of the area was predominantly agricultural. South Viet Nam, the direct successor to the French-dominated regime (also known as the State of Viet Nam), was created after the first Indochina War (between the French and the Viet-Minh) by the Geneva agreement of 1954 which divided Viet Nam at the 17th parallel of latitude.

The elections which would have reunified North and South Viet Nam in 1956 never took place, and the North restarted their war for unification of the country in 1959. In 1975, North Vietnamese forces overran the South reuniting the country under communist rule. There followed a short period of co-existence of the two Vietnamese states, but the South was now governed by the North through the Peoples Revolutionary Government (PRG). On July 2, 1976, South and North Viet Nam joined to form the Socialist Republic of Viet Nam. See also Viet Nam.

s. Specimen. — 50.00

The Spanish State, forming the greater part of the Iberian Peninsula of southwest Europe, has an area of 504,782 sq. km. and a population of 40.5 million. Capital: Madrid. The economy is based on agriculture, industry and tourism. Machinery, fruit, vegetables and chemicals are exported. Spain's powerful world empire of the 16th and 17th centuries ultimately yielded command of the seas to England. Subsequent failure to embrace the mercantile and industrial revolutions caused the country to fall behind Britain, France, and Germany in economic and political power. Spain remained neutral in World Wars I and II but suffered through a devastating civil war (1936-39). A peaceful transition to democracy following the death of dictator Francisco Franco in 1975, and rapid economic modernization (Spain joined the EU in 1986) gave Spain a dynamic and rapidly growing economy and made it a global champion of freedom and human rights. The government continues to battle the Basque Fatherland and Liberty (ETA) terrorist organization, but its major focus for the immediate future will be on measures to reverse the severe economic recession that started in mid-2008.

RULERS:

Francisco Franco, regent, 1937-1975

Note: For later issues used in Spain, see European Union listings.

The Democratic Socialist Republic of Sri Lanka is situated in the Indian Ocean 18 miles (29 km.) southeast of India, has an area of 65,610 sq. km. and a population of 21.13 million. Capital: Colombo. The economy is chiefly agricultural. Tea, coconut products and rubber are exported.The first Sinhalese arrived in Sri Lanka late in the 6th century B.C. probably from northern India. Buddhism was introduced in about the mid-third century B.C., and a great civilization developed at the cities of Anuradhapura (kingdom from circa 200 B.C. to circa A.D. 1000) and Polonnaruwa (from about 1070 to 1200). In the 14th century, a south Indian dynasty established a Tamil kingdom in northern Sri Lanka. The coastal areas of the island were controlled by the Portuguese in the 16th century and by the Dutch in the 17th century. The island was ceded to the British in 1796, became a crown colony in 1802, and was united under British rule by 1815. As Ceylon, it became independent in 1948; its name was changed to Sri Lanka in 1972. Tensions between the Sinhalese majority and Tamil separatists erupted into war in 1983. The war ended in May 2009.

See also Ceylon for earlier listings.

The Democratic Republic of the Sudan, was located in northeast Africa on the Red Sea between Egypt and Ethiopia, it had an area of 2,505,810 sq. km. and a population of 40.22 million. Capital: Khartoum. Agriculture and livestock raising are the chief occupations. Cotton, gum arabic and peanuts are exported. Military regimes favoring Islamic-oriented governments have dominated national politics since independence from the UK in 1956. Sudan was embroiled in two prolonged civil wars during most of the remainder of the 20th century. These conflicts were rooted in northern economic, political, and social domination of largely non-Muslim, non-Arab southern Sudanese. The first civil war ended in 1972 but broke out again in 1983. The second war and famine-related effects resulted in more than four million people displaced and, according to rebel estimates, more than two million deaths over a period of two decades. Peace talks gained momentum in 2002-04 with the signing of several accords. The final North/South Comprehensive Peace Agreement (CPA), signed in January 2005, granted the southern rebels autonomy for six years. After which, a referendum for independence is scheduled to be held. A separate conflict, which broke out in the western region of Darfur in 2003, has displaced nearly two million people and caused an estimated 200,000 to 400,000 deaths. The UN took command of the Darfur peacekeeping operation from the African Union on 31 December 2007. As of early 2009, peacekeeping troops were struggling to stabilize the situation, which has become increasingly regional in scope, and has brought instability to eastern Chad, and Sudanese incursions into the Central African Republic. Sudan also has faced large refugee influxes from neighboring countries, primarily Ethiopia and Chad. Armed conflict, poor transport infrastructure, and lack of government support have chronically obstructed the provision of humanitarian assistance to affected populations. After an election, the country voted to split, forming North Sudan and South Sudan in 2011.

MONETARY SYSTEM:
1 Ghirsh (Piastre) = 10 Millim (Milliemes)
1 Sudanese Pound = 100 Piastres to 1992
1 Dinar = 10 Old Sudanese Pounds, 1992

The Republic of Surinam, formerly known as Dutch Guiana, located on the north central coast of South America between Guyana and French Guiana, has an area of 163,270 sq. km. and a population of 476,000. Capital: Paramaribo. The country is rich in minerals and forests, and self-sufficient in rice, the staple food crop. The mining, processing and exporting of bauxite is the principal economic activity.First explored by the Spaniards in the 16th century and then settled by the English in the mid-17th century, Suriname became a Dutch colony in 1667. With the abolition of slavery in 1863, workers were brought in from India and Java. Independence from the Netherlands was granted in 1975. Five years later the civilian government was replaced by a military regime that soon declared a socialist republic. It continued to exert control through a succession of nominally civilian administrations until 1987, when international pressure finally forced a democratic election. In 1990, the military overthrew the civilian leadership, but a democratically elected government - a four-party New Front coalition - returned to power in 1991 and has ruled since; the coalition expanded to eight parties in 2005.

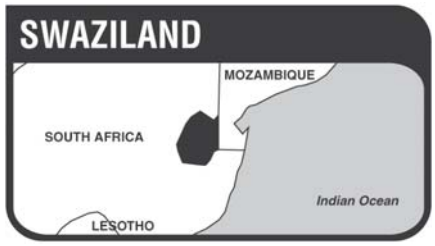
FV 175



The Kingdom of Swaziland, located in southeastern Africa, has an area of 6,704 sq. mi. (17,360 sq. km.) and a population of 984,000. Capital: Mbabane (administrative); Lobamba (legislative). The diversified economy includes mining, agriculture and light industry. Asbestos, iron ore, wood pulp and sugar are exported. Autonomy for the Swazis of southern Africa was guaranteed by the British in the late 19th century; independence was granted in 1968. Student and labor unrest during the 1990s pressured King Mswati III, the world's last absolute monarch, to grudgingly allow political reform and greater democracy, although he has backslid on these promises in recent years. A constitution came into effect in 2006, but political parties remain banned. The African United Democratic Party tried unsuccessfully to register as an official political party in mid 2006. Talks over the constitution broke down between the government and progressive groups in 2007. Swaziland recently surpassed Botswana as the country with the world's highest known HIV/AIDS prevalence rate.

RULERS:
British to 1968
Sobhuza II, 1968-82
Queen Ntombi, as regent, 1982-86
King Mswati III, 1986-

COLLECTOR SERIES

Monetary Authority of Swaziland

1974 Issue

CS1 **ND (1974). 1-20 Emalangeni** **Mkt. Value**
#1-5 with overprint: *SPECIMEN* and serial # prefix Maltese cross. 80.00

The Kingdom of Sweden, a limited constitutional monarchy located in northern Europe between Norway and Finland, has an area of 449,964 sq. km. and a population of 9.04 million. Capital: Stockholm. Mining, lumbering and a specialized machine industry dominate the economy. Machinery, paper, iron and steel, motor vehicles and wood pulp are exported.A military power during the 17th century, Sweden has not participated in any war in almost two centuries. An armed neutrality was preserved in both World Wars. Sweden's long-successful economic formula of a capitalist system interlarded with substantial welfare elements was challenged in the 1990s by high unemployment and in 2000-02 by the global economic downturn, but fiscal discipline over the past several years has allowed the country to weather economic vagaries. Sweden joined the EU in 1995, but the public rejected the introduction of the euro in a 2003 referendum.

ND (2015). Brown and multicolor. Dag Hammarskiöld at center. Gold foil device at upper right, denomination with three crowns at lower right. Back: Mountain range, provincial map of Sweden. FV 300

The Swiss Confederation, located in central Europe north of Italy and south of Germany, has an area of 15,941 sq. mi. (41,290 sq. km.) and a population of 7.41 million. Capital: Bern. The economy centers about a well developed manufacturing industry, however the most important economic factor is services (banks and insurance). Switzerland, the habitat of lake dwellers in prehistoric times, was peopled by the Celtic Helvetians when Julius Caesar made it a part of the Roman Empire in 58 BC. After the decline of Rome, Switzerland was invaded by Teutonic tribes who established small temporal holdings which, in the Middle Ages, became a federation of fiefs of the Holy Roman Empire. As a nation, Switzerland originated in 1291 when the districts of Nidwalden, Schwyz and Uri united to defeat Austria and attain independence as the Swiss Confederation. After acquiring new cantons in the 14th century, Switzerland was made independent from the Holy Roman Empire by the 1648 Treaty of Westphalia. The revolutionary armies of Napoleonic France occupied Switzerland and set up the Helvetian Republic, 1798-1803. After the fall of Napoleon, the Congress of Vienna, 1815, recognized the independence of Switzerland and guaranteed its neutrality. The Swiss Constitutions of 1848, 1874, and 1999 established a union modeled upon that of the United States.

Monetary System
1 Franc (franken) = 10 Batzen = 100 Centimes (Rappen)
Plural: Francs, Franchi or Franken.

The Syrian Arab Republic, located in the Near East at the eastern end of the Mediterranean Sea, has an area of 185,180 sq. km. and a population of 19.75 million. Capital: Damascus. Agriculture and animal breeding are the chief industries. Cotton, crude oil and livestock are exported.Following the breakup of the Ottoman Empire during World War I, France administered Syria until its independence in 1946. The country lacked political stability, however, and experienced a series of military coups during its first decades. Syria united with Egypt in February 1958 to form the United Arab Republic. In September 1961, the two entities separated, and the Syrian Arab Republic was reestablished. In November 1970, Hafiz al-Asad, a member of the Socialist Ba'th Party and the minority Alawite sect, seized power in a bloodless coup and brought political stability to the country. In the 1967 Arab-Israeli War, Syria lost the Golan Heights to Israel. During the 1990s, Syria and Israel held occasional peace talks over its return. Following the death of President al-Asad, his son, Bashar al-Asad, was approved as president by popular referendum in July 2000. Syrian troops - stationed in Lebanon since 1976 in an ostensible peacekeeping role - were withdrawn in April 2005. During the July-August 2006 conflict between Israel and Hizballah, Syria placed its military forces on alert but did not intervene directly on behalf of its ally Hizballah.

Tahiti, the largest island of the central South Pacific French overseas territory of French Polynesia, has an area of 402 sq. mi. (1,042 sq. km.) and a population of 79,024. Papeete on the northwest coast is the capital and administrative center of French Polynesia. Copra, sugar cane, vanilla and coffee are exported. Tourism is an important industry. Capt. Samuel Wallis of the British Navy discovered Tahiti in 1768 and named it King George III Island. Louis-Antoine de Bougainville arrived the following year and claimed it for France. Subsequent English visits were by James Cook in 1769 and William Bligh in the HMS "Bounty" in 1788. Members of the Protestant London Missionary Society established the first European settlement in 1797, and with the aid of the local Pomare family gained control of the entire island and established a "missionary kingdom" with a scriptural code of law. Nevertheless, Tahiti was subsequently declared a French protectorate (1842) and a colony (1880), and since 1958 is part of the overseas territory of French Polynesia.

The Republic of Tajikistan, was formed from those regions of Bukhara and Turkestan where the population consisted mainly of Tajiks. It is bordered in the north and west by Uzbekistan and Kyrgyzstan, in the east by China and in the south by Afghanistan. It has an area of 143,100 sq. km. and a population of 7.21 million. It includes 2 provinces of Khudzand and Khatlon together with the Gorno-Badakhshan Autonomous Region. Capital: Dushanbe. The Tajik people came under Russian rule in the 1860s and 1870s, but Russia's hold on Central Asia weakened following the Revolution of 1917. Bolshevik control of the area was fiercely contested and not fully reestablished until 1925. Much of present-day Sughd province was transferred from the Uzbekistan SSR to newly formed Tajikistan SSR in 1929. Ethnic Uzbeks form a substantial minority in Sughd province. Tajikistan became independent in 1991 following the breakup of the Soviet Union, and it is now in the process of strengthening its democracy and transitioning to a free market economy after its 1992-97 civil war. There have been no major security incidents in recent years, although the country remains the poorest in the former Soviet sphere. Attention by the international community in the wake of the war in Afghanistan has brought increased economic development and security assistance, which could create jobs and increase stability in the long term. Tajikistan is in the early stages of seeking World Trade Organization membership and has joined NATO's Partnership for Peace.

The United Republic of Tanzania, located on the east coast of Africa between Kenya and Mozambique, consists of Tanganyika and the islands of Zanzibar and Pemba. It has an area of 945,090 sq. km. and a population of 40.21 million. Capital: Dodoma. The chief exports are cotton, coffee, diamonds, sisal, cloves, petroleum products and cashew nuts. Shortly after achieving independence from Britain in the early 1960s, Tanganyika and Zanzibar merged to form the nation of Tanzania in 1964. One-party rule came to an end in 1995 with the first democratic elections held in the country since the 1970s. Zanzibar's semi-autonomous status and popular opposition have led to two contentious elections since 1995, which the ruling party won despite international observers' claims of voting irregularities.

Tatarstan, an autonomous republic in the Russian Federation, is situated between the middle of the Volga River and its tributary Kama, extends east to the Ural mountains, covering 26,500 sq. mi. (68,000 sq. km.) and as of the 1970 census has a population of 3,743,600. Captial: Kazan. Tatarstan's economy combines its ancient traditions in the craftsmanship of wood, leather, cloth and ceramics with modern engineering, chemical, and food industries. Colonized by the Bulgars in the 5th century, the territory of the Volga-Kama Bulgar State was inhabited by Turks. In the 13th century, Ghengis Khan conquered the area and established control until the 15th century when residual Mongol influence left Tatarstan as the Tatar Khanate, seat of the Kazar (Tatar) Khans. In 1552, under Ivan IV (the Terrible), Russia conquered, absorbed and controlled Tatarstan until the dissolution of the U.S.S.R. Constituted as an autonomous republic on May 27, 1990, and as a sovereign state equal with Russia in April, 1992, Tatarstan, signed a treaty in February, 1994, defining it as a state united with the Commonwealth of Independent States.

b. Deep green on pale green underprint. 10.00 33.00

Note: Check #12 found in circulation from Aug. 1996 to date.

The Kingdom of Thailand, a constitutional monarchy located in the center of mainland southeast Asia between Burma and Lao, has an area of 514,000 sq. km. and a population of 65.49 million. Capital: Bangkok. The economy is based on agriculture and mining. Rubber, rice, teakwood, tin and tungsten are exported. A unified Thai kingdom was established in the mid-14th century. Known as Siam until 1939, Thailand is the only Southeast Asian country never to have been taken over by a European power. A bloodless revolution in 1932 led to a constitutional monarchy. In alliance with Japan during World War II, Thailand became a US treaty ally following the conflict. A military coup in September 2006 ousted then Prime Minister Thaksin Chinnawat. The interim government held elections in December 2007 that saw the pro-Thaksin People's Power Party (PPP) emerge at the head of a coalition government. The anti-Thaksin People's Alliance for Democracy (PAD) in May 2008 began street demonstrations against the new government, eventually occupying the prime minister's office in August. Clashes in October 2008 between PAD protesters blocking parliament and police resulted in the death of at least two people. The PAD occupied Bangkok's international airports briefly, ending their protests in early December 2008 following a court ruling that dissolved the ruling PPP and two other coalition parties for election violations. The Democrat Party then formed a new coalition government with the support of some of Thaksin's former political allies, and Abhist Wetchachiwa became prime minister. Since January 2004, thousands have been killed as separatists in Thailand's southern ethnic Malay-Muslim provinces increased the violence associated with their cause.

RULERS:
Rama IX (Bhumiphol Adulyadej), 1946-2016
Rama X (Maha Vajiralongkorn Bodindradebayavarangkun), 2016-

MONETARY SYSTEM:
1 Baht (Tical) = 100 Satang

Timor, is an island between the Savu and Timor Seas, has an area, including the former colony of Portuguese Timor, of 11,883 sq. mi. (30,775 sq. km.) and a population of 1.5 million. Western Timor is administered as part of Nusa Tenggara Timur (East Nusa Tenggara) province. Capital: Kupang. The eastern half of the island, the former Portuguese colony, forms a single province, Timor Timur (East Timor). Originally the Portuguese colony also included the area around Ocussi-Ambeno and the small island of Atauro (Pulau Kambing) located north of Dili. Capital: Dili. Timor exports sandalwood, coffee, tea, hides, rubber and copra. Portuguese traders reached Timor about 1520, and moved to the north and east when the Dutch established themselves in Kupang, a sheltered bay at the southwestern tip, in 1613. Treaties effective in 1860 and 1914 established the boundaries between the two colonies. Japan occupied the entire island during World War II. The former Dutch colony in the western part of the island became part of Indonesia in 1950. At the end of Nov., 1975, the Portuguese Province of Timor attained independence as the People's Democratic Republic of East Timur. In Dec., 1975 or early in 1976 the government of the People's Democratic Republic was seized by a guerilla faction sympathetic to the Indonesian territorial claim to East Timur which ousted the constitutional government and replaced it with the Provisional Government of East Timur. On July 17, 1976, the Provisional Government enacted a law which dissolved the free republic and made East Timur the 24th province of Indonesia. In 1999 a revolution suceeded, and it is once again an independent country.

Note: For later issues see Indonesia.

The Kingdom of Tonga (or Friendly Islands), a member of the British Commonwealth, is an archipelago situated in the southern Pacific Ocean south of Western Samoa and east of Fiji comprising 150 islands. Tonga has an area of 748 sq. km. and a population of 119,000. Capital: Nuku'alofa. Primarily agricultural, the kingdom exports bananas and copra. Tonga - unique among Pacific nations - never completely lost its indigenous governance. The archipelagos of "The Friendly Islands" were united into a Polynesian kingdom in 1845. Tonga became a constitutional monarchy in 1875 and a British protectorate in 1900; it withdrew from the protectorate and joined the Commonwealth of Nations in 1970. Tonga remains the only monarchy in the Pacific.

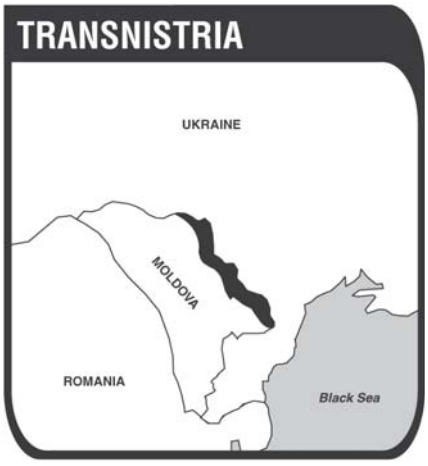
COLLECTOR SERIES

Government of Tonga

1978 Issue

CS1 **1978 1-10 Pa'anga** **Mkt. Value**
#19b-22b overprint: *SPECIMEN* and prefix serial # Maltese cross. 70.00



The Transnistria Moldavian Republic was formed in 1990, even before the separation of Moldavia from Russia. It has an area of 11,544 sq. mi. (29,900 sq. km). and a population of 700,000. Capital: Tiraspol. The area was conquered from the Turks in the last half of the 18th Century, and in 1792 the capital city of Tiraspol was founded. After 1812, the area called Bessarabia (present Moldova and part of the Ukraine) became part of the Russian Empire. During the Russian Revolution, in 1918, the area was taken by Romanian troops, and in 1924 the Moldavian Autonomous SSR was formed on the left bank of the Dniester River. A Romanian occupation area between the Dniester and Bug Rivers called *Transnistria* was established in October 1941. Its center was the port of Odessa. A special issue of notes for use in Transnistria was made by the Romanian government. In 1944 the Russians recaptured Transnistria. Once the Moldavian SSR declared independence in August 1991. Transnistria did not want to be a part of Moldavia. In 1992, Moldova tried to solve the issue militarily. Transnistria has a president, parliament, army and police forces, but as yet is lacking international recognition.

MONETARY SYSTEM:

1 Ruble = 1,000 old Rubles (August 1994)
1 Ruble = 1,000,000 old Rubles (January 2001)

REPUBLIC

Government

1994 ND Provisional Issues

#1-15 issued 24.1.1994, invalidated on 1.12.1994. The Bank purchased used Russian notes and placed stickers on them. Most collectors feel that "uncirculated" notes currently available were made after 1994.

The Republic of Trinidad and Tobago, a member of the British Commonwealth situated 11 km. off the coast of Venezuela, has an area of 5,128 sq. km. and a population of 1.23 million. Capital: Port-of-Spain. The Island of Trinidad contains the world's largest natural asphalt bog. Birds of Paradise live on little Tobago, the only place outside of their native New Guinea where they can be found in a wild state. Petroleum and petroleum products are the mainstay of the economy. Petroleum products, crude oil and sugar are exported.First colonized by the Spanish, the islands came under British control in the early 19th century. The islands' sugar industry was hurt by the emancipation of the slaves in 1834. Manpower was replaced with the importation of contract laborers from India between 1845 and 1917, which boosted sugar production as well as the cocoa industry. The discovery of oil on Trinidad in 1910 added another important export. Independence was attained in 1962. The country is one of the most prosperous in the Caribbean thanks largely to petroleum and natural gas production and processing. Tourism, mostly in Tobago, is targeted for expansion and is growing. Notes of the British Caribbean Territories circulated between 1950-1964.

RULERS:
British to 1976

The Republic of Tunisia, located on the northern coast of Africa between Algeria and Libya, has an area of 163,610 sq. km. and a population of 10.38 million. Capital: Tunis. Agriculture is the backbone of the economy. Crude oil, phosphates, olive oil, and wine are exported. Rivalry between French and Italian interests in Tunisia culminated in a French invasion in 1881 and the creation of a protectorate. Agitation for independence in the decades following World War I was finally successful in getting the French to recognize Tunisia as an independent state in 1956. The country's first president, Habib Bourguiba, established a strict one-party state. He dominated the country for 31 years, repressing Islamic fundamentalism and establishing rights for women unmatched by any other Arab nation. In November 1987, Bourguiba was removed from office and replaced by Zine el Abidine Ben Ali in a bloodless coup. Ben Ali served well into his fifth consecutive five-year term but was overthrown as part of the *Arab Spring* events of 2011. Elections are expected soon.

The Republic of Turkey, a parliamentary democracy of the Near East located partially in Europe and partially in Asia between the Black and the Mediterranean seas, has an area of 301,382 sq. mi. (780,580 sq. km.) and a population of 65.73 million. Capital: Ankara. Turkey exports cotton, hazelnuts and tobacco, and enjoys a virtual monopoly in meerschaum.Modern Turkey was founded in 1923 from the Anatolian remnants of the defeated Ottoman Empire by national hero Mustafa Kemal, who was later honored with the title Ataturk or "Father of the Turks." Under his authoritarian leadership, the country adopted wide-ranging social, legal, and political reforms. After a period of one-party rule, an experiment with multi-party politics led to the 1950 election victory of the opposition Democratic Party and the peaceful transfer of power. Since then, Turkish political parties have multiplied, but democracy has been fractured by periods of instability and intermittent military coups (1960, 1971, 1980), which in each case eventually resulted in a return of political power to civilians. In 1997, the military again helped engineer the ouster - popularly dubbed a "post-modern coup" - of the then Islamic-oriented government. Turkey intervened militarily on Cyprus in 1974 to prevent a Greek takeover of the island and has since acted as patron state to the "Turkish Republic of Northern Cyprus," which only Turkey recognizes. A separatist insurgency begun in 1984 by the Kurdistan Workers' Party (PKK) - now known as the People's Congress of Kurdistan or Kongra-Gel (KGK) - has dominated the Turkish military's attention and claimed more than 30,000 lives. After the capture of the group's leader in 1999, the insurgents largely withdrew from Turkey mainly to northern Iraq. In 2004, KGK announced an end to its ceasefire and attacks attributed to the KGK increased. Turkey joined the UN in 1945 and in 1952 it became a member of NATO; it holds a non-permanent seat on the UN Security Council from 2009-2010. In 1964, Turkey became an associate member of the European Community. Over the past decade, it has undertaken many reforms to strengthen its democracy and economy; it began accession membership talks with the European Union in 2005.

RULERS:
Republic, AH1341-/1923-AD

MONETARY SYSTEM:
1 Kurush (Gurush, Piastre) = 40 Para

c. ND (2017). Prefix C. FV 100

The Turkmenistan Republic covers the territory of the Trans-Caspian Region of Turkestan, the Charjiui Vilayet of Bukhara and the part of Khiva located on the right bank of the Oxus. Bordered on the north by the Autonomous Kara-Kalpak Republic (a constituent of Uzbekistan), by Iran and Afghanistan on the south, by the Uzbek Republic on the east and the Caspian Sea on the west. It has an area of 488,100 sq. km. and a population of 5.18 million. Capital: Ashgabat (formerly Poltoratsk). Main occupation is agricultural products including cotton and maize. It is rich in minerals, oil, coal, sulphur and salt,and is also famous for it's carpets, Turkoman horses and Karakul sheep. Eastern Turkmenistan for centuries formed part of the Persian province of Khurasan; in medieval times Merv (today known as Mary) was one of the great cities of the Islamic world and an important stop on the Silk Road. Annexed by Russia between 1865 and 1885, Turkmenistan became a Soviet republic in 1924. It achieved independence upon the dissolution of the USSR in 1991. Extensive hydrocarbon/natural gas reserves could prove a boon to this underdeveloped country if extraction and delivery projects were to be expanded. The Turkmenistan Government is actively seeking to develop alternative petroleum transportation routes to break Russia's pipeline monopoly. President for Life Saparmurat Nyyazow died in December 2006, and Turkmenistan held its first multi-candidate presidential electoral process in February 2007. Gurbanguly Berdimuhamedow, a vice premier under Nyyazow, emerged as the country's new president.

The Republic of Uganda, a former British protectorate located astride the equator in east-central Africa, has an area of 236,040 sq. km. and a population of 31.37 million. Capital: Kampala. Agriculture, including livestock, is the basis of the economy; there is some mining of copper, tin, gold and lead. Coffee, cotton, copper and tea are exported. The colonial boundaries created by Britain to delimit Uganda grouped together a wide range of ethnic groups with different political systems and cultures. These differences prevented the establishment of a working political community after independence was achieved in 1962. The dictatorial regime of Idi Amin (1971-79) was responsible for the deaths of some 300,000 opponents; guerrilla war and human rights abuses under Milton Obote (1980-85) claimed at least another 100,000 lives. The rule of Yoweri Museveni since 1986 has brought relative stability and economic growth to Uganda. During the 1990s, the government promulgated non-party presidential and legislative elections. Notes of East African Currency Board circulated before Bank of Uganda notes were available. Also see East Africa.

MONETARY SYSTEM:

1 Shilling = 100 Cents

Caution: Several years ago the Bank of Uganda sold quantities of demonetized notes, most of which were made available for only $1.00 per note. Condition of notes thus sold is not reported. A listing of some pieces NOT available from the bank includes #4, 6a, 7a, 8a and b, 9a and b, 13a, 14a, 21, 23, and 24a and b.

c. 2017.	FV	45.00

Ukraine is bordered by Russia to the east, Russia and Belarus to the north, Poland, Slovakia and Hungary to the west, Romania and Moldova to the southwest and in the south by the Black Sea and the Sea of Azov. It has an area of 603,700 sq. km. and a population of 45.99 million. Capital: Kyiv (Kiev). Coal, grain, vegetables and heavy industrial machinery are major exports. The territory of Ukraine has been inhabited for over 30,000 years. As the result of its location, Ukraine has served as the gateway to Europe for millennia and its early history has been recorded by Arabic, Greek, Roman, as well as Ukrainian historians. Ukraine was the center of the first eastern Slavic state, Kyivan Rus, which during the 10th and 11th centuries was the largest and most powerful state in Europe. Weakened by internecine quarrels and Mongol invasions, Kyivan Rus was incorporated into the Grand Duchy of Lithuania and eventually into the Polish-Lithuanian Commonwealth. The cultural and religious legacy of Kyivan Rus laid the foundation for Ukrainian nationalism through subsequent centuries. A new Ukrainian state, the Cossack Hetmanate, was established during the mid-17th century after an uprising against the Poles. Despite continuous Muscovite pressure, the Hetmanate managed to remain autonomous for well over 100 years. During the latter part of the 18th century, most Ukrainian ethnographic territory was absorbed by the Russian Empire. Following the collapse of czarist Russia in 1917, Ukraine was able to bring about a short-lived period of independence (1917-20), but was reconquered and forced to endure a brutal Soviet rule that engineered two artificial famines (1921-22 and 1932-33) in which over 8 million died. In World War II, German and Soviet armies were responsible for some 7 to 8 million more deaths. Although final independence for Ukraine was achieved in 1991 with the dissolution of the USSR, democracy remained elusive as the legacy of state control and endemic corruption stalled efforts at economic reform, privatization, and civil liberties. A peaceful mass protest "Orange Revolution" in the closing months of 2004 forced the authorities to overturn a rigged presidential election and to allow a new internationally monitored vote that swept into power a reformist slate under Viktor Yushchenko. Subsequent internal squabbles in the Yushchenko camp allowed his rival Viktor Yanukovych to stage a comeback in parliamentary elections and become prime minister in August of 2006. An early legislative election, brought on by a political crisis in the spring of 2007, saw Yuliya Tymoshenko, as head of an "Orange" coalition, installed as a new prime minister in December 2007.

MONETARY SYSTEM:

1 Karbovanets (Karbovantsiv) = 2 Hryven
1917-1920 = 200 Shahiv
1 Karvovanets (Karbovantsiv) = 1 Russian Ruble, 1991-96
1 Hryvnia (Hryvni, Hryven) = 100,000 Karbovantsiv, 1996-

НАЦІОНАЛЬНИЙ БАНК УКРАЇНИ

Ukrainian National Bank

1991 КУПОН Control Coupon Issue

Karbovanets System Originally issued at par and temporarily to be used jointly with Russian rubles in commodity purchases as a means of currency control (similar to Ruble Control Coupons above). They soon became more popular while the ruble slowly depreciated in exchange value. This did not last very long and the karbovanets has since suffered a higher inflation rate than the Russian ruble.

81 **1 Karbovanets** **VF** **UNC**

1991. Dull brown and pale orange on yellow underprint. Lybid, Viking sister of the founding brothers at left. All notes without serial number. Back: Cathedral of St. Sophia in Kiev at left center. Watermark: Paper. Printer: ISPB (France). 1 KRB printed sideways with fluorescent ink at left.

The seven United Arab Emirates (formerly known as the Trucial Sheikhdoms or States), located along the southern shore of the Persian Gulf, are comprised of the Sheikhdoms of Abu Dhabi, Dubai, Sharjah, Ajman, Umm al Qaiwain, Ras al-Khaimah and Fujairah. They have a combined area of 83,600 sq. km. and a population of 4.62 million. Capital: Abu Dhabi. Since the oil strikes of 1958-60, the economy has centered on petroleum.The Trucial States of the Persian Gulf coast granted the UK control of their defense and foreign affairs in 19th century treaties. In 1971, six of these states - Abu Zaby, 'Ajman, Al Fujayrah, Ash Shariqah, Dubayy, and Umm al Qaywayn - merged to form the United Arab Emirates (UAE). They were joined in 1972 by Ra's al Khaymah. The UAE's per capita GDP is on par with those of leading West European nations. Its generosity with oil revenues and its moderate foreign policy stance have allowed the UAE to play a vital role in the affairs of the region.

The area of the North American continent currently controlled by the United States of America was originally inhabited by numerous groups of Indian tribes. Some of these groups settled in particular areas, creating permanent settlements, while others were nomadic, traveling great distances and living off the land.

English explorers John and Sebastian Cabot reached Nova Scotia in what is today Canada in 1497; in 1534 the French gained a foothold with the explorations of Jacques Cartier. In 1541 the Spanish explorer Coronado traversed the south central portion of the country in what was to become the states of New Mexico, Texas, Nebraska and Oklahoma. In 1542 another Spaniard, Juan Cabrillo navigated north from Mexico along the Pacific coastline to California. The Spanish set up the first permanent settlement of Europeans in North America at St. Augustine, Florida in 1565. In 1607 the English settled in Jamestown, Virginia, and in 1620 at Plymouth, Massachusetts. This was followed closely by Dutch settlements in Albany and New York in 1624, and in 1638 the Swedes arrived in Delaware. From their foothold in Canada, French explorers pushed inland through the Great Lakes. Jean Nicolet explored what was to become Wisconsin in 1634, and in 1673 explorers Marquette and Joliet reached Iowa. In the 1650s the Dutch won the Swedish lands, and in 1664 the English gained control of the Dutch lands, thus giving the English control all along the Atlantic Coast. The resulting thirteen British colonies; New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina and Georgia formed the nucleus of what would become the United States of America.

From this point on tensions grew between the English, who could not expand westward from their settlements along the Atlantic Coast, and the French who had settled inland into the Ohio river valley. This dispute ended in 1763 after a war with the French loosing control of lands east of the Mississippi river. Manufacturing, textiles and other industry was developing at this time, and by 1775 about one-seventh of the world's production of raw iron came from the colonies. From 1771-1783 the war for American Independence was fought by the colonists against the English, and settled by the Peace of Paris in 1783. Americans gained control of lands south of the St. Lawrence and Great Lakes, and east of the Mississippi, with the exception of Florida which would remain under Spanish control until 1821. At the close of the war, the population was about 3 million, many of whom lived on self-sufficient family farms. Fishing, lumbering and the production of grains for export were becoming major economic endeavors. The newly independent states formed a loose confederation, but in 1787 approved the Constitution of the United States which is the framework for the goverment today. In 1789 it's first president, George Washington was elected, and the capitol was set up in New York City. In 1800 the capitol was moved to a planned city, Washington, D.C. where it remains.

Westward expansion was an inevitability as population grew. French territory west of the Mississippi, stretching to the northern Pacific was purchased in 1804 under the presidency of Thomas Jefferson, who then sent out Lewis and Clark on expedition of discovery. Spain granted independence to Mexico in 1821, which included lands which would become the states of California, New Mexico, Arizona and Texas. From 1836-1845 Texas was an independent republic, not joining the United States until 1845. Upon losing a war with the United States, Mexico ceded California (including most of Arizonia and New Mexico) to the United States in 1848. Gold was discovered in California that year, and western migration took off on overland wagon trains or around-the-horn sail and steam ships. Hawaii came under U.S. protection in 1851. As the country developed in the 19th century, the northern states increased in commerce and industry while the southern states developed a vast agricultural base through the use of slave labor. Northern political and social threats to slavery lead twelve southern states to secede from the Union in 1860 forming the Confederate States of America. The ensuing Civil War lasted until 1865, at which time slavery was abolished and the States reunited.

In 1867 Alaska was purchased from Russia. The transcontinental railroad was completed in 1869. The central region of the country west of the Mississippi River and east of the Rocky Mountains was the last to be developed, beginning after the Civil War, with the establishment of cattle ranches and farms. Between 1870 and 1891 the nomadic Native American population clashed with settlers and federal troops. By 1891 the Native Americans were confined to reservations.

At the close of the 19th century the United States embarked on a colonial mission of its own, with advances into Cuba, Puerto Rico, Panama, Nicaragua and the Philippines. This resulted in the Spanish-American War which was quickly decided, ending Spanish colonial dominance, and signaling the rise of the United States as a world power. Slow to enter both World Wars of the 20th century, it was a major contributor to the conclusion of both, making it one of the major nations of the 20th century.

MONETARY SYSTEM:

1 Dollar = 100 Cents

The different types of currency are treated in a number of specialized catalogs:

- Friedberg, Robert; *Paper Money of the United States.*
- Hickman, John and Oakes, Dean; *Standard Catalog of® National Bank Notes.*
- Brandimore, William; *Standard Catalog of® United States Paper Money.*

Detailed information, as given in these catalogs, is not repeated here. The following listing is limited to the individual types and their principal varieties. Sign. varieties in earlier issues are not detailed.

The Oriental Republic of Uruguay (so called because of its location on the east bank of the Uruguay River) is situated on the Atlantic coast of South America between Argentina and Brazil. This most advanced of South American countries has an area of 176,220 sq. km. and a population of 3.48 million. Capital: Montevideo. Uruguay's chief economic asset is its rich, rolling grassy plains. Meat, wool, hides and skins are exported. Montevideo, founded by the Spanish in 1726 as a military stronghold, soon took advantage of its natural harbor to become an important commercial center. Claimed by Argentina but annexed by Brazil in 1821, Uruguay declared its independence four years later and secured its freedom in 1828 after a three-year struggle. The administrations of President Jose Battle in the early 20th century established widespread political, social, and economic reforms that established a statist tradition. A violent Marxist urban guerrilla movement named the Tupamaros, launched in the late 1960s, led Uruguay's president to cede control of the government to the military in 1973. By year end, the rebels had been crushed, but the military continued to expand its hold over the government. Civilian rule was not restored until 1985. In 2004, the left-of-center Frente Amplio Coalition won national elections that effectively ended 170 years of political control previously held by the Colorado and Blanco parties. Uruguay's political and labor conditions are among the freest on the continent.

MONETARY SYSTEM:

1 Patacón = 960 Reis
1 Peso = 8 Reales to 1860
1 Peso = 100 Centésimos
1 Doblon = 10 Pesos, 1860-1875

The Republic of Uzbekistan (formerly the Uzbek S.S.R.), is bordered on the north by Kazakhstan, to the east by Kirghizia and Tajikistan, on the south by Afghanistan and on the west by Turkmenistan. The republic is comprised of the regions of Andizhan, Bukhara, Dzhizak, Ferghana, Kashkadar, Khorezm (Khiva), Namangan, Navoi, Samarkand, Surkhan-Darya, Syr-Darya, Tashkent and the Karakalpak Autonomous Republic. It has an area of 447,400 sq. km. and a population of 27.34 million. Capital: Tashkent. Crude oil, natural gas, coal, copper and gold deposits make up the chief resources, while intensive farming, based on artificial irrigation, provides an abundance of cotton.Russia conquered Uzbekistan in the late 19th century. Stiff resistance to the Red Army after World War I was eventually suppressed and a socialist republic set up in 1924. During the Soviet era, intensive production of "white gold" (cotton) and grain led to overuse of agrochemicals and the depletion of water supplies, which have left the land poisoned and the Aral Sea and certain rivers half dry. Independent since 1991, the country seeks to gradually lessen its dependence on agriculture while developing its mineral and petroleum reserves. Current concerns include terrorism by Islamic militants, economic stagnation, and the curtailment of human rights and democratization.

Monetary System:
1 ТИНЬГА (Tenga) = 20 КОПЬНКЪ (Kopeks)
5 ТИНЬГОВЪ (Tengov) = 1 РУБЛЬ (Ruble)
1 Sum (Ruble) = 100 Kopeks, 1991
1 Sum = 1,000 Sum Coupon, 1994
1 СЎЬ (Sum) = 100 ТИЙИН (Tiyin)

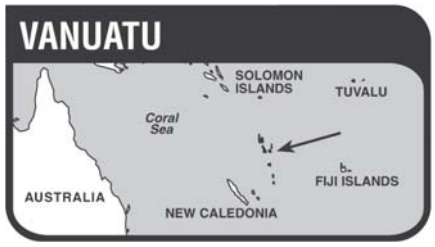
85 **50,000 Sum** **VF UNC**
2017. Bluish violet. Arms. Back: Palace of International Forums. 144x77mm. FV 15.00



Vanuatu (formerly the New Hebrides Condominium), a group of islands located in the South Pacific 800 km. west of Fiji, were under the joint sovereignty of Great Britain and France. The islands have an area of 12,200 sq. km. and a population of 215,450. Capital: Vila. The volcanic and coral islands, while malarial and subject to frequent earthquakes, are extremely fertile, and produce copra, coffee, tropical fruits and timber for export.Multiple waves of colonizers, each speaking a distinct language, migrated to the New Hebrides in the millennia preceding European exploration in the 18th century. This settlement pattern accounts for the complex linguistic diversity found on the archipelago to this day. The British and French, who settled the New Hebrides in the 19th century, agreed in 1906 to an Anglo-French Condominium, which administered the islands until independence in 1980, when the new name of Vanuatu was adopted.

RULERS:
British and French to 1982

MONETARY SYSTEM:
100 Vatu = 100 Francs

The Republic of Venezuela, located on the northern coast of South America between Colombia and Guyana, has an area of 912,050 sq. km. and a population of 26.41 million. Capital: Caracas. Petroleum and mining provide 90 percent of Venezuela's exports although they employ less than 2 percent of the work force. Coffee, grown on 60,000 plantations, is the chief crop.Venezuela was one of three countries that emerged from the collapse of Gran Colombia in 1830 (the others being Ecuador and New Granada, which became Colombia). For most of the first half of the 20th century, Venezuela was ruled by generally benevolent military strongmen, who promoted the oil industry and allowed for some social reforms. Democratically elected governments have held sway since 1959. Hugo Chavez, president since 1999, seeks to implement his "21st Century Socialism," which purports to alleviate social ills while at the same time attacking globalization and undermining regional stability. Current concerns include: a weakening of democratic institutions, political polarization, a politicized military, drug-related violence along the Colombian border, increasing internal drug consumption, overdependence on the petroleum industry with its price fluctuations, and irresponsible mining operations that are endangering the rain forest and indigenous peoples.

REPUBLIC

Banco Central de Venezuela

Established in 1940. Sign. and date varieties. Notes from 1940-53 bear the legend *E.E.U.U. de Venezuela* in the coat of arms and after 1953 República de Venezuela. Note: Many specimen notes entered the market about 1982. Up to 200 of each are known for many of the types.

The Socialist Republic of Viet Nam, located in Southeast Asia west of the South China Sea, has an area of 329,560 sq. km. and a population of 86.12 million. Capital: Hanoi. Agricultural products, saltwater fish, shellfish, coal, mineral ores and electronic products are exported.

The conquest of Viet Nam by France began in 1858 and was completed by 1884. It became part of French Indochina in 1887. Viet Nam declared independence after World War II, but France continued to rule until its 1954 defeat by communist forces under Ho Chi Minh. Under the Geneva Accords of 1954, Viet Nam was divided into the communist North and anti-communist South. The US and its allies' sent economic and military aid to South Viet Nam and the Soviety Union and its allies sent their aid to the North. The US and its allies were withdrawn following a cease-fire agreement in 1973. Two years later, North Vietnamese forces overran the South reuniting the country under Communist rule. Despite the return of peace, for over a decade the country experienced limited economic growth because of the communist leadership policies. However, since the enactment of Viet Nam's *doi moi* (renovation) policy in 1986, Vietnamese authorities have committed to increased economic liberalization and enacted structural reforms needed to modernize the economy and to produce more competitive, export-driven industries, which greatly reduced inflation and greatly increased economic growth.

MONETARY SYSTEM:

1 Hao = 10 Xu
1 Dông = 100 Xu
1 Dông = 100 "Old" Dong, 19511 Dong = 100 Xu = 100 Su to 1975 1 New Dong = 500 Old Dong, 1975-76

Replacement Notes: #5-7, 11-14, star instead of series prefix of letter and number.

Note: HCM = Ho Chi Minh

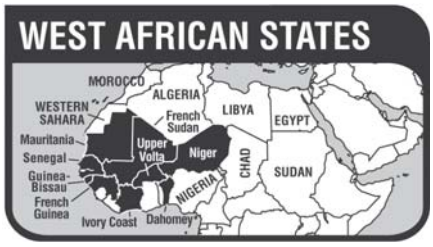
2016 Commemorative Issue

65th Anniversary of national banking.

125 100 Dông — **VF UNC**

2016. Red and yellow. Chu Tich Ho Chi Minh 1890 - 1969 at center. 65 logo at right. Back: State Bank of Viet Nam building. Watermark: Lotus flower. 163x83mm. FV 7.00



The West African States, a former federation of eight French colonial territories on the northwest coast of Africa, had an area of 1,813,079 sq. mi. (4,742,495 sq. km.) and a population of about 60 million. Capital: Dakar. The constituent territories were Mauritania, Senegal, Dahomey, French Sudan, Ivory Coast, Upper Volta, Niger and French Guinea. The members of the federation were overseas territories within the French Union until Sept. of 1958 when all but French Guinea approved the constitution of the Fifth French Republic, thereby electing to become autonomous members of the new French Community. French Guinea voted to become the fully independent Republic of Guinea. The other seven attained independence in 1960. The French West Africa territories were provided with a common currency, a practice which was continued as the monetary union of the West African States which provides a common currency to the autonomous republics of Dahomey (now Benin), Mali, Senegal, Upper Volta (now Burkina Faso) Ivory Coast, Togo, Niger, and Guinea-Bissau.

MONETARY SYSTEM:

1 Franc = 100 Centimes

DATING:

The year of issue on the notes from the 1991-2003 series and from the current 2003-present series is indicated by the first 2 digits of the serial number [e.g. (19)91, (19)92].

WEST AFRICAN STATES

Banque Centrale des Etats de l'Afrique de l'Ouest

Notes of this bank were issued both with and without code letters in the upper right and lower left corners. The code letter follows the control number and indicates which member country the note was issued for. Those without code letters are general issues. The code letters are as follows: "A" for Cote d' Ivoire; "B" for Benin (Dahomey); "C" for Burkina Faso (Upper Volta); "D" for Mali; "E" for Mauritania; "H" for Niger; "K" for Senegal; "S" for Guinea-Bissau; "T" for Togo.

A for Cote d'Ivoire (Ivory Coast)

The Independent State of Western Samoa (formerly German Samoa), located in the Pacific Ocean 1,600 miles (2,574 km.) northeast of New Zealand, has an area of 1,097 sq. mi. (2,860 sq. km.) and a population of 157,000. Capital: Apia. The economy is based on agriculture, fishing and tourism. Copra, cocoa and bananas are exported. The Samoan group of islands was discovered by Dutch navigator Jacob Roggeveen in 1772. Great Britain, the United States and Germany established consular representation at Apia in 1847, 1853 and 1861 respectively. The conflicting interests of the three powers produced the Berlin agreement of 1889 which declared Samoa neutral and had the effect of establishing a tripartite protectorate over the islands. A further agreement, 1899, recognized the rights of the United States in those islands east of 171 deg. west longitude (American Samoa) and of Germany in the other islands (Western Samoa). New Zealand occupied Western Samoa at the start of World War I and administered it as a League of Nations mandate and U.N. trusteeship until Jan. 1, 1962, when it became an independent state. Western Samoa is a member of the Commonwealth of Nations. The Chief Executive is Chief of State. The prime minister is the Head of Government. The present Head of State, Malietoa Tanumafili II, holds his position for life. Future Heads of State will be elected by the Legislature Assembly for five-year terms.

RULERS:
British, 1914-1962

#24 not assigned.

The Yemen Arab Republic, located in the southwestern corner of the Arabian Peninsula, has an area of 75,290 sq. mi. (195,000 sq. km.) and a population of 18.12 million. Capital: San'a. The industries of Yemen, one of the world's poorest countries, are agriculture and local handicrafts. Qat (a mildly narcotic leaf), coffee, cotton and rock salt are exported. One of the oldest centers of civilization in the Near East, Yemen was once part of the Minaean Kingdom and of the ancient Kingdom of Sheba, after which it was captured successively by Egyptians, Ethiopians and Romans. It was converted to the Moslem religion in 628 AD and administered as a caliphate until 1538, when it came under Turkish occupation which was maintained until 1918 when autonomy was achieved through revolution. On Feb. 1, 1958, Egypt and Syria formed the United Arab Republic. Yemen joined on March 8 in an association known as the United Arab States. Syria withdrew from the United Arab Republic on Sept. 29, 1961, and on Dec. 26 Egypt dissolved its ties with Yemen in the United Arab States. Provoked by the harsh rule of Imam Mohammed al-Badr, last ruler of the Kingdom of Mutawwakkilite, the National Liberation Front seized control of the government on Sept. 27, 1962. Badr fled to Saudi Arabia. An agreement for a constitution for a unified state was reached in Dec. 1989 uniting the Yemen Arab Republic with the People's Democratic Republic of Yemen into the Republic of Yemen on May 22, 1990. Both currencies circulated for a number of years, but the PDR dinar lost legal tender status on June 11, 1996.

The People's Democratic Republic of Yemen, (formerly the Peoples Republic of Southern Yemen) was located on the southern coast of the Arabian Peninsula. It had an area of 128,560 sq. mi. (332,968 sq. km.). Capital: Aden. It consisted of the port city of Aden, 17 states of the former South Arabian Federation, 3 small sheikhdoms, 3 large sultanates, Quaiti, Kathiri and Mahri, which made up the Eastern Aden Protectorate, and Socotra, the largest island in the Arabian Sea. The port of Aden is the area's most valuable natural resource. Cotton, fish, coffee and hides are exported. Between 1200 BC and the 6th century AD, what is now the People's Democratic Republic of Yemen was part of the Minaean kingdom. In subsequent years it was controlled by Persians, Egyptians and Turks. Aden, one of the cities mentioned in the Bible, had been a port for trade between the East and West for 2,000 years. British rule began in 1839 when the British East India Co. seized control to put an end to the piracy threatening trade with India. To protect their foothold in Aden, the British found it necessary to extend their control into the area known historically as the Hadramaut, and to sign protection treaties with the sheikhs of the hinterland. Eventually, 15 of the 16 Western Protectorate states, the Wahidi state of the Eastern Protectorate, and Aden Colony joined to form the Federation of South Arabia. In 1959, Britain agreed to prepare South Arabia for full independence, which was achieved on Nov. 30, 1967, at which time South Arabia, including Aden, changed its name to the People's Republic of Southern Yemen. On Dec. 1, 1970, following the overthrowing of the new government by the National Liberation Front, Southern Yemen changed its name to the People's Democratic Republic of Yemen. On May 22, 1990 the People's Democratic Republic merged with the Yemen Arab Republic into a unified Republic of Yemen. The YDR currency ceased to circulate on June 11, 1996.

The Federal Republic of Yugoslavia is a Balkan country located on the east shore of the Adriatic Sea bordering Bosnia-Herzegovina and Croatia to the west, Hungary and Romania to the north, Bulgaria to the east, and Albania and Macedonia to the south. It has an area of 39,449 sq. mi. (102,173 sq. km.) and a population of 10.5 million. Capital: Belgrade. The chief industries are agriculture, mining, manufacturing and tourism. Machinery, nonferrous metals, meat and fabrics are exported. The first South-Slavian State - Yugoslavia - was proclaimed on Dec. 1, 1918, after the union of the Kingdom of Serbia, Montenegro and the South Slav territories of Austria-Hungary; it then changed its official name from the Kingdom of the Serbs, Croats, and Slovenes to the Kingdom of Yugoslavia on Oct. 3, 1929. The Royal government of Yugoslavia attempted to remain neutral in World War II but, yielding to German pressure, aligned itself with the Axis powers in March of 1941; a few days later it was overthrown by a military-led coup and its neutrality reasserted. The Nazis occupied the country on April 17, and throughout the remaining years were resisted by a number of guerrilla armies, notably that of Marshal Josip Broz known as Tito. After the defeat of the Axis powers, a leftist coalition headed by Tito abolished the monarchy and, on Jan. 31, 1946, established a "People's Republic". Tito's rival General Draza Mihajlovic, who led the Chetniks against the Germans and Tito's forces, was arrested on March 13, 1946 and executed the following day after having been convicted by a partisan court. The Federal Republic of Yugoslavia was composed of six autonomous republics: Serbia, Croatia, Slovenia, Bosnia-Herzegovina, Macedonia and Montenegro with two autonomous provinces within Serbia: Kosovo-Metohija and Vojvodina. The collapse of the Socialist Federal Republic of Yugoslavia during 1991-92 has resulted in the autonomous republics of Croatia, Slovenia, Bosnia-Herzegovina and Macedonia declaring their respective independence. The Federal Republic of Yugoslavia was proclaimed in 1992; it consists of the former

The Republic of Zaïre (formerly the Congo Democratic Republic) located in the south-central part of Africa, has an area of 905,568 sq. mi. (2,345,409 sq. km.) and a population of 43.81 million. Capital: Kinshasa. The mineral-rich country produces copper, tin, diamonds, gold, zinc, cobalt and uranium. In ancient times the territory comprising Zaïre was occupied by Negrito peoples (Pygmies) pushed into the mountains by Bantu and Nilotic invaders. The interior was first explored by the American correspondent Henry Stanley, who was subsequently commissioned by King Leopold II of Belgium to conclude development treaties with the local chiefs. The Berlin conference of 1885 awarded the area to Leopold, who administered and exploited it as his private property until it was annexed to Belgium in 1908. Following the eruption of bloody independence riots in 1959, Belgium granted the Belgian Congo independence as the Republic of the Congo on June 30, 1960. The Belgian Congo attained independence with the distinction of being the most ill-prepared country to ever undertake self-government. Without a single doctor, lawyer or engineer, with no organized unit capable of maintaining law and order, independence disintegrated into an orgy of anarchy. Provinces seceded. Intertribal warfare erupted. Belgian troops intervened to protect Belgian citizens from retributive massacre. By 1961, four groups were fighting for political dominance. The most serious threat to the viability of the country was posed by the secession of mineral-rich Katanga province on July 11, 1960. After two and one-half years of sporadic warfare with a U.N. military force, Katanga's leaders capitulated, Jan. 14, 1963 and the rebellious province was partioned into three provinces. The nation officially changed its name to Zaïre on Oct. 27, 1971. In May 1997, the dictator was overthrown after a three-year rebellion. The country changed its name to the Democratic Republic of the Congo. See also Rwanda, Rwanda-Burundi or Congo Democratic Republic.

MONETARY SYSTEM:

1 Franc = 100 Centimes to 1967
1 Zaïre = 100 Makuta, 1967-1993
1 Nouveau Zaïre = 100 N Makuta = 3 million "old" Zaïres, 1993-1997

a. Issued note. 4.00 17.50
s. Specimen. Red overprint: *SPECIMEN* on both sides. — 80.00

The Republic of Zambia is a landlocked country in south-central Africa, has an area of 752,614 sq. km. and a population of 11.67 million. Capital: Lusaka. The economy is based principally on copper, of which Zambia is the world's third largest producer. Copper, zinc, lead, cobalt and tobacco are exported. The territory of Northern Rhodesia was administered by the [British] South Africa Company from 1891 until it was taken over by the UK in 1923. During the 1920s and 1930s, advances in mining spurred development and immigration. The name was changed to Zambia upon independence in 1964. In the 1980s and 1990s, declining copper prices and a prolonged drought hurt the economy. Elections in 1991 brought an end to one-party rule, but the subsequent vote in 1996 saw blatant harassment of opposition parties. The election in 2001 was marked by administrative problems with three parties filing a legal petition challenging the election of ruling party candidate Levy Mwanawasa. The new president launched an anticorruption investigation in 2002 to probe high-level corruption during the previous administration. In 2006-07, this task force successfully prosecuted four cases, including a landmark civil case in the UK in which former President Chiluba and numerous others were found liable for USD 41 million. Mwanawasa was reelected in 2006 in an election that was deemed free and fair. Upon his abrupt death in August 2008, he was succeeded by his Vice-president Rupiah Banda, who subsequently won a special presidential election in October 2008. Also see Rhodesia and Malawi.

RULERS:
British to 1964

MONETARY SYSTEM:
1 Shilling = 12 Pence
1 Pound = 20 Shillings to 1968
1 Kwacha = 100 Ngwee, 1968-

The Republic of Zimbabwe is located in the east-central part of southern Africa, has an area of 390,580 sq. km. and a population of 11.35 million. Capital: Harare (formerly Salisbury). The economy is based on agriculture and mining. Tobacco, sugar, asbestos, copper and chrome ore and coal are exported.The UK annexed Southern Rhodesia from the [British] South Africa Company in 1923. A 1961 constitution was formulated that favored whites in power. In 1965 the government unilaterally declared its independence, but the UK did not recognize the act and demanded more complete voting rights for the black African majority in the country (then called Rhodesia). UN sanctions and a guerrilla uprising finally led to free elections in 1979 and independence (as Zimbabwe) in 1980. Robert Mugabe, the nation's first prime minister, has been the country's only ruler (as president since 1987) and has dominated the country's political system since independence. His chaotic land redistribution campaign, which began in 2000, caused an exodus of white farmers, crippled the economy, and ushered in widespread shortages of basic commodities. Ignoring international condemnation, Mugabe rigged the 2002 presidential election to ensure his reelection. The ruling ZANU-PF party used fraud and intimidation to win a two-thirds majority in the March 2005 parliamentary election, allowing it to amend the constitution at will and recreate the Senate, which had been abolished in the late 1980s. In April 2005, Harare embarked on Operation Restore Order, ostensibly an urban rationalization program, which resulted in the destruction of the homes or businesses of 700,000 mostly poor supporters of the opposition. President Mugabe in June 2007 instituted price controls on all basic commodities causing panic buying and leaving store shelves empty for months. General elections held in March 2008 contained irregularities but still amounted to a censure of the ZANU-PF-led government with significant gains in opposition seats in parliament. MDC opposition leader Morgan Tsvangirai won the presidential polls, and may have won an out right majority, but official results posted by the Zimbabwe Electoral Committee did not reflect this. In the lead up to a run-off election in late June 2008, considerable violence enacted against opposition party members led to the withdrawal of Tsvangirai from the ballot. Extensive evidence of vote tampering and ballot-box stuffing resulted in international condemnation of the process. A power sharing agreement has been negoated allowing Mugabe to remain as president and creating the new position of prime minister for Tsvangirai.

For earlier issues see Rhodesia.

THE *GO-TO* REFERENCE OF WORLD BANK NOTES

Employing a worldwide network of numismatics experts, the 25th edition of the ***Standard Catalog of World Paper Money, Modern Issues***, provides the most comprehensive and complete reference to world bank notes issued since 1961.

This industry-leading catalog features:

- Nearly 26,000 listings including hundreds of new bank note issues
- 14,000 illustrations for easy identification of notes and signature varieties
- New and updated country signature charts for specific and accurate variety identification
- Updates of Fiji, Turkey and West African States

With contributions from an international team of collectors, dealers, researchers and national bank officials working to ensure accuracy, the ***Standard Catalog of World Paper Money, Modern Issues***, is the foremost global resource on the market for the proper identification, description and valuation of modern world bank notes.

Awarded The
2017 & 2018
Numismatic Literary Guild
BEST
WORLD PAPER MONEY BOOK

ABOUT THE EDITOR

TRACY L. SCHMIDT worked for several years in the numismatics auction business before joining the Numismatics team at Krause Publications. She has an extensive editorial background in the field and serves as the lead editor for all paper money catalogs.
